

The Border Cities Star

RADIO PICTURES SENT OVER SEA BY NEW METHOD

EXPERIMENTS are under way in transmitting photographs in the method invented by Captain Ranger of the Radio Corporation of America. He went to England with twenty-three cases of equipment which he has installed in the British Marconi plant in an effort to make trans-Atlantic photos. Among the celebrities present were Ambassador Houghton and Owen D. Young, and General Harbord. Photo shows, left to right, General Harbord, Ambassador Houghton, Captain Richard H. Ranger. Behind them can be seen Col. Simpson and Owen D. Young, chairman of the Radio Corporation of America.
