

President Bill Clinton

Founder, Clinton Foundation; 42nd President of the United States

William Jefferson Clinton, the first Democratic president in six decades to be elected twice, led the U.S. to the longest economic expansion in American history, including the creation of more than 22 million jobs.

After leaving the White House, President Clinton established the William J. Clinton Foundation, and today, the renamed Bill, Hillary & Chelsea Clinton Foundation, works to improve global health and wellness, increase opportunity for girls and women, reduce childhood obesity, create economic opportunity and growth, and help communities address the effects of climate change.

Today the Foundation has staff and volunteers around the world working to improve lives through several initiatives, including the independent Clinton Health Access Initiative, through which over 11.5 million people in more than 70 countries have access to CHAI-negotiated prices for HIV/AIDS medications. The Clinton Climate Initiative, the Clinton Development Initiative, and the Clinton Giustra Enterprise Partnership are applying a business-oriented approach to fight climate change worldwide and to promote sustainable economic growth in Africa, Latin America, and the Caribbean. In the U.S., the Foundation is working to combat the alarming rise in childhood obesity and preventable disease through the Alliance for a Healthier Generation and the Clinton Health Matters Initiative. Established in 2005, the Clinton Global Initiative brings together global leaders to devise and implement innovative solutions to some of the world's most pressing issues. So far, more than 3,500 Clinton Global Initiative commitments have improved the lives of over 430 million people in more than 180 countries.

President Clinton was born on August 19, 1946, in Hope, Arkansas. He and his wife Secretary Hillary Rodham Clinton have one daughter, Chelsea, and live in Chappaqua, New York.
