1 **HOST:** I want to welcome everybody to this evening's event,
2 which is being brought to you by the 9/11 Truth Alliance, who
3 got word that Susan was coming to town, and needed a place. And
4 so, we arranged the Lucky Lab as a suitable venue for her kind
5 of talk and book selling/signing event. And, I just want to
6 spend a few moments and just talk about the 9/11 Truth Alliance,
7 and what we've been up to, and what's coming up. And, then I'll
8 briefly introduce Susan and get this talk underway. Now, I
9 assume we'll talk for a little while, and then there will be
10 some discussion?

11 **LINDAUER:** Oh, lots of questions. Anything you want to
12 ask. We'll
13 stay and talk.

14 **HOST:** All right. And, I'm glad you said that, because I
15 think that's a real hallmark of the 9/11 Truth Alliance. The
16 thing that's really special about the 9/11 Truth Alliance is
17 that it insists on free thinking and free speech, and critical
18 thinking. And, it really reacts quickly to gatekeepers. And,
19 when these phrases come up, and a lot of people don't know what
20 they mean offhand, but once you've studied the events of
21 9/11/2001 - it's been almost ten years now - one realizes that
22 there are all these clichés that you can throw up, like "We're
23 in the Matrix." or "It's 1984."

24 All sorts of highly controlled spectacles are being thrown
25 at the public in a very coordinated and nefarious manner, in a
26 way to get the populations of the world to be docile and not
27 think, and be afraid, and do what they are told, and not speak
28 out.

29 And, the 9/11 Truth Alliance is one of the few groups that
30 refuses to stop speaking out, and to stop thinking. And so, by
31 coming here tonight, you're part of this tradition of
32 enlightenment and resistance and truth seeking. That's kind of

1 been the hallmark of a lot of the higher cultures of this
2 planet, and it's a real disappointment that we seem to be
3 entering this period in which truth and enlightenment, far from
4 being cherished, are being stamped out with the likes of
5 Guantanamo, and any other torture chamber you care to name.

6 So anyway, if you want to talk about these things, you can
7 come to the 9/11 Truth Alliance Meetup meeting every Saturday
8 morning at 11:00, at the True Brew Coffee House, which is on
9 Southeast Milwaukee just south of Powell Boulevard, on the east
10 side of the street - I don't remember the exact address. It's
11 right there. We meet at 11:00 until, I don't know, as long as
12 people want to talk, really. And, then we also attempt to put
13 together some other events and things.

14 Coming up, of course, is the tenth anniversary of 9/11 -
15 ten years of war and torture, ripping up the Constitution,
16 crashing the economy. And, here we are. And, we're about to be
17 treated to a media bloodbath in which they're going to rev it
18 all up again, and maybe this time for Iran. And, we'll be doing
19 our counter events. It looks like we will have Jim Fetzer, who
20 has talked about 9/11 also for a real long time. And, he'll be
21 speaking on Friday the 9th. And, I believe it's going to be at
22 the Sellwood Community Center, down in Southeast Portland this
23 September.

24 And, then on Saturday, in the same building, we hope to
25 have kind of an all day seminar for beginners, and then for more
26 advanced people, on the ins and outs of 9/11. There have been
27 all these fabulous documentaries done about 9/11 - all kinds of
28 documentaries done. There is information out the wazoo about
29 it. Books, etcetera, etcetera. But, it all doesn't appear to
30 pierce the hardcore media grip on reality. But, we're going to
31 talk about it anyway. And, it's down in the Sellwood Community
32 Center.

1 And, we're here in the Lucky Lab, because the 9/11 Truth
2 Alliance has experienced the backlash of truth-telling in this
3 town. We've had various different events, and we've been chased
4 out of venues, time and time again. Chased out of venues, one
5 after another. And, this is the reality of where we are right
6 now.

7 Liberal friends, who we thought were liberal friends,
8 turned out to just be liberals. And, they appear to be just as
9 more in favor of Obama, and bombing Libya, and attacking Yemen,
10 and shredding the Constitution, and instituting rendition here
11 in the United States.

12 And, I guess employing Guantanamo tactics, that Pelican Bay
13 and other supermax prisons now in the United States - where
14 there's a hunger strike, which you also wouldn't know about
15 unless you like, kept your ear extremely close to the ground. I
16 mean, Pelican Bay, our very own Guantanamo, is actually just
17 over the border in California from Oregon. So, it's not even
18 just a few hundred miles from here. And, they're torturing
19 people right now, right there.

20 So, anyway, it's a dark time, but I'm really happy that
21 we're still able to practice our free speech rights -

22 **LINDAUER:** For now -

23 **HOST:** For now - and have a speaker like Susan Lindauer,
24 who has had her own story to tell of being in the fold of the
25 national security state, and then kind of being kicked into the
26 hole for not going along with it.

27 **LINDAUER:** Yeah.

28 **HOST:** And, I'm really excited to hear her talk about it.
29 I've heard a few of the prices she's had to pay with her family
30 and others. So it's like, whenever you really start telling the
31 truth - I mean I hate to be so doom and gloom - but you've got
32 to be prepared for the consequences.

1 **LINDAUER:** Serious consequences.

2 **HOST:** And but, at the same time, keep in mind that it's
3 not all about now. It's never always been about now. We're
4 dealing with the future now, and we're fighting for the future.

5 And, you know, that's where we're at. So, here we go.

6 **LINDAUER:** Thank you. Thank you. Well, I have to say, I
7 am so pleased to be here.

8 I have waited ten years, ten years to tell this story. I
9 remember after 9/11 when my CIA handler, Richard Fuisz, told me
10 that "there really wasn't going to be much of a 9/11
11 investigation." And "We were going to try to keep the people
12 calm." That's what he said. "We're going to keep them calm."
13 And I said "What do you mean?" And he said "Well, we don't
14 really need them to know everything that we were doing before
15 9/11." And I said "Well, why? What do you think's going to
16 happen when they find out that you didn't tell them the truth?
17 Why don't you just tell them the truth right now?" And he said
18 "Well, that's not really what they want to do."

19 And so, I had different ideas. I will tell you straight
20 off the bat that right after 9/11, my CIA handler received a \$13
21 million dollar payoff from the 9/11 investigation, that was
22 supposed to be money used to secure Iraq's cooperation.

23 And, I ended up getting indicted on the Patriot Act. I was
24 the second non-Arab American ever indicted on the Patriot Act,
25 after Jose Padilla. And, my crime was in opposing terrorism and
26 going to Congress. And, I had spoken to the staff of Senator
27 John McCain, and Senator Trent Lott. And, I pounded them. I
28 called their chiefs of staff, their legislative directors, and
29 their foreign policy people. And I said "I'm an asset who
30 covered Iraq and Libya at the United Nations and I have a story
31 to tell, and you need to hear what I have to say." And, within
32 30 days - I am not making this up - thanks to the Patriot Act,

1 all of my phone calls to these offices are taped by the FBI, so
2 I can actually prove that they occurred, and I have the dates, I
3 have the actual phone conversations on tape - and within 30 days
4 of those conversations, I woke up to hear the FBI pounding at my
5 door.

6 And, I got up out of bed, and I looked out the window, and
7 there are men in flak jackets in my porch. And, I open the
8 door, and they come into my house, and the FBI agent is shaking.
9 Shaking.

10 And he said "You are Susan Lindauer. You are hereby
11 notified you are under arrest on the Patriot Act." And I said
12 "What?" And he said "You have the right to remain silent. And,
13 anything you say, etcetera, etcetera." He read me my Miranda
14 rights, and I was just like "What are you talking about? I'm
15 making coffee. I'm not a bank robber, I'm not a drug dealer,
16 I'm not a murderer. I haven't broken any laws that I can think
17 of. And, I have no idea what you say that I've done." He says
18 "Well, your attorney will explain it to you later on."

19 That began a five-year indictment, five-year nightmare on
20 the Patriot Act. I was never taken to trial. In five years, I
21 was allowed one morning of testimony with two witnesses. The
22 two witnesses were a former chief of staff for a congressional
23 member of Congress, and my old friend Park Godfrey, who verified
24 the 9/11 warnings that I'm going to talk about tonight.

25 And, I'm going to tell you, and then I'm going to let you
26 guys ask a lot of questions. And, I know you're going to have a
27 lot of questions. I'm going to do my best to answer as honestly
28 as I can. I do not have all the answers.

29 But, I will tell you upfront that I believe there was both
30 the hijackings - and, that does not mean that I'm right and
31 you're wrong - I believe there were both hijackings and a
32 controlled demolition scenario. And, I'll explain to you how

1 the whole thing fits together. And, you may disagree. And,
2 that's OK if you disagree with me. But when you hear what I
3 have to say, you'll understand why I've reached this conclusion.
4 So I believe both of them happened. OK?

5 And, it's also very important for you to know that as the
6 ten-year anniversary of 9/11 comes up - I mean no offense - but
7 you guys have no idea what actually happened. The lies are so
8 much bigger than what you know, and it's so much deeper, and
9 it's so much more tragic once you have the truth.

