#### I. INTRODUCTION

Dr. Lakshmi Arunachalam ("Patent Owner" or "PO") hereby files a request for relief from Judge's financial conflicts of interest, voiding Judge McNamara's/PTAB's final decision after PO's Request for Re-Hearing and to start the IPR Process again with an impartial tribunal.

# I. JUDGE BRIAN J. McNAMARA'S MUTUAL FUND DISCLOSURE PRACTICES CIRCUMVENT FUNDAMENTAL ETHICAL PRINCIPLES OF IMPARTIALITY:

Administrative Patent Judge Brian J. McNamara ("McNamara") practices concealment of his financial holdings in litigants and is therefore engaged in insider trading and influence peddling, whether the nondisclosure is advertent or inadvertent.

A. <u>Judge Brian J. McNamara bias</u>: Judge McNamara presides over this IPR and 5 other IPR/CBM proceedings between PO and SAP, but has failed to disclose his financial holdings and relationships to **SAP**, JPMorgan and other Pi-Net/PO litigants and <u>holds stock in Microsoft</u> (Microsoft is involved in three CRU reexams of PO's 3 parent patents in the same priority chain as this patent in this proceeding), that bias his ability to preside over this case. These pecuniary interests render his decisions voidable.

McNamara and other USPTO ("Office") Judges involved in this matter with similar conflicts must disqualify themselves, and this matter must be remanded to

an impartial tribunal pursuant to a great body of law and court precedent promising PO the constitutional right to a fair and impartial hearing. For example,

"A fair trial in a fair tribunal is a basic requirement of due process."

"This applies to administrative agencies which adjudicate as well as to courts."

"[T]he administrative process was so defective and inadequate as to deprive the plaintiffs of due process of law."<sup>3</sup>

McNamara has a substantial pecuniary interest in decisions favorable to SAP,

JPMorgan and other litigants in Pi-Net/PO. His duty is to recuse himself not only
for such holdings, but even if the questions surrounding his holdings and
relationships create the appearance of impropriety according to his Code of

Conduct. Canon 1:

"A JUDGE SHALL UPHOLD AND PROMOTE THE INDEPENDENCE, INTEGRITY, AND IMPARTIALITY OF THE JUDICIARY, AND SHALL AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY."

The Supreme Court is crystal clear on this topic:

"[I]it is very clear that the slightest pecuniary interest of any officer, judicial or quasi-judicial, in the resolving of the subject matter which he was to decide, rendered the decision voidable. *Tumey v. Ohio*, 273 US 510 (Supreme Court 1927) at 524.

<sup>&</sup>lt;sup>2</sup> Withrow at 46-47 citing Gibson v. Berryhill, 47\*47 411 U. S. 564, 579 (Supreme Court 1973).

# 1. <u>McNamara's holdings do not qualify under the so-called safe harbor</u> advisory.

McNamara's conflicts of interests incorporate a bundle of disqualification provisions of 28 U.S. Code § 455 - Disqualification of justice, judge, or magistrate judge (disqualify if impartiality might be questioned where a personal bias, financial interest or fiduciary relationship, no matter how small, could or even might be affected by the outcome).

Remarkably, McNamara is not even arguing that he holds the financial interests, but rather, SAP argues that he is *permitted* to hold them under the so-called "safe harbor" mutual fund advisory opinion. We shall show that this interpretation is spurious and self-serving. The fact that "everybody does it" is not an excuse before the law. SAP's external counsel, Lori Gordon, Mike Lee and others working on the PTAB case, are not absolved of their duties under Rule 8.3 to report, in a self-policing profession.

Judges and other public employees appear to have carved out for themselves a unique notion of "financial interest" that is wholly inconsistent with a great body of ethics law requiring that officials flee even the appearance of impropriety. Judge McNamara not only does not fulfill this mandate, but he violates it flagrantly, as if he is above the law.

