OBAMACARE WEBSITE MAKES CORRUPT CLAIMS ABOUT THE TECHNOLOGY

ETHICS DISCLOSURES REVEAL FINANCIAL LINKS BETWEEN OBAMA'S TECH WONKS AND FACEBOOK; THE WONKS HAVE BOTH BAILED OUT

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | UPDATED MAR. 20, 2013, POST-SCRIBD CENSORSHIP | PDF

(NOV. 8, 2013)—Working on the assumption “where there’s smoke there’s fire,” AFI investigators have dug further into the claim of the Obamacare Privacy Policy that the software platform is “open source ” Open source essentially means that the software is free to use without compensating the inventors.

Obamacare even names Facebook as one of their open sources. However, Facebook is using technology stolen from Columbus innovator, Leader Technologies. Leader proved this in federal court on 11 of 11 claims.

To make matters worse, the federal justice system, including Chief Justice John G. Roberts, fabricated arguments for Facebook, abused due process, ignored well-settled precedent and circled the wagons to ensure that Facebook did not lose the case.

Chief Justice Roberts himself holds 11 Fidelity Fund investments, and he mentors Facebook's appeals attorneys, Gibson Dunn LLP. Facebook's largest shareholder and director, James W. Breyer, is a long-time business partner with Fidelity's Robert Ketterson. None of these conflicts were disclosed in *Leader v. Facebook*. This is the same Chief Justice who shocked the nation by crossing the aisle to support Obamacare, raising suspicions of undue influence.

TECH WONK COLLUSION AT THE WHITE HOUSE

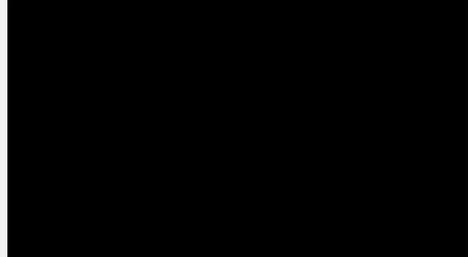

FIG. 1—ANNESH CHOPRA, U.S. CTO, and DAVID J. KAPPAS, U.S. Patent Office, collaborated on The America Invests Act, thus showing their evidently close association. What they failed to disclose to the American people is their cooperation with The Facebook Club, prior to their appointments, and their exploitation of major funds like Fidelity and Vanguard to buy political loyalty and silence about the corrupt election-rigging and personal data collection schemes that are so undermining the OBAMACARE website currently.

These men also do not disclose that they have confiscated the social networking invention of Columbus-based innovator, Leader Technologies, while they hypocritically sing the praises of innovators like Leader whom they are abusing in this very video. Video: *The White House*, Sep. 16, 2011.[4]

An AFI commenter several days ago discovered that President Obama’s first Chief Technology Officer (CTO), Aneesh Chopra, presents himself as both a healthcare and open source expert. Strangely, even though Chopra established the healthcare tech agenda for this administration as America’s first CTO, he bailed on his boss’s signature legislation on Jan. 27, 2012, ostensibly to campaign for Lt. Governor of Virginia. He lost the primary on June 12, 2013.

KAPPUS' MISSION WAS TO KILL LEADER TECHNOLOGIES' PATENT

Chopra’s Senate confirmation hearing was on May 19, 2009. [1] He was confirmed just a few days later on May 21, 2009. Three weeks later, on Jun. 18, 2009, President Obama announced his intention to nominate David J. Kappos to be director of the U.S. Patent Office. Kappos’ Senate hearing was on Jul. 29, 2009 before the summer recess. Then, in a surprise move, on Aug. 7, 2009, Obama confirmed Kappos during the summer recess—without public notice.

Investigators started looking for linking relationships between Chopra[2] and Kappos[3] in their financial disclosures. They discovered that both men had substantial investments in Vanguard Funds. In addition, Chopra had substantial investments in Fidelity Funds. Both Funds invested heavily in Facebook before the IPO.

