

News that will alert farmers everywhere concerns Britain's plans for making and selling on a world-wide scale new vaccines to combat foot-and-mouth disease. Giving the news in the House of Commons, Denzil Freeth, parliamentary secretary to the minister of science, said the vaccines will be made at the government's research institute at Pirbright, in the English county of Surrey, by the Wellcome Foundation Ltd. Research there has produced a vaccine against six or seven types of foot-and-mouth disease. Its efficiency has been demonstrated in experiments with hundreds of thousands of animals in South and East Africa.

Wellcome Foundation Ltd. Research to commercially produce foot and mouth dis. vaccines at Pirbright

Wellcome Foundation Ltd. Research to commercially produce foot and mouth disease vaccines at Pirbright, Surrey UK, Jun. 23, 1961