<sup>&</sup>lt;sup>4</sup> Guide to Judiciary Policy Ethics & Judicial Conduct Vol 2B, Ch. 2, See esp. Section 106 U.S. Courts United States Department of Justice http://www.uscourts.gov/uscourts/RulesAndPolicies/conduct/Vol02B-Ch02.pdf

## 2. The definition of "financial interest" is not normally vague and ambiguous.

The statute at 28 U.S.C. § 455(d)(4) states: "'financial interest' means ownership of a legal or equitable interest, however, small, or a relationship as director, adviser, or other active participant in the affairs of a party." This definition is consistent with general use.

However, the statute then carves out an exception—just for judges and judicial employees—that injects profound ambiguity into the law, stating at (d)(4)(i): "Ownership in a mutual or common investment fund that holds securities is not a 'financial interest' in such securities unless the judge participates in the management of the fund."

The devil is in this detail. This definition is inconsistent with both financial law and the admonition in Canon 1 for judges to flee even the appearance of impropriety. It blew open a hole in judicial ethics big enough to drive a Mack truck through. That truck has become a convoy.

## 3. <u>Legislators never intended mutual fund disclosure to be excused *carte blanche*.</u>

Exemptions in a law are the devil's playground. Logic says that legislators never intended the mutual fund exemption to apply beyond holdings that were "too remote or too inconsequential to affect the integrity of the employee's services"

(the *de minimus* consequence principle, i.e., too small to worry about) 18 U.S.C. 208.

Nonetheless, it appears that the Office of Government Ethics ("OGE") and the Judicial Conference have acted in concert to open a floodgate of improper conduct among judges and federal employees. It appears that Congress assigned the fox to guard the hen house when giving sweeping authority to the OGE ("Exemptions . . . [u]nder 18 U.S.C. § 208(b)(2), however, **OGE has the authority to establish blanket exemptions** for financial interests considered too remote or too inconsequential to affect the integrity of the employee's services.") *Id.* (emphasis added).

It also appears that outgoing Chief Counsel and Deputy Director F. Gary Davis supported these Mack truck exceptions in 2000 by doubling down on this ambiguity in one of his last opinions before retiring, discussed below.

While OGE may have the authority to issue "blanket exemptions" for mutual funds, that authority does not permit those exemptions to violate other laws.

By comparison to the too-small-to-worry-about principle (lawyers like the word *de minimus* because laypeople have no idea what they are talking about), a recent tally of the financial holdings of Chief Judge Leonard P. Stark of the District Court in Delaware reveals that he holds more than **5,516 financial interests** in the *Pi-Net* and *Leader v. Facebook* cases alone, not counting the stock of numerous

JPMorgan and Facebook direct business collaborators that could also be on that list. *See* Fig. 4, *Pi-Net International, Inc., v. JPMorgan Chase & Co*, Doc. No. 49-1, Case No. 2014-1495 (Fed. Cir. 2014). <u>Judge Stark's 5,516 financial holdings in litigants in two cases does not pass any reasonable smell test for impropriety</u>.

# 4. Blanket Exemptions: Public employees getting rich on taxpayer's dime. Blanket exemptions from financial disclosure of the stock holdings inside mutual funds do not square with a great body of law on the fundamental principles governing the impartiality. This redefinition of "financial interest" is an evident excuse to enable public employees to get rich with insider tips while in government service. It does not square with standard practices anywhere else in public service.

- 5. The meaning of "financial interest" is not ambiguous in accounting, tax and the Business Judgment Rule.
- a. <u>AICPA</u> ("American Institute of Certified Public Accountants") states that a financial interest is essentially any direct or indirect holding where the holder has tax liability.<sup>5</sup>
- b. <u>FINRA</u> ("Financial Industry Regulatory Authority") states that a financial interest in a mutual fund is a proportional slice of the fund's underlying investments. For example, a 1/10<sup>th</sup> percent holding in the fund gives a 1/10<sup>th</sup>

<sup>&</sup>lt;sup>5</sup> 17 101-5—Financial Relationships. AICPA, accessed Nov. 21, 2014, http://www.aicpa.org/Research/Standards/CodeofConduct/Pages/et\_101.aspx#et\_1 01.02

<sup>&</sup>lt;sup>6</sup> Mutual Funds. FINRA, accessed Nov. 21, 2014, <a href="http://www.finra.org/Investors/SmartInvesting/ChoosingInvestments/MutualFunds">http://www.finra.org/Investors/SmartInvesting/ChoosingInvestments/MutualFunds</a>

percent interest in an underlying IBM share held by the fund. Irrespective of the name on the actual IBM share, the fund holder has the <u>tax liability</u> for  $1/10^{th}$  percent of the IBM share income.