FIG. 2—U.S. Patent Office Director, DAVID J. KAPPUS' public financial disclosure report.

The report reveals that Kappos withheld from the Senate his intention to dump \$500,000-\$1.2 million of his IBM holdings to purchase as many shares in funds controlled by VANGUARD FUNDS. Vanguard is now identified as a key member of the FACEBOOK CLUB, organized and controlled by LAWRENCE "LARRY" SUMMERS, soon to be Obama's NATIONAL ECONOMIC COUNCIL DIRECTOR; and JAMES W. BREYER, ACCEL PARTNERS managing partner, as well as FACEBOOK'S largest shareholder and chairman. Breyer was also chairman of the NATIONAL VENTURE CAPITAL ASSOCIATION (c.a. 2003-2005) at the time of theft of LEADER TECHNOLOGIES' invention by FACEBOOK. Leader and Accel Partners then shared a law firm—FENWICK & WEST LLP and its Managing Partner, GORDON K. DAVIDSON, who had Leader's source code and tipped off the Club.

How many bankers and lawyers does it take to corrupt a democracy?

Kappos' 2009 government ethics financial disclosure is a handwritten mess. Important information is omitted. For example, he discloses that he received salaries from unidentified "Pro Bono Partnerships" (how does one receive income from pro bono activity?), but discloses neither the names of those partnerships nor the amounts received. He also discloses the sale of one of his three properties, valued between \$3-15 million total, but fails to identify the amount of the income from the sale, presumably \$1-5 million.

Most telling, Kappos obscures the timing of his sale of IBM holdings and purchases of Vanguard Funds, making it difficult to see the timeline. However, AFI investigators have broken it down and provided important *Leader v. Facebook* context.

What becomes readily apparent is that Kappos' involvement in the Facebook Club was late to the game, probably made necessary because of the *Leader v. Facebook* patent infringement litigation, which Facebook was losing.

Chopra was already under the Facebook Club tent. By mid-2009 he had already purchased his Vanguard Funds. Evidently, Kappos, too, was instructed to invest somewhere between \$516,000 and \$1,115,000 in Vanguard funds, soon after he was confirmed by President Obama. However, Kappos had to sell his IBM holdings to do it, which he started a week after his confirmation.

DECEIVING THE SENATE: NO KAPPOS DISCLOSURE OF INTENT TO DRAMATICALLY ALTER HIS HOLDINGS IMMEDIATELY AFTER THE HEARING

Kappos did not disclose to the Senate his intention to sell his substantial IBM holdings and purchase substantial holdings in one fund, Vanguard. This lack of disclosure alone is grounds for sanction. Such transactions would have surely raised red flags. Clearly, Kappos and his Facebook Club handlers were intent on concealing these conflicts of interest from the Senate.

According to Kappos' financial disclosure, between Aug. 19-2009 and Oct. 20, 2009, he sold between \$450,000 and \$1,315,000 of his IBM holdings to raise the cash which he used to purchase his Vanguard holdings, all on Oct. 27, 2009. He also sold one of his three multi-million dollar houses, but failed to disclose his income from that sale. Note is also taken of Kappos' laughable "IRA Rollover" note next to each Vanguard transaction entry, as if this note mollifies the outrageous lack of forthrightness to the Senate.

FACEBOOK'S BACKDOOR ATTEMPT TO CIRCUMVENT THE U.S. CONSTITUTION

The ink was not dry on Kappos' multiple million dollar property sale when Facebook's attorneys in *Leader v. Facebook*, namely White & Case LLP / Cooley Godward LLP, filed for a patent reexamination 95/001,261 of Leader's patent at the U.S. Patent Officer—where Kappos was now their inside man with the authority to kill patents by special order, coercion and abuse of patent examiners.

Since then, Leader has won two reexaminations. In other words, no matter how hard they tried, Facebook could not convince the patent examiner, Deandra Hughes, that their arguments were valid. After those failures, Kappos himself order an unprecedented 3rd reexamination before he resigned.

