(BW) Lombardi Software Honored with Eclipse Community Award; TeamWorks(R) Software Awarded Best Commercial Eclipse Application at EclipseCon 2006

Business Editors, (c) 2006 Business Wire | March 22, 2006

Patient Data Management
industryview.cdwcommunit.com

AUSTIN, Texas --(BUSINESS WIRE)--March 22, 2006--Lombardi Software(R), the leader in Business Process Management (BPM) software for Global 2000 companies, today announced that its TeamWorks(R) BPM platform has been awarded "Best commercial Eclipse Rich Client Platform (RCP) application" in the inaugural Eclipse Community Awards. The Lombardi TeamWorks BPM software was honored at an awards ceremony last night on the opening day of EclipseCon 2006.

The Eclipse Community Technology Awards recognize the open source projects and products that are being developed around the Eclipse Rich Client Platform (RCP) and developer tools. Technology Award winners were selected by a panel of judges chosen from the Eclipse community.

"We're extremely pleased to recognize the TeamWorks BPM product with the Eclipse Community award for best commercial RCP application," said Mike Milinkovich, executive director, Eclipse Foundation. "Lombardi won for its rich, visionary design that creates a cohesive environment for both business users and developers alike."

TeamWorks is the leading BPM software platform for designing, executing, and improving business processes. The product takes full advantage of Eclipse's numerous user-friendly capabilities, including wizards for building forms, business rules, and a wide variety of reports. Using the robust Eclipse framework, TeamWorks provides industry-leading optimization features that enable Business Analysts to understand and improve process performance from directly within a process diagram. TeamWorks also takes advantage of Eclipse to offer a rich online Help system, the ability to deliver different functionality and "capabilities" based upon the user's skills, and strong inter-operability with thousands of freely and commercially available plug-ins.

"We are proud that TeamWorks has achieved such a prestigious recognition by the Eclipse Foundation," said Phil Gilbert, Chief Technology Officer at Lombardi. "We were the first pure-play BPM vendor to become a member of the Eclipse Foundation and this award validates our dedication to providing the deepest Eclipse support of any BPM platform on the market."

TeamWorks includes a rich, cohesive Eclipse-based modeling environment for building all aspects of a business
process, a highly collaborative web-based work portal for process participants, and process optimization technologies for analyzing and improving business processes. TeamWorks is built on open standards and provides ongoing process visibility and control, increasing the speed and flexibility with which organizations can manage process activity and decision-making.

About the Eclipse Foundation

US Military Record Search

military.archives.com

Search From A Billion+ Records & Find The Person You're Looking For!

Eclipse is an open source community whose projects are focused on providing an extensible development platform and application frameworks for building software. Eclipse provides extensible tools and frameworks that span the software development lifecycle, including support for modeling, language development environments for Java, C/C++ and others, testing and performance, business intelligence, rich client applications and embedded development. A large, vibrant ecosystem of major technology vendors, innovative start-ups, universities and research institutions and individuals extend, complement and support the Eclipse Platform.

The Eclipse Foundation is a not-for-profit, member supported corporation that hosts the Eclipse projects. Full details of Eclipse and the Eclipse Foundation are available at www.eclipse.org.

About Lombardi Software

Lombardi Software is the leader in Business Process Management (BPM) software for Global 2000 companies. Lombardi has both the award-winning technology and implementation best practices to bring business process improvement and excellence to the enterprise. Lombardi's TeamWorks is a Business Process Management Suite (BPMS) built on open standards and provides ongoing visibility and control of business processes, increasing the speed and flexibility with which organizations can manage their process activity and decision-making. Lombardi customers include Aflac, Allianz Life, Applied Materials, Dell, Hasbro, Hoover's, Pfizer, Sprint, T-Mobile, Universal Music Group and the U.S. Government. The company is noted as a Leader in the Forrester Wave for BPM and a Visionary in Gartner's BPM Magic Quadrant. For more information, visit www.lombardisoftware.com.

Lombardi Software and TeamWorks are registered trademarks and TeamWorks Process Optimizer, TeamWorks Portal, TeamWorks Rule Service and Lombardi for Office 2003 are trademarks of Lombardi Software, Inc. All other company/product names and service marks may be trademarks or registered trademarks of their respective companies.