- c. <u>IRS</u> ("Internal Revenue Service") defines a "financial interest" as "[a]n ownership or investment interest in any entity with which the Organization has transaction or arrangement, b. [a] compensation arrangement with the Organization or with any entity or individual with which the Organization has a transaction or arrangement, or c, [a] potential ownership or investment interest in, or compensation arrangement with, any entity or individual with which the Organization is negotiating a transaction or arrangement."<sup>7</sup>
- d. The Business Judgment Rule defines "financial interest" as when one member of a class of interests personally benefits to the exclusion of others in the same class: "A director is considered interested where he or she will receive a personal financial benefit from a transaction that is not equally shared by the stockholders." In a legal context, when a judge benefits personally from decisions made in favor of one of the parties in the litigation then he is not a disinterested, honest broker.

<sup>&</sup>lt;sup>7</sup> Financial Interest, IRS Form 1023, Art. II, Sec. 2a-2c, http://www.irs.gov/instructions/i1023/ar03.html

<sup>8</sup> Orman v. Cullman, 794 A. 2d 5 (Del: Court of Chancery 2002) at 29; See also Rales v. Blasband, 634 A. 2d 927 (Del: Supreme Court 1993) at 935.

The IRS definition then defers to "the appropriate governing board" to determine whether a financial interest is a conflict of interest. Herein is the authority given to the OGE and Judicial Conference regarding mutual fund disclosure.

6. The mutual fund exemption in 28 U.S. Code § 455 was meant for holdings that were "too remote or too inconsequential" to be of concern regarding impartiality.

According to 18 U.S.C. § 208(a), the principle behind mutual fund reporting exemptions is to waive the need to report *small* financial interests that are "too remote or too inconsequential to affect the integrity of the services of the Government officer or employees to which such regulations applies."<sup>10</sup>

The OGE and Judicial Conference have expanded their authority unconstitutionally—well beyond the bounds of 28 U.S. Code § 455 and 18 U.S.C. § 208 where *avoiding the appearance of impropriety is the unequivocal principle*. "Any justice, judge, or magistrate judge of the United States shall disqualify himself in any proceeding in which his impartiality might reasonably be questioned." § 455(a). The test is reasonableness, not what the judge can get away with by citing this or that OGE or Judicial Conference opinion, memorandum or

guide. Those guides should comply with the law. As we show below, they do not. In fact, they have become profoundly ambiguous and self-serving.

# 7. The overarching principle in the Code of Conduct is to "avoid impropriety and the appearance of impropriety."

In ethics recusal questions, if it walks like a duck, and talks like a duck, it is a duck for ethics purposes, even if it is not a duck in the final tally. No further proof is needed. In such circumstances, recusal is required of that judge. If the judge has no dog in the hunt, then why should he care in this age of bloated dockets? The fact that Judge McNamara is so belligerent in his denial of his conflicts tells the reasonable person that he does, as shown, have a dog in this hunt.

The OGE's examiner's guide rightly states "[t]he public financial disclosure system is designed to reveal actual and potential conflicts of interest." 11

According to *U.S. v. Gorman*, guidelines, rules and opinions on the ethics take a back seat to the **overarching** ethical principle as to whether "there is a real possibility of gain or loss as a result of developments in or resolution of a matter." In the case of ambiguities, the response can never be to attempt to interpret contradictory issues further. The response must be to refer back to the

Public Financial Disclosure: A Reviewer's Reference, 2nd Ed., Rev. 11/04, Sec. 5.0, Resolving Conflicts of Interest, p. 5-1, , U.S. Office of Government Ethics <a href="http://www.oge.gov/Financial-Disclosure/Docs/Financial-Disclosure-Guide/">http://www.oge.gov/Financial-Disclosure/Docs/Financial-Disclosure-Guide/</a>

<sup>&</sup>lt;sup>12</sup> United States v. Gorman, 807 F. 2d 1299 - Court of Appeals, 6th Circuit 1986 at 1303.

higher authority, even if the resulting analysis may find instructive clues in the conflicting opinions.