10 So, on that note, let me just take you to - I'm actually
11 going to start, I'm going to move you a little bit ahead to -
12 remember when George Bush and - they were counting the votes in
13 Florida? I'm going to take you back to November of 2000. They
14 had not yet declared that George Bush had won the election. I
15 was having meetings, with the full knowledge and permission of
16 the CIA, with Iraq's ambassador to the United Nations, on
17 resuming the weapons inspections.

18 It is very important for you to understand that this story
19 with 9/11 also ties in deeply to what happened with Iraq. And,
20 contrary to everything you were told, the Iraqis were not
21 resistant to weapons inspections. They had a comprehensive
22 agenda. The CIA had already a comprehensive agenda for
23 resolving the entire conflict without war at all. And, it
24 involved weapons inspections, cooperation with anti-terrorism,
25 and major financial contracts for U.S. corporations. And oil.
26 And, this would be developed over a period of time.

27 But, we already had - by November of 2000 - we already had
28 an agreement with the Iraqi government. We had a framework
29 agreement that was - at that point it was undefined, or not so
30 well-defined. And, we had to make it defined. But, they had
31 already consented to all of these things. They wanted peace
32 with us.

1 And, so by February of 2001, the Iraqis had agreed to offer
2 to invite the FBI to send a task force into Baghdad, with
3 authorization to conduct terrorism investigations and to make
4 arrests of terror suspects. This is very important for you to
5 understand. So, this is like the background of what you have to
6 know.

7 OK. In April of 2001, I was summoned - oh, this is already
8 happening: the comprehensive peace framework, those discussions
9 are already underway, and I am, at this point, the chief asset
10 covering the Iraqi embassy and the Libya House. I do both of
11 them, and Yemen and Syria and Egypt and Malaysia. But, Iraq and
12 Libya are my primary countries.

13 And, so I'm a back channel. Which means that the U.S.
14 Government gives me messages to give the Iraqis, and then the
15 Iraqis give me messages to give to Washington. So, I know
16 everything. Every single conversation is going through me.

17 And, I can tell you that in April of 2001, I was summoned
18 to my CIA handler, Dr. Richard Fuisz, and he said he had a
19 message for me to deliver to New York at the earliest possible
20 convenience. And the message was this: "We are looking for
21 information on a conspiracy to hijack airplanes. We expect the
22 target to be the World Trade Center. We think they're going to
23 fly the airplanes into the World Trade Center. And we want the
24 Iraqis to provide any, it's called 'actionable intelligence.'
25 "Actionable intelligence" is a name, an airport hub, a flight
26 number, something that's going to help us identify who they are,
27 where they're meeting, what their nationalities are, anything
28 like this.

29 And he says, he gives me a message and he says "We want
30 this information. And, we want you to tell the Iraqis that if
31 they fail to give us this information, and if it is later
32 determined that they knew the information and they did not give

1 it to us, then the United States is prepared to go to war with
2 Iraq." OK, this is April of 2001.

3 Well, I went up to New York, and we were in the middle of
4 these great negotiations. From February of 2001, we had an
5 invitation for the FBI to come to Baghdad. So, I go up to New
6 York, and I'm very pleasant. I'm very polite. There's no
7 reason to be nasty with these people. They want peace. I say
8 "Hey, could you please send a message to Baghdad? We'd like
9 this information if you come across anything." Saddam had been
10 one of our best sources on terrorism throughout the 1990s.

11 Iraq hated terrorism, because they believed that - they
12 hated Islamic jihadists. He hated - I mean, he did. Whether
13 you like Saddam or not, whether you hate Saddam or not, he hated
14 Islamic Conservatives. He was convinced that they would take
15 advantage of the crumbling of authority in Baghdad under the
16 sanctions, and that they would then try to overthrow, overturn
17 his government. And, the poverty of the people from the
18 sanctions would fuel this problem, would help overturn his
19 government. So, he wanted to help us at every turn to keep
20 these people from becoming too powerful. OK. And, so we knew
21 this.

22 So, when I go to New York in April of 2001, I'm very
23 friendly. And I say "Hey, look, could you send the message to
24 Baghdad, let them know we're looking for this? Thanks." And,
25 the message from the Iraqis in April of 2001 is "Hey, send the
26 FBI. We've already invited you to send the FBI. Come on. Tell
27 them, just bring them on. Sure!" Wow. You didn't know that,
28 did you? OK.

29 So, I go back to Washington, and I get a phone call from
30 Richard. And he says "Come down, come down to my office. I
31 want to hear what they said." I go down and I say "Oh, I was
32 real polite. Yeah, yeah, I gave them the message. Sure, sure."

1 He said "I didn't tell you to be nice. I told you to tell those"
2 - this is going to be on television, right?

3 OK, I'll soft pedal what he said. He was like "You stupid,
4 godddamn blankety blankety blankety blankety. I told you to
5 tell those SOB MFers God-G-D blah blah blah" - screaming and
6 circling me around his conference desk. I'll never forget it.
7 Circling his conference desk, ranting and raving, waving his
8 arms around. He didn't do that very often. He does not have
9 that kind of personality. He's a very calm man. He feels that
10 if you're really angry at somebody, then the more calm you are,
11 the more dangerous you are. That's CIA. He's old-school CIA.

12 OK. So, he's screaming now. And he's like "You go back to
13 New York, and you deliver the message exactly the way that I
14 told you to deliver the message." And I said "Well, Richard, I
15 don't want them to think I'm threatening them, because I believe
16 in negotiations and conflict resolution." He said "No, no, I
17 don't want them to think you are threatening them." And he said
18 "I don't want them to think I am threatening them. I want you
19 to tell them this threat of war originates at the highest level
20 of government, above the CIA director, and above the Secretary
21 of State." It would be three men - President George Bush, Vice-
22 President Dick Cheney, and Secretary of Defense Donald Rumsfeld.
23 And, no one else. Those are the three people who are
24 threatening war.

25 And, I want to be really clear about the message that I was
26 ordered to give them - "We demand that you turn over any
27 actionable - any fragment of intelligence, outlining a
28 conspiracy involving airplane hijackings and a strike on the
29 World Trade Center. If you withhold this information, if we
30 discover that you have withheld this information, and the attack
31 occurs, then we will bomb you back to the Stone Age. You will
32 be bombed harder than you have ever been bombed before. You

1 will be destroyed. You've never been hit the way we're going to
2 hit you now." OK. So, I went up and I delivered that message.
3 This is May of 2001.

4 In June and July, practically every single week, my CIA
5 handler, Dr. Richard Fuisz and I, talked about 9/11. And, it
6 was very clear that the intelligence community was being prepped
7 for two things. One, to expect airplane hijackings. Now, I
8 have to be honest with you, because I know a lot of you are
9 interested in the controlled demolition, they prepped us to
10 expect the airplane hijackings. They told us about it. Like,
11 my CIA handler demanded that Iraq had to give us this. And,
12 they insisted that if it happened, there would be dire
13 consequences.

14 Now, what you're going to see in my book - and we have more
15 copies of my book outside, and we've got more here, too. There
16 was something else going on that summer that was very beautiful.
17 This peace framework that we had been working on was
18 magnificent. It was turning out just glorious for a peace
19 dividend. The Iraqis were now offering the weapons inspections,
20 which, of course, the United States had very rigorous standards
21 for the weapons inspections. Iraq was offering cooperation with
22 anti-terrorism, to allow the FBI to go in. And, Iraq started to
23 offer a lot more. A lot more came on the table. By the summer
24 - by June and July of 2001, Iraq was offering the United States
25 preferential contracts.

26 Now, think about the economy today - preferential contracts
27 for the United States corporations on telecommunications, health
28 care, hospital equipment, pharmaceuticals, and transportation.
29 Iraq offered to buy one million American-manufactured
30 automobiles every year for ten years. Think of what that would
31 have done to the economy. Think about non-dual use factory
32 production. Because the CIA was like "If we are going to give

1 up these darn sanctions, we're going to take a pound of flesh
2 with it." They had no - and whether you like the CIA or not,
3 and most of you, 99% of you don't like the CIA. I realize that,
4 of course.

5 But, the CIA was doing what it's supposed to do, whether
6 you like it or not. They were taking care of what is in the
7 best interests of the United States government, with the best
8 interests of the United States economy. And, they were not
9 going to let Iraq punish the United States. And, I hated the
10 sanctions. I was doing this because I hated the sanctions. I
11 was doing it because they had destroyed education. They wiped
12 out literacy in a single generation. They destroyed the
13 hospitals and the health care system.

14 Iraq performed the second heart transplant in the world,
15 and we wiped them out. OK? Eleven thousand people died every
16 month. By the end of 1996, 500,000 children had died of
17 sanctions. And, they only counted five-year-olds and younger.
18 They didn't even count the 6-year-olds, because the United
19 Nations was holding back the numbers. And, after that report,
20 in December of 1996, they stopped counting - the United Nations
21 never published another report on the deaths. So, frequently
22 what you will hear is that only 500,000 children died. But in
23 fact, they continued to die. And approximately one million
24 children died. They were babies. They weren't even alive when
25 the first Gulf War happened. This was an offense against - this
26 is genocide. This is a mass genocide. So, that's my
27 motivation. But, the CIA did not have my motivation. They were
28 out to make sure that the United States was not going to be
29 punished for what they had done.

