FOREWORD

Policy and Supporting Positions lists the leading positions in the United States Government. These positions are outside the competitive civil service, and include those to which appointments are made under schedule C of the civil service rules, other excepted positions at GS-14 (or equivalent) and above, including selected positions under schedules A and B of the civil service rules, and selected positions in the Senior Executive Service.

All General positions in the Senior Executive Service (SES) are listed. Career Reserved SES positions, which can be filled only by career appointees, are not listed. By law no more than 10 percent of total SES positions governmentwide may be filled by noncareer employees. SES positions filled by career employees are identified as being held by a Career Incumbent.

In reviewing the positions listed in this publication, the reader should be aware that some positions such as noncareer executive assignment and schedule C positions serve at the pleasure of the agency head. The excepted status of these positions reflects such considerations as confidentiality, advocacy of Administration programs, or policy determining responsibilities. Numerous other positions, such as those listed in schedules A and B, statutory Inspectors General and employees in the Postal Service are appointed based on specific qualifications.

In addition to the positions listed in the State Department section of this publication, under current law, all positions which are classified as FSO positions are subject to political appointment. Public Law 95-465 provides that a noncareer appointment may be made to any FSO position, as long as the position is not already filled. In other words, if a current occupant of a FSO position is transferred, or is separated from the foreign service, the position may be filled by a noncareer appointment.

All positions in the Senior Foreign Service are also subject to noncareer appointments, with a limitation on the total number of noncareer appointees of 5 percent. The positions listed in the following section represent only the current noncareer appointees.

Agreement could not be reached with the Department of State on the printing of a complete tabulation of positions in the Senior Foreign Service subject to noncareer appointment. The Committee's request for the information was identical to the request made in 1980, when the State Department also did not provide complete information.

The Committee leadership strongly disapproves of the incomplete submission of the State Department and supports the public's right to know who is administering State Department programs. In order to avoid further delay caused by a protracted dispute over this issue, it was decided to proceed with publication even though it contains limited information from the Department of State. To maintain conformity, data received from the United States Information Agency, which also includes foreign service positions, is treated consistently with that supplied by the Department of State. Requests for additional information on the positions not listed should be directed to the State Department and the USIA.

Additional information on the Senior Executive Service, positions excepted from the competitive service and Federal salary schedules is provided in the appendixes.

APPENDIXES

APPENDIX NO. 1

MEMORANDUM ON FEDERAL POSITIONS EXCEPTED FROM THE COMPETITIVE CIVIL SERVICE BY THE OFFICE OF PERSONNEL MANAGEMENT (OPM)

Authority

By Executive order, the President has authorized the Office of Personnel Management (OPM) to exempt from the competitive civil service positions which otherwise would be subject to the Civil Service rules and regulations governing appointment and employment, generally. Civil Service Rule VI defines schedules A, B, and C and grants authority for the OPM to list positions in these excepted schedules. Under Civil Service Rule IX, which established the Executive Assignment System for positions in grades GS-16, GS-17, and GS-18, the OPM may except positions and authorize agencies to fill them under noncareer executive assignment.

The OPM has been given the authority to revoke schedule A, B, and C listings. It also periodically reviews exceptions made under Rule IX, and, after consultation with the agency concerned, revokes exceptions of executive assignment positions which no longer meet the criteria for exception.

The OPM makes decisions about exceptions and revocations after consideration of agency justifications and its own independent reviews and analyses. All substantive decisions are made by the Director personally and are not delegated.

Categories of exceptions

Noncareer executive assignment.—These assignments are made to nonmanagerial positions in grades GS-16, GS-17, and GS-18 if the incumbent will: (1) be deeply involved in the advocacy of controversial Administration programs; (2) participate significantly in the determination of major political policies of the Administration; or (3) serve as a principal assistant or adviser to a Presidential appointee or other key political figure. The positions are of the type which share with Presidential appointees the advocacy of current Administration policies and help assure control of the executive machinery of Government by the political party in power, but which are not included in the Senior Executive Service (SES).

Schedule C.—This schedule is for positions of a confidential or policy-determining character not in grades GS-16, GS-17, and GS-18, or the Senior Executive Service.

Schedule A.—This schedule is for positions which are not of a confidential or policy-determining character, and which are not in the Senior Executive Service, for which it is not practicable to hold any kind of examination, either competitive or noncompetitive. Examples are positions of attorneys for which examination is forbidden by law, student interns, and certain part-time jobs depending on residency in remote locations.