The OGE's examiner's guide emphasizes this when stating "[a]ssets and other interests may also be disqualifying under the Employee Standards of Ethical Conduct . . . The Standards of Conduct attribute to an employee certain interests which are beyond the scope of the ban in 18 U.S.C. §208, but may require recusal because of the appearance of losing impartiality."<sup>13</sup>

The OGE guide alludes to the current confusion over whether or not to disclose the stock and bond holdings in a mutual fund when stating "One common point of confusion is distinguishing between an asset or other interest and a financial interest in a particular matter under 18 U.S.C. §208. The guide rightly states that the principle is not the size of the holding, but rather whether there is a financial interest in the particular matter.<sup>14</sup>

Despite the clarity in the OGE examiner's guide regarding the hierarchy of interpretation authorities, the OGE published a very confusing and ambiguous advisory opinion in the Fall of 2000.

This 2000 OGE opinion appears to have become the *raison d'être* fueling the flagrant non-reporting of fund holdings occurring today, including Judge

<sup>&</sup>lt;sup>13</sup> Public Financial Disclosure, p. 5-1.

<sup>&</sup>lt;sup>14</sup> Public Financial Disclosure, p. 5-1.

McNamara's lack of disclosure—even when those holdings involve financial interests in a particular matter coming before his tribunal.

#### 8. Tortured 13-page OGE advisory by F. Gary Davis, General Counsel

In the Summer of 1996, F. Gary Davis was appointed Deputy Director of OGE and remained General Counsel (from 1987) as well. He retired from the OGE in the Fall of 2000. Just months before his retirement after 21 years with the agency, Mr. Davis published a tortured 13-page advisory memorandum on exemptions to mutual fund reporting titled "Diversified and Sector Mutual Funds." A careful study of this document shows it to be out of synch with Mr. Davis' normally crisp writing style for such opinions. This one is rambling.

#### Davis: "Tentative," "incomplete" and subject to fund managers

Mr. Davis' preamble takes great pains to qualify the memorandum as "tentative," "incomplete" and subject to what fund managers and the economy *might* do in the future. In short, fund managers control Mr. Davis' definition of a

disclose-able financial interest, not the OGE, according to this opinion. This Davis preamble is so waffling as to bring attention to his discomfort with the opinion.

After a distinguished 21-year career, one wonders why Mr. Davis turned over the rule making on mutual fund exemptions to fund managers, especially after he made so many ambiguous statements that only muddied the waters further, such as:

- "turns on whether the fund has an express policy"
- "differs somewhat from other rules"
- "any guidance herein should not be confused with guidance pertaining to those other standards"
- "necessarily involve the exercise of some judgment"
- "taking into account the stated policy of the fund"
- "any common features in which it specializes"
- "no universally accept criterion for what constitutes an 'industry' or 'business'"
- "involve numerous judgments about what degree of similarity... would be sufficient"
- "one can distinguish among companies on so many different levels"
- "virtually infinite number of classes and subclasses"
- "need for some measure of common sense"
- "May need to consult investment services guides"

One can just imagine taking this set of excuses to the IRS at tax time to explain why one of your holdings is not a financial interest. The only people laughing are the insiders who have duped the American public with this mutual fund scam.

# 9. OGE Fall 2000 Davis advisory on mutual fund disclosure exemptions created an ethics hole big enough to drive a Mack truck through—in confusion here is profit.

This Davis "advisory" created ethical holes big enough to drive a Mack truck through. It became a license for insider trading for mutual fund managers. No doubt countless thousands of real American inventors have been cheated by the ethical quagmire that this opinion created for the benefit of insider mutual funds and their crony public officials and lawyers.