30 And believe me, by this point, we just wanted to get rid of
31 the sanctions. The Iraqis were like "If they will get rid of
32 the sanctions, you bet, we'll give them anything they want."

1 So, before 9/11, you could have had every single thing you
2 possibly could dream of. And, if the CIA could have thought of
3 more to ask for, we would have. We would have asked for more.
4 We were shameless.

5 So, you have peace that's breaking out in the Middle East.
6 You have the 9/11 warnings. And, then in August of 2001, we
7 went into high mode, high activity mode. I can tell you the
8 exact day - on August 2nd. And, after I tell you this, I'll open
9 it up to questions.

10 On August 2nd was the Senate nomination hearings for Robert
11 Mueller to head the FBI. He was going to be the FBI director.
12 And, I was on the phone with my CIA handler, Richard Fuisz. And
13 I said "There's not one single terrorism investigation this man
14 hasn't thrown. He threw the Oklahoma City bombing
15 investigation, he threw Lockerbie." And I said "This man should
16 not be the FBI director when this next attack occurs." And
17 Richard Fuisz said to me "My God, what if there is no FBI
18 director when this happens?" I said "Do you think it's that
19 soon? Do you think the attack is imminent?" He said "Oh, yeah."
20 He said "It's absolutely just in the next couple of weeks."

21 And I said "Well, God, Richard, I'll go back to New York
22 right now, and I'll pump the Iraqis and see if they've got
23 anything from Baghdad. I'll see if they have any news for us."
24 And he said "Oh, my God, Susan, don't go back. Do not go back to
25 New York City. It's too dangerous. We are expecting the use of
26 a miniature thermonuclear device."

27 And, they were not afraid that I was going to be hurt by
28 like, falling debris in the World Trade Center. I wasn't going
29 to be at the World Trade Center. They were afraid of radiation
30 contamination. Like the winds blowing the radioactive stuff.
31 And he was like "Don't go up there. We're expecting mass
32 casualties." And I said "Well, Richard, I'll go up there - and

1 I can tell you the exact day, it was a Thursday - and I said "I
2 will go up to New York on Saturday, and I'll report to you on
3 Monday. And, we'll just find out if the Iraqis have anything to
4 give us."

5 I went up to New York, the Iraqis said "Ain't got nothing.
6 We don't know. We don't know anything about this. You keep
7 telling us about this - the only way we know about it is because
8 you're talking about it. Well, we don't have any information to
9 give you. And, if we did, we understand the consequences. We
10 know that if we don't help you, you're going to go to war with
11 us if you think we did. And, if there was anything we could
12 give you, we would do it."

13 So, I go back and I report that on August 6th. On August
14 6th, there is a memo to the President telling him that this is a
15 high security threat, that it is an emergency level, that it's
16 imminent.

17 At my meeting with Richard Fuisz, Richard Fuisz does
18 something very important. He tells me that because of my direct
19 contacts with Iraq and Libya, I should be the one, I am
20 perfectly positioned - because everyone likes to think that Iraq
21 and Libya are involved in terrorism to begin with - I should be
22 the one to contact U.S. Attorney General John Ashcroft's office.
23 And, I should tell them that we're looking for what's called "An
24 Emergency Broadcast Alert," across all agencies, seeking any
25 fragment of intelligence involving airplane hijackings and a
26 strike on the World Trade Center, identified specifically. And,
27 I make that phone call.

28 That conversation with Richard Fuisz was on August 6th.
29 Probably August 7th, August 8th, I call them. And, immediately I
30 talk to them. See, you guys couldn't get this number, but I have
31 it. I have the number inside the Attorney General's office.
32 I'm not calling a switchboard, I'm calling his private staff.

1 OK? I'm calling like, his government liaison office. No, no,
2 no, that's not true. I call his private internal office. There
3 are about 20 members of his private staff. His legislative
4 director is there, his government relations person is there.
5 But, I call inside that office. And, they give me the phone
6 number for the office of counterterrorism. They say "Repeat
7 exactly what you just told us, and tell them."

8 I am told that John Ashcroft said "Oh, those CIA people
9 keep talking about terrorism, and they keep talking about this
10 darn airplane hijacking, and they are so paranoid. And, why do
11 they keep bugging us about it?" That's what I'm told he said,
12 but I did what I did. And, when I did that, I apparently
13 tripped some wires. Because it denied the White House, it
14 denied the Justice Department and the Attorney General's office,
15 of deniability, plausible deniability. And, that's very
16 important. And, that is why they came after me so hard and
17 tried to destroy me utterly. Because, they could not admit to
18 you that we had absolutely anticipated this thing. We knew it
19 was going to happen exactly as it did go down, with one
20 exception. And then I'm going to finish this, and then I'll
21 open the floor to questions.

22 What I have learned since then - now, all the things that
23 I've told you are things that I did directly. So, I'm not
24 relating what somebody else did, or a conversation that somebody
25 else had that has been reported to me. This is direct, primary
26 knowledge from my own experience. But, what I'm going to tell
27 you now is from somebody else. OK? And, so I distinguish these
28 two things.

29 I have been told by somebody who saw the videos, that at
30 the World Trade Center, from approximately August 23rd, and it
31 could have been August 22nd, it could have been August 24th, OK,
32 approximately August 23rd until approximately September 3rd, and

1 again it could be September 2nd - the spooks can be weird about
2 this stuff, OK? They could say "Well, it wasn't September 4th.
3 So, 'no'." No, it could have been September 3rd, OK? It could
4 have been September 2nd.

5 Right within a couple of days of this, my friend says that
6 at approximately 3:00 in the morning, strange vans - and, there
7 were maybe three of them, he said, but not just a couple - the
8 way he put it was "a couple of vans" - so we're thinking three,
9 possibly four, but most likely three - "A couple of vans arrived
10 at 3:00 in the morning, after the janitorial trucks had left the
11 building."

12 And, it's very important, because they were able to
13 identify the vans according to make, model, color, and there
14 were no markings on the vans. But, the janitorial vans did have
15 markings. And, so they were able to distinguish that these are
16 not the same vans. And, they know how the janitorial trucks
17 left the building. They actually tracked the paths that the
18 janitorial trucks took to drive home. Like, the janitorial
19 workers were driving down certain roads to get over to their
20 houses.

21 And the CIA, or the FBI, or the NSA folks, tracked those
22 people home. And, he was quite convinced that these are not the
23 same trucks. And, between the hours of 3:00 and 5:00. These
24 trucks had never been in this building before. It was an
25 anomaly, definitely. It wasn't like it was going on for months
26 and months, and it just continued. They showed up for ten days,
27 10 or 11 days approximately, then they were never seen again.
28 And, that's when they believe they wired the building.

29 And, my friend told me, absolutely, it was a thermite bomb
30 with potential sulfur in it. The important thing about a
31 thermite bomb is it is an extraordinary heat reducing bomb. OK?
32 It takes steel and it creates molten steel. So, it takes beams

1 of steel and it turns it into molten steel. And it just rots -
2 everything underneath just sinks into the ground, like what you
3 saw. And, it is a special U.S. military grade weapon. OK? It
4 is a military grade weapon. It's not something you could make -
5 ever - in your kitchen, or your garage, or your living room. It
6 is impossible for you to do this. This is a U.S. military
7 weapon.

8 And, so I do believe that that helps to explain some of the
9 missing pieces. And, I believe this is what happened. They had
10 known about the terrorist attack for months. There is a long-
11 term advance knowledge. Assets are being watched. The so-
12 called terrorists, whether you want to think of them - whether
13 they are real - Mohamed Atta was an asset, trained by the United
14 States government, supervised by the United States government,
15 and, I can assure you that assets - and, I'm speaking directly
16 from my own personal experience - assets are heavily controlled
17 individuals.

18 I was never dealing with Iraq and Libya without somebody
19 paying extremely close attention to me at every stage. My
20 phones were tapped, and, at some point, they had wired my house.
21 When they had the handover of the two Libyan men, I went down to
22 my basement the same day that they handed over the men, and my
23 ceiling of my basement had been torn out. And, there were cable
24 wires dangling from the ceiling. About a dozen cable wires.
25 And, I had a contractor come over to my house, and he said "Wow,
26 somebody put a really kickass stereo system in your house.
27 That's amazing." He said "You have these wires going to every
28 single room in your house. Even in your bathroom." And I was
29 like "Oooh." He said "it's everywhere." He said "You must have
30 like a stereo system that just rocks in this house."

31 But so, anyway, but the point is that assets - there's no
32 way that these assets could have functioned without everyone

1 knowing every single detail of what they were doing. There is
2 no way they could have hidden. They could not have disguised
3 their actions from their handlers. Even if they tried to
4 disguise it, it wouldn't work. Believe me, it wouldn't work.
5 No. It's impossible. Impossible.

6 And, so it's more likely that they were using Mohamed Atta
7 to guide the conspiracy, to track the conspiracy. And, then
8 they discovered that they were bozo pilots, they were clowns,
9 they weren't any good at this flying stuff. And, now they had
10 an agenda. And, the agenda was that when this attack happened,
11 they were going to go to war with Iraq. But "Oh, gosh, we've
12 got a problem now." Because, the problem is, they're not going
13 to be able to do the job. "Uh oh. Oh. What a bummer." And,
14 I'm speaking now again from experience.