In the meantime, Kappos started his own USPTO Facebook Page and made hundreds of posts, including pictures of himself, and he encouraged his 10,000+ Patent Office employees to visit it daily. This impropriety is a clear breach of the ethics rules against judge bias.

This 3rd reexamination saw the appointment of Stephen C. Siu as chief judge. Problem is, Siu did not disclose his conflict of interest either. He formerly worked for Microsoft—one of Facebook's largest shareholders. Microsoft is also on the "Leaders Circle" at the Federal Circuit Bar Association—whose judges' corrupt decision Facebook is trying to get Siu to rubber stamp. Leader's attorneys have deflected this attack, at least for now.

Sadly, examiner Hughes succumbed to Kappos' pressure, reversed herself, and went along with trying to invalidate Leader's whole patent. Leader's attorneys responded with changes that the Patent Office is procedurally bound to evaluate, so that battle continues.

BARACK OBAMA'S DARK POOLS OF CORRUPTION

FIG. 3—STEPHEN C. SIU, Patent Judge, was assigned by former Director David J. Kappos as one of three judges to oversee the unprecedented 3rd reexamination of Leader Technologies' patent. The

Chopra came to the Obamacare website planning with a desire to use only open source software. His Facebook handlers want him to build all sorts of hooks into Facebook "to enhance user experience." Hopefully, the American public is finally waking up to these Orwellian deceptions.

THE PERSONAL-DATA-DOMINATION-AT-ALL-COSTS SCHEMES OF THE FACEBOOK CLUB WILL NOT BE STOPPED BY LEADER'S CONSTITUTIONAL PROPERTY RIGHTS, APPARENTLY

By the time the Facebook Club realized that they had a problem with Leader Technologies' intellectual property claims, they already had too much invested in their promises to cronies for a big win from their Vanguard and Fidelity Funds (among others), once the Facebook IPO made them all wealthy.

In short, the Facebook Club used the promise of wild Facebook IPO returns as the currency for their plans to install Barack Obama as President and press their global data gathering agenda. All these people, thankful for the "insider" tip, made their purchases in 2007-2008. This collusion guarantees their silence now. This silence includes a handful of federal judges who also bought the Vanguard, Fidelity and T.Rowe Price Funds, and thus have conflicts of interest to cover up.

OBAMACARE WEBSITE IS FOUNDED ON A FRAUD

Kappos was recruited late to the Facebook Club game, we believe, to shore up the problem that Leader Technologies' patent claims had created for their grand plan for world domination. Too much was at stake for the Club to fail now because of something like pesky patent property rights guaranteed by the U.S. Constitution.

Indeed, Anness Chopra's professional *raison d'être* was on the line, and his plans to make Obamacare a "social" website could not be upset by the proprietary intellectual property rights of the rightful inventors of social networking—Leader Technologies.

This is why both David J. Kappos and Anness Chopra bailed on President Obama's signature achievement. They knew the "open source claims" were false, but by then they could not unwind their misconduct.

Secretary Kathleen Sebelius appears to be Obama's Facebook Club "fall guy."

justification is based on worn out Facebook technical arguments on which they have lost three times.

Leader's attorneys say they have never seen this conduct from the Patent Office in their careers.

Examiner DEANDRA HUGHES lost her nerve recently, and acquiesced to the pressure from her bosses to reverse her long held opinions. Leader's attorneys have countered. Photo: Stephen C. Siu's LinkedIn Profile.

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

Click image above to download a poster-quality PDF optimized for a 11in. x 17in. (ledger-size) poster. America should not be in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

2. Co-founded athenahealth
3. Co-founded Castlight Health
4. Advised Ashoka incubator
5. Became CTO of Health and Human Services in 2009; and is therefore one of the chief architects of Obamacare as we know it.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's *Leader v. Facebook* attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article "Everybody hates whistleblowers." *Examiner.com*, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ullyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. I don't know whether to drink Park's Kool-Aid before or after I throw up. This is the man in whom Obama entrusted our healthcare data?

