Scrap Dump on Village Green

RESIDENTS WANT JUNK CLEARED

The infancy of a smaller garden settlement is being marred by the council's careless attitude, said Mr. Joyce, the answer to violence.

Vaccine Against Cattle Disease

Suddenly I thought
“One day his cake will have thirteen candles”

And then, I thought, “It’ll be going to a public school. Or will
so I know which school I’d like him to go to. I don’t know
how the money will come from.”

So I did the sensible thing...

I started to put those bills aside...
very immediately, you might say through
so the next month was spent over there.

And I’ll do it all again coming in for three years from the time...

JUDGMENT AGAINST TOMATO GROWER

A man sued to have his 20-year-old cargo of
the tomatoes and was awarded a
the council's mistake.

Vaccine Against Cattle Disease

MR. EDWARD DU CANN (C—Taunton) asked the Parliamentary Secretary for Science what reply he had made to the request of the Pirbright Research Institute for a grant of £100,000 for the development of a vaccine to combat foot and mouth disease.

MR. FREETH said in a written reply: "The governing body of the Foot and Mouth Research Institute, Pirbright, has been authorised to negotiate an agreement with a pharmaceutical firm, the Wellcome Foundation Ltd., for the production on a commercial scale at Pirbrights of foot and mouth vaccines for sale abroad.

"The cost of the buildings required is estimated to amount to about £1,000,000 and will be eligible for a grant aid from public funds."