15 The 1993 World Trade Center attack killed five people. The
16 bombing of the USS Cole killed 12 people. And, once the smoke
17 clears, and the catastrophe - the chaos is over, and the noise
18 is done, there's not a lot of damage - certainly not enough that
19 would allow a government, a pro-war cabal, to throw itself into
20 a new war with Iraq, which they wanted to do. They'd already
21 decided to do it, and so that is the motivation.

22 The thing is, any police officer will tell you, there is no
23 crime without a motive and opportunity, and we had both. So,
24 it's not like they just spontaneously wired the World Trade
25 Center. They knew it was coming, and they wanted to make sure
26 they had maximum damage when it hit. They knew they were going
27 to use the airplanes as the cover to demolish the building.
28 A lot of people in the 9/11 Truth community have gotten kind of
29 - when I first broke this news, a lot of people attacked me.
30 And they said "You're saying there were airplane hijackings.
31 No, no, there was a demolition." And I'm like saying "No, no,
32 there's both of it. Both things happened. They knew the

1 airplanes were going to be hijacked, so they used it as a cover
2 to guarantee maximum destruction, because they already knew the
3 consequence of war."

4 So, there you have it. OK.

5

6 Q: I forget what you said that your job was. You were a
7 go-between?

8 A: I was what is called an asset. I was an intelligence
9 asset. I was supervised by handlers for the CIA and the Defense
10 Intelligence Agency. I was not covert. I was covert from your
11 end. Like, you guys - the American people had no idea that
12 President Clinton had opened up a back channel, because they
13 didn't want you all to know this. But, in fact, from the very
14 first meetings that I had at the Iraqi embassy, and the Libyan
15 embassy, they were told who I was. They knew that I was a
16 passionate, anti-sanctions activist, and passionately anti-war.
17 I hated the first Gulf War - protested the Gulf War. And, I
18 wanted to do anything that I could to try to create a
19 communications - they couldn't have a formal communications
20 because of the sanctions, they were officially on the pariah
21 list - and yet, they had to have some kind of communications and
22 discussion on terrorism specifically.

23 Q: So, my question is, you were a back channel between
24 everybody? I find it odd that your boss doesn't talk to the
25 people in the administration.

26 A: Oh, they did.

27 Q: And, they sent you over there to yell at people or tell
28 them stuff.

29 A: No, no, I know that he did. What he did was, I believe
30 - and I could be wrong about this - but, I believe that he
31 contributed to the White House memo, the presidential directive,
32 instruction, request. There's a formal term for that. I'm

1 afraid I can't remember off the top of my head what it is. He
2 did contribute to that. And, he had vastly more information
3 than I did. I was getting all my knowledge from him.

4 But, the fact was that we needed fast turnaround on this,
5 because we thought the attack was within a couple of weeks. In
6 fact, the attack didn't occur for another - this was August 6th,
7 and it occurred over a month later. But, we thought that the
8 attack could come as early as the third or fourth week of
9 August. We thought it was imminent.

10 Q: [garbled]

11 A: Well, he probably did also. Everybody was doing it.
12 See, this is the thing that - no offense - but there was so much
13 discussion about this attack. Everybody was talking about it.
14 George Tenet had some meetings. Other analysts had meetings at
15 the White House that Condoleezza Rice has like, conveniently
16 pretended didn't happen. But, there was a lot of knowledge.

17 And, the fact that I would be able to get the Attorney
18 General's attention, and his staff's attention, by saying "I'm
19 in direct contact with Iraq" - that's kind of like a bona fide
20 thing. In the CIA, they call it a bona fide.

21 Q: [garbled]

22 A: Yeah, exactly. And, it wasn't like a supervisory thing
23 at that point. They wanted someone with direct contact.
24 Because I had direct contact with the events, and I could cite
25 that and say "You need to listen to me. Because I spoke with
26 the Iraqis on Saturday, and I need to tell you this." You see
27 what I mean? So, I know he did other things, too.

28 Q: In the course of your talk, what I haven't heard is any
29 real evidence that there was a genuine jihadi plot. Maybe
30 that's in your book. But, you haven't said anything to show me
31 that such a plot existed. In fact, the impression I get from
32 the evidence that you've presented about what your bosses were

1 talking about what was going on in the U.S. government, is that
2 the U.S. government was trying to create a predictive situation
3 with this attack -

4 A: Yes.

5 Q: - which in my opinion could well have been the sum and
6 substance of the attack. And that, as I said, I haven't seen
7 anything that you've said that shows me that there was a genuine
8 jihadi plot.

9 A: You know, this is a very good question. Because, it's
10 really questionable that there was a jihadi plot. I do believe
11 there were hijackers. Now, I have to tell you that I do believe
12 there were hijackers. On the other hand, I know that the people
13 they did identify were assets. OK? They worked for the United
14 States government. And, the men who were identified as the
15 hijackers were not jihadis. They were not devoutly religious
16 men. They went to strip clubs, they drank alcohol, they smoked
17 cigarettes, they chased women. Real, deep, authentic jihadis
18 would do none of that. And, so it's really curious to me as to
19 what their - and I don't have an answer for you, unfortunately -
20 but what their final minutes must have been on this earth. What
21 did they think they were doing? I truly do not know. I don't
22 know if they thought it was just a training exercise. I don't
23 know if they thought - I just don't know. But, I do not think -
24 I do not believe they were jihadis, real jihadis.

25 Q: One other point. You say that there was a point in
26 midsummer 2001, when the CIA and elements in the U.S. government
27 may have become concerned that having planned this event, cared
28 for it, that the alleged jihadi pilots weren't going to be able
29 to accomplish the goal.

30 A: Yes.

31 Q. Well now, according to the official version of 9/11,
32 they did accomplish the goal of flying the airplanes into the

1 buildings. And so, do you think that the CIA made a mistake,
2 and underestimated the talent of these pilots?

3 A: Well, here's the thing. They did fly into the building. Of
4 course, they did. And, they could have been on automatic pilot
5 - that makes sense. We know that there was a heightened GPS,
6 and a heightened cell phone activity that is very unusual.

7 Usually, the GPS only works to - it doesn't work at certain
8 altitudes. And, at a scale of like 1-10, the GPS signal was
9 working at a 10, whereas ordinarily it might work at a 4. See?
10 And, so something was helping boost, and it had to be boosted.
11 It couldn't have just spontaneously done this on its own.
12 Something had to be boosting the GPS signal. And, it's just a
13 matter of scientific requirement that it had to be boosted. And
14 it was.

15 The cell phone was the same thing. Some people have tried
16 to say that the cell phone conversations did not happen. I do
17 believe they did happen. I do believe that people got through
18 to their spouses. But again, you see, there had to be some
19 technological boost for it to be done. And, I think that the
20 hijackers got a lot of help. They got a lot of help.

21 Q: Have you considered like, Russ Baker's *Family Secrets*
22 and Annie Jacobsen's *Area 51* that just came out recently? And,
23 the last one I just read was Naomi Wolf's *The End of America*?

24 A: Yes. Good, yeah.

25 Q: So, how can you expect us, knowing the corruption of
26 moral character - what I believe is, I think fundamentally where
27 we're at is a spiritual crisis. And, that's the big picture.

28 A: Yeah.

29 Q: So, I'm sort of interested in you in part of it.
30 Because, I'm sure that there are people who are dedicated in the
31 CIA that are very trustworthy.

32 A: Well, yeah -

1 Q: Well, trustworthy in the sense that their motivations
2 are clear. But, I think overall, considering all the torture
3 and the long history that it's had, you can't believe anything.
4 Basically, you can't. You just don't know. There's so much
5 spin with it.

6 A: Yeah.

7 Q: I'm not saying there's not dedicated individuals. I
8 think there are. I don't think everything is black and white.
9 So, what I'd like to get from you in part is, first of all, your
10 picture of the big, overall. What's the primary motive? You
11 said before, but who? I mean, what is the big picture? Who are
12 the big honchos at the top that are directing it?

13 A: Well, I'd like to answer this on a couple of levels.
14 First of all, the CIA has a long track record of false flag
15 operations on itself.

16 And, one of the reasons that I may be more trustworthy is
17 that I was an asset, not a CIA director. My CIA handler
18 received \$13 million, tax free - didn't even have to pay a
19 dollar in taxes. Is that not the sweetest thing that you have
20 ever heard in your life? From the 9/11 investigation of
21 emergency appropriations that were intended for the Iraqi, to
22 secure Iraq's cooperation. And, he took the money, and you've
23 never heard him speak. And when I was under indictment, my own
24 CIA handler refused to speak to my attorneys for five years. If
25 he had spoken to my attorneys at any time at all, we could have
26 ended my indictment entirely.