Note at the end how Park/Obama intend to send out programmer soldiers who are "armed to the teeth" with our healthcare data. Notice also how he invokes "may the Force be with you" along with a God blessing. Who is this guy?

These are the sorts of trivialities and platitudes we last heard at the pinnacle of the doctom boom in 2000... before the bubble burst. Nothing but "Rah, rah" technologists who were lining their pockets at the expense of you and me.

Notice how he continuously throws in "privacy and security" as an afterthought?

The Obamacare web site has a clear priority--gathering confidential information about Americans.

The site requires people to create a profile BEFORE they shop for insurance coverage. Every user of online products and services (AMAZON, eBay, Travelocity, etc.) knows that they can shop first and then register or create an account second. The Obamacare team made a definite choice of requiring account registration FIRST, and even has been willing to jeopardize the entire project to force that function into the system.

From a user's perspective, once they enter private information, the system can use it as the Obamacare team wishes. (This problem also could be compounded by potential bogus or pirated front end systems, too.)

We have a serious privacy and security problem with the front end design of Obamacare. Eventually, as more medical records go online, what will they do with that information?

What do they really want with the private information?

The Facebook Club creates vast amounts of "money" and rewards its team to cooperate with them.

The Federal Reserve Bank uses quantitative easing (QE), now running at \$85 billion per month to create money in the U.S. economy. This is a legal tool approved by Congress. The Facebook Club does not have that tool. Instead, they use Facebook stock literally to create "money." The Facebook IPO, using underwriters including Goldman Sachs, forced through the Securities and Exchange Commission, public stock offering based on the software STOLEN from Leader Technologies. They hyped the offering, which drove its price per share even higher, using colleagues in their own and related finance industry firms.

This new "money" has been used as carrots to encourage the cooperation of associates to support the Facebook Club interests. AFI investigators have shown the web of involvement at various organizations--both U.S. and international. It's an interesting game--create money out of nothing--or worse--stolen property. It gives an entirely new, evil meaning to public-private partnerships.

The Obamacare web site is a textbook disaster that should become a Business School case study. They violated most of the core fundamental tenets of building applications, all of which are well known and used by the industry. These "ten principles" include:

1. Single person in charge of the project (Program Manager)
2. Unified, agreed upon project plan
3. Clear requirements that are frozen (and not constantly changing)
4. Unit testing of applications
5. System testing
6. Security and privacy testing
7. Stress testing/volume testing
8. Clear (within tolerable limits) cost estimates including "fixes."
9. "Go live" date based on agreement among the technical (do-ability) and business leaders instead of a business/politically driven date.
10. Clear, accurate communication about the status of the project to end users.

The leading experts and organization in Information Systems agree on these basic principles. Why did the White House and CMS violate every one of them? The leadership certainly had the "best and the brightest" people available to them for this effort but relied on inferior leadership. It just doesn't make sense unless there is another agenda. The CTO's and CIO's who testified on Wednesday to the House Oversight Committee did not have accurate answers about why the project has failed, what the costs are to fix

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney dark arts, destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

it, or acceptable timelines for correcting the problems. And this is in spite of roughly \$500 million already spent on the project. The American people deserve better leadership!

Cathy Lee, how do you spell C-O-R-R-U-P-T-I-O-N ???

Of course they knew they were destabilizing our IT systems and procedures. It was their plan. Misdirection has been their standard operating procedure. For example, the NASDAQ "gliche" (so their insiders could cash out in the Facebook IPO). The 2008 banking "crash" (so they could cajole Congress to agreed to give \$1 trillion to their buddies).....