Abridged Minutes of the Board Meeting of the
Eclipse Foundation, Inc.
March 20, 2006

Attendees

Ed Cobb (BEA)
Mark Coggins (Actuate)
Paul Czarnik (Compuware)
Tomas Evensen (Wind River)
Sam Greenblatt (CA)
Andi Gutmans (Zend)
Boris Kapitanski (Serena)
Jonathan Khazam (Intel)
Heikki Koivu (Nokia)
Chris Kolde (representing Raaj Shinde, Borland)
Howard H. Lewis (Add-in Provider Representative)
Scott Lewis (Committer Representative)
Philip Ma (HP)
Kai-Uwe Maetzel (Committer Representative)
Rich Main (Add-in Provider Representative)
Eric Newcomer (IONA)
Michael Norman (Scapa)
**Dave Thomson (IBM)**
David Tong (Sybase)
John Wiegand (Committer Representative)
Todd Williams (Add-in Provider Representative)

Janet Campbell (Secretary)
Mike Milinkovich (Executive Director)

Location: Santa Clara Convention Center, Santa Clara, California.

Administrative Items:

A number of resolutions were reviewed and approved by the Board. These resolutions included:

- Approved the 2005 audited financial results.
  
  Revenue: $3.9M  
  Expense: $3.5M

- Authorized management to plan for EclipseCon 2007.
- There were a number of changes in directors:
  
  o Eric Newcomer replaced Carl Trieloff as IONA’s representative.
  
  o The new committer representatives for 2006 are:
    
    - Kai-Uwe Maetzel
    - Scott Lewis
    - Jeff McAffer
    - Tim Wagner
  
  o The new add-in provider representatives for 2006 are:
    
    - Howard Lewis
    - Todd Williams
    - Jochen Krause
- Mike Taylor
  - The departure of Rich Main and John Wiegand from the Board was noted with regret, as both members had been instrumental in the evolution of the Eclipse Foundation.
- A new version of the Eclipse Foundation IP Policy was approved unanimously by the board.

EclipseCon Update:

Mike Milinkovich provided the Board with an update on EclipseCon 2006.

The Latest News

- As of Sunday evening, we have slightly less than 1400 registrations
  - Last year the total was 1019 after we stopped accepting registrations due to selling out.
  - Our physical plant sell out number this year is 1400 (earlier I had said 1500, but it turns out the conference center had exaggerated a bit about room capacities) and we will exceed 1400 by the Tuesday morning keynote.
  - We sold out four hotels!
- Gifts, gizmos, exhibits, receptions, 140+ technical talks, panels, demos, a “green” meeting, and…
- In spite of my best efforts to break even, we are going to see between $50-$150k of profit.
  - Earlier I had said $100-$150k, but we had to add some AV and room sets right at the end to accommodate the room size/sellout issue,
  - Plus we added the requested “record all sessions for future webcasts”.
Growth

- 40% more of everything
- 40% more attendees
- 40% more exhibit pods
- 140% more presentations

Next year, who knows?
- Tentatively planning to come back to this same facility
- Rent more space and reconfigure rooms in order to accommodate more people – predicted bottlenecks: lunch and keynotes.
- We’re constantly striving to improve the experience for attendees and sponsors – I’ve already got a list.

Modeling Top-Level Project Charter:

Ed Merks and Richard Gronback joined the meeting to provide an overview of the Eclipse Modeling Project Charter. The mission of this project is:

The Eclipse Modeling Project will focus on the evolution and promotion of model-based development technologies within the Eclipse community. It will unite projects falling into this classification to bring holistic model-based development capabilities to Eclipse.

Several last minute changes are going to be made to the charter so voting was deferred to the April 19, 2006 Board phone call, where it was later approved.

Eclipse Roadmap:

Marketing Update

Mike Milinkovich provided the Board with an update on the Marketing status and upcoming plans.
Press Releases in Q1

- EclipseCon Gold Sponsor
- Actuate, IBM, Pentaho, Scapa Technologies and Zend Commit to Eclipse BIRT 2.0
- EclipseCon press releases
  - Eclipse RCP Oriented Projects
  - Momentum of ALF
  - Creation of Corona (joint with Compuware)
  - Creation of PHP IDE (joint with Zend)
- Many member announcements at EclipseCon

Sample Press Coverage

- BIRT Announcement Coverage
  - The Value of Eclipse for the Open Source Community by Pete Loshin 09-02-2006
  - Eclipse Advances Open-Source BI Platform, eWeek
- Higgins Announcement
  - Manage Your Own Identity Online by Clint Boulton 27-02-2006
Press Plans for Q2