27 But, the other thing is that I was - the reason you should
28 trust me is because I paid for this. I was locked up in prison
29 on a military base for a year, and I was held under indictment
30 for five years. And, if you do a little research on my story,
31 you'll find the government was so threatened by what I was going
32 to say, that they actually argued to - and this is in a record,

1 there's a history of this, you can confirm this - they wanted to
2 forcibly drug me with Haldol, Ativan and Prozac, which would
3 have chemically lobotomized me. Because, they admitted that I
4 was not hallucinating. I did not - do not suffer depression -
5 for those of you who do suffer depression, sorry, but I don't.
6 I don't have mood disturbances. They said I had good eye
7 contact, I was cooperative, smiling.

8 They could not identify anything wrong with me except that
9 my defense was that I had worked in anti-terrorism for nine
10 years, and I warned about 9/11, and my team warned about 9/11.
11 And, they tried to detain me up to ten years. They actually
12 petitioned the court for the right, on the Patriot Act, for the
13 right to detain me up to ten years in prison with no trial, and
14 no hearing. Imagine that. The government is arguing that we
15 don't have to give this woman a hearing. We can just lock her
16 up indefinitely. And, I was the test case on this, and it was
17 horrible. And, they wanted to lock me up, and forcibly drug me
18 at the same time, so that I would be so destroyed. They told
19 the judge that they had no idea how long my 'cure' - my 'cure'?
20 - was going to take. But, they wanted it.

21 Q: Who was the judge?

22 A: The judge in my case was Michael Mukasey. Michael
23 Mukasey later became U.S. Attorney General. And, I fought so
24 hard. And, my beloved companion, sweet, wonderful Jay Fields,
25 who died of cancer, unfortunately, never lived to see me
26 exonerated. He fought in the blogs, and he fought on
27 alternative radio because the corporate media refused to cover
28 my story. They didn't want to tell you what was going on. They
29 implied very strongly that I was a religious maniac.

30 And, I do believe in God, and I have a spiritual life.
31 Yes, I do. But, I'm not a religious maniac. I guess a
32 religious maniac would be someone like Elizabeth Smart, rapist-

1 kidnapper, who went into court and was like spouting religious
2 stuff, and was standing up and singing hymns in court, stuff
3 like that.

4 Q: [garbled]

5 A: There was - actually, I call it my amnesty
6 international moment. The Justice Department had already
7 petitioned to forcibly drug me. And, I was waiting for a
8 decision. And, one morning - I was locked up in prison at this
9 point. I had been held on Carswell Air Force Base for eight
10 months, and then I was moved to the Metropolitan Correctional
11 Center in New York for four months - and one morning at 5:30 in
12 the morning, the guard wakes me up, he shakes me and says
13 "You're going to court today." And I'm like, weeping. I'm
14 thinking that they've got the decision, and they're going to
15 like, send me back to Carswell to be drugged, and I'm
16 hysterical. I was absolutely hysterical.

17 And, I get into the courtroom, and I'm in a holding cage
18 that's about the size of this table. And, they come in, my
19 attorney comes in, and he says "Oh my God, someone has started a
20 blog on your case, and people are writing your judge. They're
21 writing Judge Mukasey. You got to tell your friend to stop
22 doing this." I was like "Never. No. No way." And, literally,
23 I grabbed the bars and was like "We are never going to stop. We
24 are going to fight to defend this Constitution. You are
25 breaking the law. And, we are never going to shut up until this
26 is done. You can tell that crooked prosecutor that he can just
27 go to hell, because we're going to keep talking until - you're
28 never going to shut me up now." This was a mistake. This was a
29 huge mistake that they did this to me.

30 And we went in, and the judge was like - so, at that point,
31 Jay had published psych records. After my arrest, I had been
32 ordered to attend -this actually saved me - I had been ordered

1 to attend weekly psychology meetings. I had never had any
2 psychological problems. And, I had a year's worth of
3 documentation saying that I suffered no mental illness - no
4 depression, no psychoses, no mania, no nothing, no mood
5 disturbances. And, these are in the back of my book. So, you
6 can actually look at this stuff for yourself, and you can see
7 the papers with your own eyes and you can read them.

8 And the judge was like "Well, this is extraordinary.
9 You're telling me that this woman is incompetent, and she's
10 suffering from this grave mental illness, and yet she has all
11 these records which are on the bloody Internet. Why are these
12 papers not in my courtroom?" And the judge was like "Uh uh,
13 this is just not going to happen." And, at that point, I was
14 saved. Because the judge was like "This woman is not
15 cooperating."

16 If I had been cooperative, they would have done it. If I
17 had been passive, they would have done it. But, I'm a fighter.
18 And, they still wouldn't give me a hearing. And, I know how to
19 fight. I'm an activist and an asset. Believe me, I know how to
20 fight. And, it was like the Patriot Act was so hideous, so big,
21 so powerful, that there was nothing they were going to let break
22 through.

23 But, Judge Mukasey also did the financial case on the 9/11,
24 the insurance claims for 9/11 for Larry Silverstein, who went to
25 his synagogue. They both attend the same synagogue. Yeah,
26 cozy. Very cozy.

27 Q: Did Mohamed Atta willingly sacrifice himself, or did he
28 know what was going to happen to him?

29 A: I do not know. See, I wonder about all of these
30 things. Because, I wonder if they thought that it was like a
31 practice, of if they thought this was just - I don't know the

1 answer to that. It's fascinating to think what they must have
2 thought.

3 Q: Many of the foreign newspapers have reported that many
4 of the hijackers are still alive.

5 A: Yeah.

6 Q: I think six or seven of them were. One of them is a
7 pilot for the Saudi Arabian Airlines. I believe one lives in
8 Los Angeles. So, there was all this. And, then there was a
9 report [garbled]

10 A: That's true.

11 Q: So, it doesn't make sense that there were these
12 hijackers that hijacked planes. I mean, obviously something is
13 wrong with this story, that these people are still alive.

14 A: Well, I wonder though, it was so - as an asset, this is
15 probably going to frustrate you. I'm trained to stop where I -
16 it's very much compartmentalized. And, there are certain things
17 that I know from my own direct, personal experience that I can
18 tell you. And, then there are other things that I'm taught just
19 to say - to draw a line. And, it may drive you crazy, but there
20 are some things that I cannot answer, because I don't know.
21 And, as an asset I'm told to stop, and to always distinguish
22 what I actually know from what I don't know. And, that's one of
23 the things I don't know. Sorry. But, I do believe there were
24 hijackings.

25 Q: How do you hold on to the story that there were
26 hijackings? [garbled]

27 A: But we don't necessarily know who the hijackers were.

28 Q: We also have other information that some of the serial
29 numbers on the planes were located several years later, and the
30 planes are still in existence. So there's a lot of like, very
31 strange - and, then there was that plane that went down in
32 Pennsylvania with no plane parts.

1 A: That was shot down.

2 Q: There were no plane parts anywhere.

3 A: There was a plane that was shot down, and I know that
4 there was a pilot who shot down one of the airplanes, and he is
5 locked up in prison in Florida right now.

6 Q: Who is he?

7 A: I don't know. I could get it for you. I will get it
8 for you. I'm sorry, I've been told his name before, and I'm
9 actually doing a radio interview with Michael Hertzog tomorrow,
10 who is the one who told me about the guy. And, I will get that
11 information, and I will pass it to our friend over here, and
12 we'll get that to you. Because he needs help. The last I
13 heard, he was still in - see, it could be that, I hope he's been
14 released. And, he may have been released by now. But the last
15 I heard he was still in prison. And, if he is still in prison,
16 it would be awfully nice if you guys could help him.

17 Q: Who's to gain and who's to lose?

18 A: The tragedy was that before 9/11 ever happened, they
19 already knew about this peace framework. And, they already knew
20 that they could have - the United States would receive no
21 punishments at all - or no punishment. They would not face any
22 problems because of the years of support for the sanctions. The
23 Iraqis wanted the sanctions off so badly, that they were going
24 to give the United States everything that they could have
25 wanted.

26 So, this is even going on before 9/11 happens. And, they
27 were going to give them one million American-made automobiles
28 every year, telecommunications - that would be satellites,
29 phone, TV - the CIA could have been snooping through all the
30 Middle East phone conversations. It was crazy what they lost -
31 health care, hospital equipment, pharmaceuticals. Just on and
32 on, just amazing things. Oil. Yeah, they could have had

1 everything, even oil. And, the only group that wasn't going to
2 benefit, was the military-industrial complex. Because this
3 would have been peace. This would have been a very prosperous
4 peace.

5 Believe me, the CIA was driving a hard bargain. Anything
6 that we could think to ask. And, I have to say again, I'm anti-
7 sanctions. So, I know that a lot of people would say "Well,
8 that's not fair to do to the Iraqis." And, I agree with you, I
9 agree with you, but it was what the CIA wanted. And, they were
10 going to have every single thing that they could think to get.

11 And, at the same time, we all knew that it would have to be
12 tremendous to appease George Bush, because he was out for the
13 Daddy Bush fantasy - this delusion. It was a delusion. But,
14 the one group that was not going to benefit was the military-
15 industrial complex. And, they were going to be the big losers
16 in this whole thing. They were not going to be able to have
17 their wars. They were not going to be able to sell their
18 military weapons systems, the \$400 billion for this equipment or
19 that equipment. They wouldn't need any of it. And, so they
20 were the losers. And, they were just too powerful.