This ambiguity empowered fund managers to stack the deck in favor of their stock companies. These companies have a constant need of favorable regulation from agencies, politicians and judges. This excuse to conceal deep-pocketed stocks inside mutual funds made it possible to offer those funds to public officials, in advance of the need for favorable treatment. Case in point, Judge McNamara claims he is exempt from having to report his many SAP, JPMorgan, Wells Fargo, Citigroup, Citizen's, and other litigant relationships that, in his mind at least, were excused by the Davis advisory and the subsequent Judicial Conference advisory four months later.

Curiously, on Mar. 14, 2001, just four months after the tortured 13-page Davis OGE advisory on mutual fund disclosure, the Judicial Conference made *sweeping changes* to the Code of Conduct for Judicial Employees regarding financial interests. This unspoken mutual fund stock concealment agenda was

buried in sophistry. <sup>18</sup> No unsuspecting person could possibly know that the intention of these changes ostensibly to "conform the 'duty of inquiry' provisions" were actually intended to *shield* public employees from their ethical duties to fully disclose their holdings inside mutual funds pursuant to 18 U.S.C. §208 and 28 U.S.C. § 455 when a matter coming before them involves those companies. In this case, what they don't know hurts them every time.

10. Monitoring and disclosure is not burdensome. The argument has been floated that it is burdensome for a public employee to have to continually monitor his mutual fund investments for potential stocks in conflict. Burdensome or not, it is the law:

"(c) A judge should inform himself about his personal and fiduciary financial interests, and make a reasonable effort to inform himself about the personal financial interests of his spouse and minor children residing in his household." 28 U.S.C. § 455(c).

Contrary to the popular knee-jerk notion that monitoring a mutual fund portfolio is hard, it is actually very simple. In fact, one can check any mutual fund's portfolio of holdings in less than a minute. For example:

(1) Go to

http://www.sec.gov/edgar/searchedgar/companysearch.html;

This last Find step works for most funds except T. Rowe Price which obscures the numbers as *unsearchable* images, forcing the reader to scroll to each table.

Notably, T. Rowe Price also has massive holdings in JPMorgan, Citigroup, Wells Fargo, FedEx and other litigants in this matter.

# 11. <u>Judge Sue L. Robinson and Jan Horbaly participated in the sweeping policy changes that opened the mutual fund buying frenzy by public employees.</u>

Even more telling are the participants in that seminal Mar. 14, 2001 Judicial Conference. They included Judge Sue L. Robinson, District of Delaware,<sup>20</sup> and Jan Horbaly, Executive and Clerk of Court, Federal Circuit.<sup>21</sup> These two individuals figure prominently in this litigation.

Judge Robinson took over the litigation in this patent matter from Judge Richard G. Andrews who had presided over the case for over two years, just a week before the Markman Hearing. Like Judge McNamara's conflict holdings, Judges Stark's and Andrew's are equally legion. Since we have now shown that Judge Robinson helped facilitate the sweeping changes to the Judicial Conference

 $<sup>\</sup>overline{{}^{20}} Id. p. 1.$ 

<sup>&</sup>lt;sup>21</sup> *Id.* p. 3.

advisory that created these conflicting holdings, Judge Robinson is tainted by direct relationship. In addition, JPMorgan is fixated on arguments against Dr. Arunachalam related to her amicus curiae Federal Circuit briefs filed in the *Leader v. Facebook* case. Clerk of Court Jan Horbaly participated in extensive censorship of the docket surrounding those filings, then subsequently resigned in a cloud of suspicion.

#### This proceeding is hopelessly tainted on multiple fronts.

Since the officials of both the Delaware and Federal Circuit courts are now implicated in the judge bias in these proceedings, this proceeding must be vacated.