- Planned press releases
  - ESC announcements
  - JavaOne news items
  - Callisto press plans

Eclipse China Seminar

- 1 day seminar in Beijing sponsored by Actuate, IBM, HP and Sybase
- 209 attendees
- Press coverage 6 Chinese technology publications
Seminar Series

- 4 city seminar series planned for February 2006
  - San Diego, Dallas, Raleigh, Atlanta
- Sponsored by Exadel, IBM, Sybase, Serena, CollabNet
- Modest results
  - Very good feedback from the attendees
  - However, only 15-30 attendees in each city.

Eclipse Community Awards

- Winners announced Monday, March 20
- 57 nominations; 280 votes
- Individual Awards (community vote)
  - Top Ambassador: Ed Burnette, Erich Gamma, Pat McCarthy
  - Top Contributor: Gunnar Wagenknecht, Linda Watson, Mik Kersten
  - Top Committer: Alain Magloire, Ed Merks, Jeff McAffee
Eclipse Community Awards

- Over 50 nominations in total
- Panel of judges select from:
  - Project leaders
  - Add-in Provider and Committer reps
  - Editors of Eclipse oriented magazines
- Technology Awards
  - Best open source RCP application
    - Finalist: Gumtree, uDig
  - Best commercial RCP application
    - Finalist: Lombardi Teamworks, Future Management Logic MindGuide
  - Best open source Eclipse based developer tool
    - Will only announce the winner
  - Best commercial Eclipse base developer tool
    - Finalist: BEA, Exadel, QNX
  - Best deployment of Eclipse technology in an enterprise
    - Will only announce the winner

Membership Update:
Mike Milinkovich provided the Board with an update on the Membership of the Eclipse Foundation.

2006 Membership Summary

Number of new organizations joining Eclipse Foundation  14

Current Membership Profile
- Strategic Members  16
- Add-In-Provider  97
- Associate  17
Sum  130
Strategic Members of Eclipse (16)

Collaborate on the platform but compete with commercial solutions

New Members 2006

1Q 2006
- EADS
- iMEDIC GmbH
- MicroDot
- Kyto Microcomputer Co
- Fortify Software
- Codign Software
- Perforce
- ST Microelectronics

Project Update:

Mike Milinkovich provided the Board with an update on the projects of the Eclipse Foundation.

Project Changes Last 100 days

- BIRT • 2.0 Release Review was successful
- DTP • 0.7 Release Review was successful
- WTP • 1.0 Release Review was successful
- DSDP • Native Application Builder (eWideStudio) - Creation Review successful
- DSDP • Mobile Tools for Java - provisioned
- Modeling Top-Level • Creation Review successful
- SOA Tools Top-Level • provisioned
- Tools • Eclipse PHP Integrated Development Environment - Creation Review successful
- Technology • Phoenix - 1.0 Release Review was successful
- Technology • BEPL-Designer - provisioned
- Technology • Dash, Tools for Committers - provisioned
- Technology • Open Healthcare Framework - provisioned
- Technology • Process Framework (Beacon) - provisioned
- Technology • Java Workflow Toolbox - proposal updated
- Technology • ECM Rich Client Platform (Apogee) - proposal posted
- Technology • Tools Services Framework (Corona) - Creation Review successful
- Technology • AJAX Toolkit Framework (ATF) - Creation Review successful
Project Structure

- Platform
- Business Intelligence and Reporting Tools Platform
- Data Tools Platform
- Device Software Development Platform
  - MJT eWideStudio
  - (incubation) SOA Tooling Platform
  - Modeling (pending)
  - Test and Performance Tools Platform
- Tools
  - CDT GEF
  - EMF COBOL
  - Visual Editor UML2
- Web Tools Platform
  - JavaServer Faces
- Technology

Next N Releases

Release Reviews & IP Project Log

- IP Process FlowChart: (thanks to Janet and Wayne)

Callisto Simultaneous Release

- M5 milestone the last few weeks – staggered milestones plug a week of update manager problems
  - Some update manager problems – update manager has never had this kind of stress
  - Some infrastructure problems – one download machine serving bad files
- Project/team coordination/cooperation is going very well
- Foundation sponsoring a bug finding contest
  - T-shirts, iPods, and an “Eclipse” mountain bicycle as prizes