21 Q: This isn't actually a question, but more of a comment.
22 We were talking about the Pennsylvania Flight 93 alleged crash,
23 and I just want to say that anyone can claim to have - any pilot
24 can claim to have shot down the airliner. That's easy to claim
25 something like that. But, did it happen? And, I just want to
26 point out that not only was there no plane debris at the alleged
27 crash site, but neither was there a debris field anywhere else.
28 And, we know from incidents like Lockerbie that when a plane
29 blows up over land, it leaves a debris field. [garbled]

30 A: Well, it's also the Pentagon. I do not believe that
31 the Pentagon was hit by an airplane. I mean, all that debris
32 suddenly was just magically removed? There was no airplane

1 there, either. So, there's still a lot of questions about 9/11
2 that I cannot answer for you. And, I'm sorry.

3 These are good questions you're asking. And, it's not like
4 I'm trying to blow you off. There are just some things I don't
5 know. But, hopefully, I'm going to give you enough new
6 information that you'll be able to like, put some more pieces of
7 it together.

8 Q: You mentioned your compartmentalized structure at the
9 agency.

10 A: Yeah.

11 Q: And, I think that's pretty well understood how one
12 person can be sitting here working on a project, and the next
13 person's there, and they're not allowed to really look at what
14 the other one is doing. In light of that, I think you're
15 probably aware that - it's been documented - there were
16 somewhere in the neighborhood of 25 military drills running on
17 9/11.

18 A: Yes.

19 Q: Which is absolutely unprecedented. Not only that,
20 there was one drill that was specifically on a hijacking, that
21 was exactly the scenario that we're told transpired. And,
22 you've probably studied Webster Griffin Tarpley's analysis of
23 this, his *9/11 Synthetic Terror Made in USA*, how he breaks this
24 down - very convincingly, I believe - that the operation was
25 accomplished through the drills. And, certain people were doing
26 certain things and maybe, probably likely didn't even know that
27 they were involved in an operation.

28 A: Yes.

29 Q: And, couldn't share information because of this
30 compartmentalization. And, I'm just wondering if you had an
31 opportunity to talk, after all of your ordeal, with anybody else
32 who was able to confirm any of this -

1 A: Well, I will tell you that the 9/11 conspiracy is based
2 on something called Project Bojinka. And, are you all familiar
3 with Project Bojinka? OK. Bojinka was designed by Ramzi
4 Yousef, who was the mastermind of the 1993 World Trade Center
5 attack. In his grand scheme, 11 airplanes would be hijacked,
6 and would strike different targets all over the United States.

7 The World Trade Center would be one. But, then they would
8 hit the White House. They'd hit the Justice Department. They'd
9 also hit, like Chicago. They'd hit Los Angeles. And,
10 throughout the whole country there'd be strikes. And, the
11 military discovered this when they found, or the CIA discovered
12 this, when they arrested Ramzi Yousef in the Philippines in
13 1995, and they found the blueprint for this 9/11, what became
14 the 9/11 attack, on his computer, and he called it Project
15 Bojinka.

16 And, at that point, the military began to run simulated
17 counter-strategies for what you would do if there was an
18 airplane hijacking scenario that was attacking various targets
19 throughout the United States. And, one of the targets was the
20 Pentagon. And, then the Pentagon said it was too outrageous,
21 that nobody would actually attack the Pentagon this way, so
22 maybe they should drop the Pentagon scenario. So, they did.

23 But, even though they had rehearsed Project Bojinka, on
24 September 10 through September 12, NORAD was on high alert doing
25 military exercises, because allegedly the former Soviet Union,
26 the Russians, were doing their military exercises. So, we timed
27 our military exercises allegedly to theirs. And, they were
28 supposed to be on heightened alert just in the course of
29 practice. They were supposed to be on heightened alert for any
30 invasion of sovereignty of airspace, sovereign airspace, on
31 those dates. And yet, even though the military was on high

1 alert, they took no action when the airplanes were hijacked, and
2 they didn't scramble. They broke all of their own protocols.

3 Q: But weren't they mostly sent up in directions away from
4 the -

5 A: Yeah. There you go. Yes, yes, yes, yes. And, they
6 sent one jet, they turned one jet around, and sent it after, one
7 fighter, to go track down -

8 Q: - and they were already on drills and exercises that
9 had already taken them out, and basically left the eastern
10 seaboard unattended?

11 A: Yes.

12 Q: This is supposed to be the smartest military in the
13 world, right?

14 A: Yeah, yeah. There you go.

15 Q: [garbled]

16 A: Yeah, exactly. Well, there was embarrassment.

17 Q: [garbled]

18 A: Well, other than me, and the guy who was allegedly
19 flying the plane that was involved in shooting down 93, who they
20 don't want you to know about, who was held in prison for a
21 couple of years, at least, and I don't know if he's out or not.
22 I mean, they gave him a real hard time.

23 Q: Susan, can you remind me again what the sanctions were
24 for in Iraq? And, two questions. And then, I just wanted to
25 get clear about what you were arrested for.

26 A: Good. The sanctions were to punish Iraq for allegedly
27 having weapons of mass destruction. And, they said that they
28 would keep the sanctions on Iraq until all weapons of mass
29 destruction were confirmed to have been destroyed. Now, it
30 appears that they were actually destroyed by the end of 1996 or
31 1997. But, the United States had an ulterior agenda, which was

1 they were not going to let go of the sanctions until Saddam was
2 out of power.

3 But, what had happened was, by the year 2000, while Bill
4 Clinton was still in office, the international loathing for
5 sanctions had become intense. Two million people had died from
6 sanctions. Between 1.7 million and 2.2 million had died. And,
7 the international community was violating the sanctions. The
8 German pilots, and Jordanian pilots were - actually, it was
9 coming from all over Europe - Germany was the first. And, they
10 had pilots fly humanitarian supplies over the air through
11 sovereign airspace and land at Baghdad Airport. And then, a
12 whole bunch of other countries followed suit and they were all
13 like "We're not going to do this. This is wrong, it is immoral,
14 it is a crime against humanity. And, we recognize that."

15 And, so at that point the CIA - I wanted to do it - but at
16 that point, the CIA knew that they were losing control of the
17 situation, and that they'd better step in and do something.
18 And, I wanted to end the sanctions. So, I was glad the pilots
19 were doing this. But the CIA was very, very expedient. It was
20 politically expedient. They were losing control of the
21 situation. They wanted to take back their power.

22 Q: And what were you arrested for?

23 A: I was arrested for - I was accused of several things.
24 One, I was accused of acting as an "unregistered Iraqi agent",
25 because I had delivered a letter to my cousin, who is the Chief
26 of Staff to George Bush, telling him that the war in Iraq would
27 be catastrophic, and outlining several of the consequences like
28 democracy would throw power to Islamic fundamentalists; and,
29 there would be a rise of terrorist attacks; and, the Iraqi
30 people hated the sanctions, and they would hate America for
31 having done all this, and if they could get their hands on

1 America, it would just be a very ugly, brutal occupation - and
2 they'd fight us. That was my letter. I went to jail for that.

3 And they also accused me of - they called it "unlawful,
4 financial transactions." I was accused - I'm not making this up
5 - of allegedly eating three lunches. I'm not making this up -
6 three lunches with Iraqi diplomats, totaling \$92.92. We have
7 the receipts, and they brought criminal charges. They called
8 that a felony. There were secret charges against me which we
9 have deduced. We were never allowed to know what they were.
10 See, on the Patriot Act - let me just tell you a little bit,
11 because I think this is a good opportunity to explain.

12 When I was indicted, under the Patriot Act, they are
13 allowed to have secret charges, and secret evidence, and secret
14 grand jury testimony. The Patriot Act is modeled on - pretty
15 much verbatim in many pages, in page upon page - identical to
16 the old Communist Criminal, let's see, I guess it's the Soviet,
17 let's see, there's a long name for it, The Soviet Criminal Act,
18 which set up the KGB apparatus, and allowed people to make false
19 accusations against their neighbors without identifying
20 themselves. And, it set up the whole gulag system. And, the
21 Patriot Act is modeled on that Soviet law, The Soviet Criminal
22 Act. And, it's almost verbatim to what that is. So, I mean,
23 this is a really scary, scary law.

24 But I was accused of like, possibly - in the secret
25 charges, one of what we believe, the secret charge was that I
26 received a book - a book - from the Iraqis, that was a book on
27 depleted uranium and that was considered classified. Because,
28 if we were to tell American soldiers about the health risks, and
29 the rise of cancer rates, and birth defects, then it might
30 demoralize American soldiers. OK?

31 And, another thing is that Saddam's government tried - I'm
32 not making this up - another secret charge was that I, we

1 believe - because I know what I was doing in the periods when
2 they'd have a date - and I would know approximately what I was
3 doing on that date. And, so another one was that the Iraqis
4 tried to give the Bush administration several hundred thousand
5 dollars in campaign contributions during the presidential
6 election, because they wanted to show that they wanted to be
7 friends with America.

8 And, I had reported that to my Defense Intelligence
9 handler, and he was like "Holy shit. You got to tell the Iraqis
10 not to do this. You got to make them not do this." Because we
11 reminded them all of the Asian fundraising crisis under Clinton.
12 And he's like "Don't they watch C-Span? Don't they know they're
13 not supposed to do this?" And he said "You go back, and you
14 tell them if we find out they gave money to the Republican Party
15 in this campaign, we're going to bomb them."