Schedule B.—This schedule is for positions which are not of a confidential or policy-determining character, and which are not in the Senior Executive Service, for which it is impracticable to hold open competition or to apply usual competitive examining procedures. Appointments under this authority are subject to the basic qualification standards established by the Office of Personnel Management.

Filling excepted positions

Agencies generally establish qualification requirements for excepted positions, although the Office of Personnel Management does this for positions listed in schedule B and for positions authorized to be filled by noncareer executive assignment.

Removals from excepted positions

Because of their policy-determining or confidential nature, positions authorized to be filled by noncareer executive assignment and positions in schedule C may be subject to change in a change of National Administration. However, some incumbents of these and other excepted positions are entitled to certain protections, which are outlined in the table on the following pages.

¹ Schedule C employees and employees serving under Noncareer Executive Assignment are excluded from any entitlements by law and Office of Personnel Management Regulation.

² Personal status is civil service status acquired during a period of competitive service.

³ An employee has status in his position if (a) he was serving, with civil service status, in a position in the competitive service when the Office of Personnel Management listed the position in schedule A, B, or C, and (b) he is still serving in that position. This covers employees in attorney positions on Jan. 23, 1955, who were serving with civil service status in attorney positions on May 1, 1947, and who have served continuously in attorney positions between those dates, even though movement to a different agency or activity between those dates may have been effected as an "excepted appointment."

APPENDIX NO. 3

SENIOR EXECUTIVE SERVICE

The Senior Executive Service (SES) is a personnel system covering top level executive and managerial positions in most Federal agencies. Established by the Civil Service Reform Act of 1978, the Senior Executive Service includes managerial and other executive positions previously classified at GS-16, 17, and 18 and Executive Level IV and V positions not requiring Senate confirmation. The number and types of SES positions and appointments to them are governed by specific statutory provisions. By law, only 10 percent of these positions may be filled by noncareer appointments.

Number and types of SES positions

Currently there are approximately 8,000 SES positions allocated by the Office of Personnel Management (OPM) to individual agencies under an overall ceiling established by law. Positions in the FBI, certain intelligence agencies, the Foreign Service, and Government corporations are exempt from inclusion in the SES.

There are two types of positions in the Senior Executive Service: career reserved and general. About half of the SES positions are in each category. Once a position is designated by an agency, the designation may not be changed without prior OPM approval.

Career reserved.—Positions are designated as career reserved where the need to ensure impartiality, or the public's confidence in the impartiality, of the Government requires that they be filled only by career employees (e.g., law enforcement and audit positions).

General.—This category applies to all SES positions not designated as career reserved. General positions may be filled by career, noncareer, or limited appointments. A given general position may be filled at one time by a career appointee and at another time by a noncareer or limited appointee, or vice versa. Because of the limitation on the total number of noncareer and limited appointees, as discussed below, most general positions will be filled by career appointees.

Appointments to SES positions

The legislation establishing the Senior Executive Service provides three methods of appointment to SES positions. Veterans' preference is not applicable in the SES.

Career appointments.—Career appointments to the Senior Executive Service are made through a merit staffing (competitive) process which includes recruitment through published announcement, review by the agency of the qualifications of each candidate, and a further review by an OPM-established Qualifications Review Board of the executive qualifications of individuals proposed for appointment.

A career appointee to an SES position serves a 1-year probationary period. Upon completion of the probationary period, the appointee acquires tenure rights and may be removed from the SES only for cause or for poor performance. Like all career Federal employees, a career member of the SES is entitled to protection against retaliatory or politically motivated personnel actions and may lodge a complaint with the Special Counsel of the Merit Systems Protection Board if a prohibited personnel practice has occurred.

In addition, career SES members have some specific protections during any transition period. Thus, a performance appraisal for a career member may not be made within 120 days after the beginning of a new Presidential Administration, i.e., one where the President changes. Further, a career member of the SES may not be involuntarily reassigned within 120 days after the appointment of a new agency head, or during the same period after the appointment of an immediate supervisor who is not a career employee.

When a career member is reassigned, he or she must be given 15 days advance written notice. If the reassignment is to another commuting area, the notice period is 60 days, and the agency first must consult with the individual as to the reasons and the individual's preferences. A career SES member may not be involuntarily transferred to another agency.