Moral American ??? GO SEE THE FILM ---INSIDE JOB: ANGELA MERKEL SHOULD LOOK PAST OBAMA TO THE FACEBOOK CLUB and see what that little slug lawrence larry summers did, MERKEL larry summers did knows that facebook was stolen

OBamacare did all this info ended up on Facebook's "Dark Profiles" acquiring all the world's personal data, Fidelity and Vanguard to buy political loyalty and silence about the corrupt election-rigging and personal data collection schemes that are so undermining the OBAMACARE website, Currently a handful of federal judges who also bought the Vanguard, Fidelity and T.Rowe Price Funds, and thus have conflicts of interest to cover up. And i can name three judges who got the emails on how facebook was stolen??? cant unwind this misconduct can you??. Big Brother file on every person on the planet. Facebook is storing all of its info on Swedish data center—outside the reach of US law? Clapper did you know that the NSA got the emails on Mark Zuckerberg, Clapper, Dark Profiles," which creates secret accounts for people who have never signed up

Gordon K. Davidson, who leak Leader's source code to mark zuckerberg and knows that mark zuckerberg stole the idea facebook, Zuckerberg had apparently signed an affidavit that he had never seen Leader's white paper.[BUT YOU SENT A COPY OF THIS WHITE PAPER TO DAVID] Zuckerberg is unclear about the origins of the ideas for Facebook [BUT YOU STOLE THE IDEA FACEBOOK] from david and you stole Leader's source code you stole from Michael McKibben Kirkpatrick names 128 people he interviewed for this book. CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision *without any evidence other than speculation*, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion [here](#).) He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 [here](#).) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. [See his Sep. 14, 2009 Order](#). Facebook's entire on-sale bar case is based upon this interrogatory. (*Editorial*: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court

of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO.

Judge Lourie also failed to apply his own law-test in *Group One v.*

Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S.

Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks. Judge Moore failed to

follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells*

Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was

assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See *Motion to Disclose Conflicts of Interest*.

Judge Wallach continued in silence even after Clerk of Court

Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. See a full analysis of these events at *Donna Kline Now!* Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie *helped write* that opinion. [Group One test omission analysis.](#)

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an *amicus curiae* brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*. Mr. Horbaly failed to disclose his conflicts of interest and close associations

with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S.

Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in *Leader v. Facebook*.](#) Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

- knowledge of the contents of the 28 Zuckerberg hard drives and Harvard Email accounts)

 109. **Dr. Saul Greenberg** (Facebook's expert witness from the University of Calgary; disingenuously waived his hands and said he would be "wild guessing" about the purpose of a Java "sessionstate" import statement (even Java newbies know it is used for tracking a user while in a web session); in short, Dr. Greenberg lied to the jury, thus discrediting his testimony)
 110. **Toni Townes-Whitley** (CGI Federal; Michelle Obama's 1985 Princeton classmate; CGI "donated" \$47 million to the Obama campaign; CGI won the no-bid contract to build the www.healthcare.gov Obamacare website; CGI shut off the security features on Obama's reelection donation sites to increase donations)
 111. **CGI Federal** (US division of a Canadian company; Donated \$47 million to Obama's reelection, then received the no-bid contract to build the ill-fated Obamacare website; Michelle Obama's Princeton classmate, Toni Townes-Whitley, is a Senior Vice President of CGI; the website is replete with social features and links to Facebook)
 112. **Kathleen Sebelius** (Obama's Secretary of Health & Human Services since 2009 responsible for \$678 million Obamacare implementation; made the decision to hire CGI Federal on a no-bid contract despite the evident conflict of interest with Michelle Obama and \$47 million in Obama campaign donations by CGI; the website is replete with social features and links to Facebook)

Form SC 13G acquisition reports for Athenahealth, Inc., Baidu, Inc. (ADR) and Facebook stock during 2012; masked the association of Todd Y. Park with Athenahealth, Inc. and Baidu, Inc., and the association of both of those companies with the Facebook IPO fraud)
 115. **Robin "Handsome Reward" Yangong Li** (CEO, Baidu, Inc. (ADR); appointed Jan. 2004, the same month that Mark

Zuckerberg obtained Leader Technologies' social networking source code to start Facebook; **Robin Y. Li** is very likely associated with John P. and James W.