16 But see, at this point, Iraq had been bombed so many times,
17 you couldn't threaten them with bombing anymore. Because, they
18 had already been attacked. How are you going to impress on
19 people who - "Oh, you're going to bomb us again? OK. Sure."
20 You know?

21 Q: I just wanted to know how you knew that Mohamed Atta
22 was a CIA asset.

23 A: That's been very well established. They've admitted
24 that he was a CIA asset.

25 Q: Could you send me a reference or something so I can -
26 to verify that?

27 A: I will find a reference for you and give it to these
28 guys. And, yeah, sure. I'll get you some references on that.
29 But, it has been verified that he was. And, he received some
30 military training, too.

31 Q: So, when I look in the audience here, we're pretty old.
32 If we look old to you, I'm sorry. I'm sorry.

1 A: That's okay.

2 Q: Do you go to universities or high schools? Because,
3 young people can stir things up, and do some major changes. Can
4 you do that, or do they say "No, you cannot do that"?

5 A: Well, actually, I really just started doing this
6 because my book came out just six months ago. And, so I've done
7 a lot of radio, and I've done a lot of blogging - which is more
8 youth, I guess. That's not really fair to say that it's younger
9 people. But, I do a lot of radio, and a lot of new media stuff.

10 Q: What about college campuses?

11 A: I would love to do that, I would love to do that. This
12 is really my first, kind of book tour. But, I would love to go
13 to college campuses. I'm just kind of figuring out how to do
14 it. Because, part of the problem is, the corporate media will
15 not cover my story at all, even when I was locked up in prison.

16 One of my favorite stories - I know you guys all love Amy
17 Goodman, but Amy Goodman - you got to hear what she did to me.
18 When I was locked up, my boyfriend called her, and talked to her
19 producers and said "Please, Susan is the cousin of the Chief of
20 Staff to the President. She covered the Iraqi embassy. She
21 warned about 9/11. She's locked up on a military base on the
22 Patriot Act. And, they are refusing to give her a hearing.
23 And, she was the chief asset covering Iraqi pre-war
24 intelligence. The government is saying she's incompetent. And,
25 they are saying that assets were incompetent. And, yet she's
26 accused -" and he gave her the letter, the Andy Card letter and
27 said "She wrote this letter, and it turned out she was right on
28 all fronts. Couldn't you please interview her? Couldn't you do
29 a story? Please, help us." And, you know what she did? She
30 said "Well, maybe her attorney thinks this is a good strategy.
31 We wouldn't want to upset things for settling the case."

32 Q: She'd been told to stay away from this story.

1 A: Yeah, but you know, she did it herself, and she's to
2 blame for it. And, I will tell you, I will never forgive Amy
3 Goodman for that.

4 My boyfriend was like, in tears. He was weeping. I mean,
5 he was a retired navy guy. And you guys, you know Navy guys
6 don't - you know men. Some men don't cry. He cried. He broke
7 down in tears. And, it's hard sometimes. Some men - and it's
8 hard sometimes - not all men - but some men cry, and I know
9 that, but he did. He was really upset. And, he was just like
10 "She won't do this." He was like, just heartbroken. He was
11 heartbroken for me.

12 And, I was locked up in prison at the time. And, I'm on
13 the prison phone saying "What the f*** do you mean Amy Goodman
14 won't do this? How could she not think this is a right story?
15 What did you say to her to make her not do this story?" And, he
16 was like "I don't know, I don't know. I told her." And I said
17 "Did you say this and this and this?" And he said "Yeah."

18 Q: I heard you on the Jeff [garbled] program last week -

19 A: On Libya.

20 Q: - on Libya, so that's very similar to what's happening
21 right now.

22 A: There's no reason for the United States to be invading
23 Libya at all. There is no justification for this. It's ironic
24 because we're fighting Al-Qaeda in Afghanistan and Iraq, and
25 Libya is actually, the Libyan rebels are radical Islamists who
26 are trying to institute Sharia. And, whether you like Sharia or
27 not, whether you like the Islam, whether you like Gaddafi or not
28 - see, this is where it gets, you're an asset.

29 Whether you like Gaddafi - you may hate him, you may think
30 he's bad - but the facts are that the rebels are Islamic
31 radicals. They do want to institute Sharia. And, at least be
32 honest and say it, because that's what you're going to get.

1 And, don't pretend you're somewhere else. Don't pretend these
2 are people who are doing something different than what you say.
3 That is what their goal is. And, they don't want democracy.

4 Gaddafi has been in power for 41 years, and I know it's
5 time for change, but he has also had a tremendous track record
6 on women's rights. They do not have to wear the abaya. They
7 are free not to get married if they don't want to. Women are
8 free to get divorces if they want. And, when we talk about
9 Sharia, what I mean is that the Libyan rebels want the women to
10 wear the burka. An abaya is the burka where they cover their
11 hair and stuff. They don't have to do that now. They are going
12 to have to do it in the future. They do not want the women to
13 have the right to reject marriage proposals. Under Gaddafi's
14 government, they have the right.

15 An Imam actually visits the women before marriage, and sits
16 with them privately - which is really unheard of - and makes
17 sure that the women are not being pressured into a marriage.
18 And, if the young woman says that she is being pressured, under
19 the law of Libya, the Imam has to protect the woman from the
20 abuse of the relatives. And, so he has to give her a chance to
21 reject the marriage when nobody is there to pressure her to do
22 it. Because, this is what happens in Islamic families.

23 Q: [garbled]

24 A: Right now, there is a counter-coup
25 oing on in Libya, in Benghazi. There's all kinds of
26 dramatic stuff that's happening.

27 Q: Hasn't Gaddafi been a pretty good ally to the West in
28 recent years?

29 A: Absolutely.

30 Q: Then why is NATO supporting the rebels if they are in
31 favor of Sharia? I don't understand why NATO's supporting them.

1 A: It is very interesting. Gaddafi has oil - Libyan oil
2 costs \$1 per barrel to produce. And, the United States had
3 preferential contracts already. The United States and France
4 and Britain - they could take as much oil as they wanted. And,
5 most of the oil does not come to the United States. It does,
6 however, go to Italy and France and Britain. So, it's a major
7 source of European oil. And yet, what Gaddafi was doing was,
8 Gaddafi also has gold. And, I think it's very interesting that
9 we have this major financial crisis, and now we're attacking a
10 country that has both oil and a huge private reserve of gold on
11 its own land. And like 500 - I would have to double check this
12 fact - but it's like 500 tons of gold in its bank vaults.

13 Q: 143.

14 A: 143. I stand corrected. 143 tons of gold, correct?

15 Q: Something like that.

16 A: Something like that. And, we're trying to take their
17 gold and their oil, and it's so dirty. It's a dirty fight.

18 Q: Why do these radical fundamentalists want to let us
19 have the oil and the gold once they win?

20 A: Well, you know, you should be in Washington. That's
21 the kind of thing that makes sense. But, the Americans are
22 choosing to believe they're going to have this sweetheart deal.
23 And, I am agreeing with you. I think that as soon as they get
24 in, they are going to say "you know, too bad." Privately, I get
25 emails from some of these - because they know me, they know that
26 I'm out there. I'm against the rebels and they do send me - I
27 do get emails that are very nasty. They said "Do you really
28 think we'll sell out and give you our gold for free? Do you
29 really think we're going to do that?" I'm like "Well, I think
30 that Hillary Clinton thinks you're going to do it, and I think
31 that David Cameron in Britain thinks you're going to do it."

1 And also, I do have documentation that Israel has promised
2 - I actually have an Israeli military document, OK, in Hebrew,
3 that I've had translated. OK, this is just what it says. This
4 is a primary document. It says that Israel will provide
5 financial support to the rebels in exchange for a military base
6 in Libya, in the Green Mountains. And, the military base will
7 be called One by One. And, the Green Mountains is where -
8 close to where the gold is, which I find very interesting.

9 Q: Susan, I'm really interested in your constitution, and
10 how you're dealing with all of this. I'm really impressed with
11 all the interviews I've heard, and how you seem like a really
12 grounded, confident, yet buoyant person, and hearing that you
13 have a sense of humor and a sense of irony. I like to think I
14 have that. But, how do people go through what you've gone
15 through? And, people we know being called into grand jury, and
16 put being put into detention - what was it called?

17 A: The Communications Center Detention. That is a very
18 scary -

19 Q: When it gets that bad, how can we be sure that people
20 can still stand up and talk like you are talking today?

21 A: Well, I'll tell you. When I was locked up in Carswell,
22 I cried every day. Not when I first went in. When I first went
23 in, I was told it was going to be four months, and then I'd be
24 released. And, the first four months I was OK, because I was
25 like "I'm going to get out of this. And, boy, am I going to
26 have a story to tell. And, they're not going to shut me up."

27 But, when they refused to release me, and I realized that I
28 was not going home, and at that point they dropped the bomb on
29 me that they were trying to hold me indefinitely, and only when
30 I thought I was going to be held indefinitely - and then that
31 continued for another eight months - I became absolutely

1 terrified out of my mind. And, I began to have very serious
2 post-traumatic stress.