Noncareer appointments.—By law, no more than 10 percent of total SES positions, Government-wide, may be filled by noncareer appointees. The proportion of noncareer appointees may, however, vary from agency to agency (up to a limit of 25 percent) within the overall total. To administer this provision, OPM allocates to individual agencies an authorization for the number of noncareer appointments that may be made by the agency.

Noncareer appointees may be placed in any SES position that is not designated as career reserved. There is no requirement for competitive staffing, but the appointee must meet the qualification standards for the position as determined by the agency head.

Any noncareer appointee may be removed for loss of confidence or change in policy. There is no appeal right following removal of a noncareer appointee.

To facilitate transitions while providing necessary continuity, OPM will normally be able to provide some temporary noncareer appointment authorities to agencies. Thus, some new appointments may be made before it has been determined whether or not removal of existing noncareer appointees is appropriate.

Limited appointments.—Limited term and limited emergency appointments are used in situations where the position is not continuing (e.g., to head a special project), or where a prompt selection must be made to meet an emergency need. Limited term appointments may not continue for longer than 3 years; limited emergency appointments, 18 months. By law, limited appointments may not exceed 5 percent of total SES positions. An agency may make a limited appointment only with the approval by OPM of the appointing authority. As in the case of noncareer appointments, selection procedures and qualifications requirements are determined by the agency, and service is at the pleasure of the appointing authority.

By law, the appointment or removal of a person to or from any SES position in an independent regulatory commission shall not be subject, directly or indirectly, to review or approval by an officer or entity within the Executive Office of the President.

SES staffing in specific agencies

The table which follows gives, by agency, the total number of SES positions allocated, the total number of noncareer and limited appointment authorities, and the number of noncareer and limited SES employees actually serving as of September 30, 1984, which is the latest date information is available.

APPENDIX NO. 4

FEDERAL SALARY SCHEDULES FOR 1984

The information in the body of this report reflects grades or salaries as of September 1, 1984. Where an ungraded position has a salary rate, the basic entrance salary as of September 1 is shown.

EXECUTIVE SCHEDULE

The Executive Schedule consists of five levels, for which the following rates were in effect on September 1:

Level I	\$83,300
Level II	72,600
Level III	71,100
Level IV	69,900
Level V	66,400

SENIOR EXECUTIVE SERVICE SCHEDULE

Pay for the Senior Executive Service is established by the President at rates which range from the rate of basic pay payable for GS-16, step 1, of the General Schedule to the rate of pay payable for level IV of the Executive Schedule. SES career appointees are eligible for Presidential rank awards and performance awards in addition to basic pay.

The Senior Executive Schedule consists of six levels, for which the following rates were in effect on September 1:

ES-1	\$59,223
ES-2	61,615
ES-3	64,008
ES-4	66,400
ES-5	68,150
ES-6	69,900

GENERAL SCHEDULE

Initial appointments to positions under the General Schedule are normally made at the minimum rate of the grade, although under certain circumstances, individuals with superior qualifications may be appointed at a rate above the minimum rate, if the position is in grade GS-11 or above.

Step increases are granted General Schedule employees at the end of 52 weeks of service in steps 1, 2, and 3 of each grade; at the end of 104 weeks of service in steps 4, 5, and 6; and at the end of 156 weeks of service in steps 7, 8, and 9. An employee's work must be determined to be of an acceptable level of competence before each step increase. In addition to the periodic step increase, an employee whose work is outstanding may be advanced to a higher step on this basis no more than once every 52 weeks.

It should be noted that employees in steps 5 through 9 of GS-16, all five steps of GS-17, and the single step for GS-18 were all paid \$66,400, the rate for level V of the Executive Schedule. This salary compression results from section 5308 of title 5, United States Code, which provides that General Schedule pay may not exceed the rate for level V. (This level V ceiling also applies to the Foreign Service schedule and the Veterans Administration Department of Medicine and Surgery schedules, appearing later in this part.)

FEDERAL SALARY SCHEDULES FOR 1985

Under the alternative plan provisions of the Federal Pay Comparability Act of 1970, the President proposed that the General Schedule and the related statutory pay schedules be increased by an overall percentage of 3.5 percent for each schedule, effective on the first day of the first applicable pay period beginning on or after January 1, 1985. The following rates become effective at that time.