3 Q: Well, you said you hadn't gone through depression
4 before, and I was just wondering how -

5 A: I went through deep anxiety. And it was like, my blood
6 pressure - the stress level - it was like a war, a constant war.
7 I was so frightened. I actually color my hair, OK? My hair
8 actually went white. And it did. It went white.

9 Q: So you had contact with people you needed to have
10 contact with?

11 A: No, no. And, I'll tell you something. I was locked in
12 prison, and at that point I had a public attorney, who made no
13 effort to get me out. And, my uncle who, God bless his heart,
14 lived in Illinois, was driving 700 miles. He was an attorney,
15 though. He had 40 years of experience in corporate law. So he
16 was not a criminal attorney, but he was an outstanding attorney.
17 He read up on my type of law. He studied what I needed to do to
18 move out of this situation, and he made three efforts to see me.

19 But, because I was locked up in what now they are calling a
20 communications center - yeah, scary, scary people - and all the
21 political prisoners, all the women political prisoners are being
22 held in Carswell. So, if any of you guys are ever arrested on
23 the Patriot Act, you'll be seeing the inside of Carswell, too.
24 But, they don't have to let the attorneys onto the base.

25 And, so even though he was both family and an attorney, and
26 he was coming on visiting hours - he was showing up when other
27 family members were allowed on the base. Like, if you were in
28 prison, you would be able to have your family members show up.
29 He wasn't asking for any special privileges.

30 We filled all the forms. It was all reported correctly.
31 He would show up at the base, and they would say "You're going

1 to see that Iraqi agent. You are not coming into our base. No,
2 there is no prison here."

3 And, then they said there were no visiting hours on the
4 weekends. And, other people were going right around him, and he
5 was saying, "You can go in. You can go in. Here, you are not
6 going in." And, he drove 700 miles in each direction. And,
7 believe it or not, there's an affidavit from him in the back of
8 my book. And so, what I'm telling you is confirmed. It's like
9 it sounds extraordinary, but it is confirmed.

10 But, how did I keep my spirits up? I was terrorized. I
11 was absolutely frightened out of my wits. And, I'm just
12 jubilant that it's over. I did have a wonderful, loving
13 companion who died. He died two days after the court granted my
14 request for a hearing. For four years, we lived together, and
15 he fought for me to have that hearing. And, then as soon as we
16 got it - he had cancer at the end - and as soon as he found out
17 that we had the hearing, he died. Two days - he didn't even
18 live 48 hours after that. And, so then I had to have the
19 hearing without him, and that was like, very traumatic. But, he
20 always had this attitude that was really cool, which was, you
21 know, he hated self-pity. And he wasn't going to tolerate it
22 and he was like "You chose your values." And, he had this
23 attitude, he was like "You choose your values, and when you
24 believe in something, you have to be willing to pay the
25 consequences, pay the price for your values. And, you have to
26 take your consequences." And, he said "If you really believe in
27 what you did, then you should be proud of yourself. And, don't
28 let these people take this away from you." So, that was his
29 attitude.

30 Q: Just one last question. I'm just not familiar with the
31 word "asset." And, Robin asked that question, too. Can you

1 just help me clarify what that really is? Is that like a
2 secretary?

3 A: No, no. An asset is like an operative. It's like a
4 field operative. A human asset is the eyes and ears that goes
5 into the situation, into the room, and has direct contact with
6 events. So, that's why assets are trained, we are trained to be
7 very observant of the full situation, and to be very descriptive
8 of what we are doing. And, we're trained not to change what
9 we've seen for any reason. And, that was a real threat to the
10 Bush administration, because it's just like, you don't ever
11 change your story.

12 Because the detail that you think is small, that you think
13 you might compromise, could turn out to be very important,
14 because you are compartmentalized. And, you're like, seeing a
15 picture of this, and they need to know what this is. They need
16 to see what you see right here. Even if you don't know what's
17 over there, or what's over there. They have to know that this
18 here that you're reporting is as accurate and precise as
19 possible.

20 Q: [garbled]

21 A: Yeah, basically, with the exception in this situation
22 that the Libyans and the Iraqis both knew who I was from the
23 first day that we went in. And, the reason that the Libyans
24 knew immediately - once I told the Libyans it was over, you
25 can't ever take it back - and that was that my CIA handler, Dr.
26 Richard Fuisz, was involved in the Lockerbie case, and he wanted
27 to be a witness testifying in the Lockerbie case. And, so
28 before I ever went to the Iraqis, we started talks for the
29 Lockerbie trial with Libya. And, we wanted the Libyans to know
30 that if they would accept the trial that his testimony would
31 help exonerate their people. So, then I had to tell them who I
32 was, and, so they knew.

1 But, I remember the first conversation I had with Mr. Amara
2 at the Libyan embassy. He was like "We want to know why you are
3 here. This is a very important question. It requires a very
4 important answer." And, so he was like "We want to know what
5 the heck are you doing?"

6 Because in 1995, when I established contact with the Libya
7 House, people just didn't wander into the Libya House, believe
8 me. And, if I had not been an asset, the FBI would have
9 arrested me the minute I came out of there. So, they were told
10 not to touch me.

11 Q: After you were locked up for a year, and then it was
12 five years total that you weren't allowed to say anything?

13 A: Well, five years I was under indictment. So, when
14 you're under indictment, anything you say can and will be used
15 against you in a court of law. However, what they had done was
16 very clever. Because, when I was released from prison, the
17 corporate media told everybody I was crazy. I had been declared
18 "incompetent to stand trial". And, so there must be something
19 really wrong with me, so most people wouldn't listen to what I
20 had to say anyway.

21 Q: So what happened in the next four years? And, then did
22 anybody say anything when you were starting to come out with
23 this? And, have you ever heard from anybody, and your Mr.
24 Whatever his name is at the CIA again?

25 A: Well, very good questions. I was actually under indictment
26 for 18 months before I got sent to prison. And, then I was held
27 for a year. So, when I am released from prison, that's actually
28 the halfway mark of my case. Then I found another attorney, and
29 it took him about another 18 months.

30 Try to understand what I'm saying to you. Two and a half
31 years I'm under indictment, and I'm released from prison. For
32 another 18 months, the court refuses to grant me a hearing after

1 I've been released from prison. Because I get another attorney,
2 he says "I can take her case. I can work with this woman. As
3 far as I'm concerned, she is competent to help me assist in this
4 defense. She is capable of assisting in her own defense, if I'm
5 taking it." He went into court, he stood in front of the judge,
6 he assured the judge that he could work with me. This was not
7 going to be a problem. Because, the reason anyone is declared
8 incompetent is if they're not capable of helping their attorney
9 in the case.

10 Q: What kind of court was it?

11 A: U.S. Federal Court, Southern District of New York. The
12 first judge was Judge Michael Mukasey. He then retired, and a
13 new judge took over - Loretta Preska. Her husband worked for
14 Daddy Bush. There's a surprise.

15 Q: So after that, what happened until now?

16 A: So, we did have the hearing in June of 2008, right
17 before the presidential election in November. And, people like
18 Michael Hertzog, at Oracle Broadcasting, and Republic
19 Broadcasting, the Internet radio was giving me a lot of
20 attention. And, they were like, helping to defend me.

21 And, when my witness testified in court about the 9/11
22 warnings, then it exploded out more. But again, people who pay
23 attention to the Internet do know this story. And, then they
24 began to talk about it a lot more. But, then my case continued
25 another year. And, my CIA handler has said, I'm told he thinks
26 it's really a shame what they did to me. He feels sorry for me.
27 He does not feel sorry for what he did. But he says that "I'm
28 very sorry that they screwed Susan." But, he didn't give me any
29 money for my legal defense.

30 Q: Did you hear anything from anybody about the book?

31 A: Oh, when I do radio interviews, there are funny things
32 that happen. Like, my phone will cut out, and it'll just go

1 dead. Like, I make sure that I have my batteries charged, and
2 all this stuff, and the phone will just drop dead, drop out, and
3 the battery will just disappear. Or, if they can't kill the
4 phone calls, sometimes there will be like a loud beeping noise:
5 "Beep! Beep! Beep!" And, all the way through like an hour
6 interview without stop. It'll just continue all the way
7 through.

8 Q: Has anyone directly come up and threatened your
9 publisher?

10 A: Well, I have had to self-publish it. Because, the
11 corporate press, they're like "No one wants to hear about 9/11.
12 No one wants to hear this." And, then we were afraid. We did
13 have some smaller publishers who were willing to take it, but we
14 were very much afraid at that point that a smaller publisher
15 would be threatened, and then they would close the book, and
16 they'd stop it.

17 And, so I decided that the safest way to go forward would
18 be to self-publish it, and hopefully, by the time you realize I
19 have 700 footnotes, I've got the documents in here, I've got the
20 affidavits in there, and now I'm safe because no one has sued
21 me, no one has threatened to sue me, and so, hopefully, in the
22 future, if I write a second book, then, hopefully, they'll pick
23 up this one and both of them will be distributed.

24 So, thank you.