12. <u>Mutual fund portfolios with magical powers like Fidelity Contrafund were created after fabricating the "safe harbor" Wild West anything goes excuse for public employee investing.</u>

This OGE and Judicial Conference mutual fund disclosure ambiguities have been exploited by fund managers to structure fund portfolios with disproportionately high percentages of stock companies that they are assured by this scheme will have higher than normal returns.

McNamara's Fidelity Contrafund FCNTX is a prime example of the stacked deck. Most funds have multiple managers while Contrafund has only one, William Danoff. Danoff is a Harvard graduate who manages Fidelity Contrafund as vice president and portfolio manager. Contrafund is the second largest single-manager (Danoff) fund in the U.S with approximately \$110 billion in holdings and has

averaged 13.4% annual returns since 1990. Either the guy has an intellect for probabilities greater than Albert Einstein's, or he stacks his decks, there are only two options.

Danoff invested heavily with JPMorgan in Facebook's private shares prior to the Facebook IPO facilitated by unregulated JPMorgan "dark pools." Danoff's Contrafund is the largest mutual fund holder of Facebook stock, underwritten by JPMorgan, among others. Why didn't the SEC stop this wanton "dark pools" misconduct? Perhaps the SEC turned a blind eye because SEC Chairman Mary L. Schapiro, had herself already invested in 51 holdings in Facebook / JPMorganrelated funds who were all heavily invested in Facebook private shares.<sup>22</sup> All these officials benefited handsomely from decisions favorable to Facebook and JPMorgan—the very definition of a conflict of interest.

Exploiting the ambiguity of the 2000 Davis advisory, fund managers targets selected cronies, agency heads (current and prospective), politicians, bureaucrats and judges whose favor would increase the stock value of their fund holdings. The crony public officials were then called upon as needed to clear the way for their favorite companies.

Mary L. Schapiro, Financial Disclosure, 2008, submitted Jan. 12, 2009, available at the Office of Government Ethics, <a href="http://www.oge.gov/Open-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-and-Government/Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Nominations-Access-Records/Current-Executive-Branch-Records/Current-Executive-Branch-Records/Current-Executive-Branch-Records/Current-Executive-Branch-Records/Current-Executive-Branch-Records/Current-Executive-Branch-Records/Current-Executive-Branch-Records/Current-Ex Appointments/: Also online at http://www.fbcoverup.com/docs/executive/Schapiro Mary L SEC 278-financialdisclosure-Jan-12-2009.pdf

If needed, the target was given a suitable legal opinion that he had no obligation to disclose any of the stock companies holdings, even if those companies came before him on a matter. This favorable treatment is very valuable to these companies. This is exactly the excuse that Judge McNamara voiced in his recent rulings in the IPRs, CBMs involving PO vs SAP.

When this pattern of corruption is repeated 10-60 times over several hundred judges, politicians and bureaucrats, the probability that one's funds will be disproportionately rewarded is virtually assured.

#### 13. When mutual funds focus on sectors, those sector investments must be disclosed when decisions in the matter affect those sector values

The tortured Davis advisory language aside, even Davis could not escape supporting a principle he had espoused for 21 years—the principle that if a mutual fund specialized investments in a sector like financials, banking or technology, then the disclosure exemption does not apply since "Employees whose duties affect companies in a discrete industry, business, etc., can have an appreciable conflict of interest if they invest heavily in mutual funds that specialize in that very sector."<sup>23</sup> (emphasis added).

**Table 1:** Judge Brian J. McNamara's mutual fund financial holdings involving litigants in PO vs. SAP, major banks.

McNamara holds approximately 129 financial interests in 10 defendant litigants in this case: **SAP AG (2)**, Bank of America Merrill Lynch, (27), Wells Fargo (21), Citigroup (19), JPMorgan Chase & Co. (17), Barclays (13), Credit Suisse (12), Morgan Stanley (10), FedEx (5), Fidelity (3), Deutsche Bank (1). McNamara holds stock in Microsoft, which is involved in 3 ex-parte and interpartes re-exams of three parent patents in the same priority chain as the patent(s) involved in this IPR. McNamara is conflicted out from multiple angles.

# 14. <u>Former JPMorgan Vice President and Treasurer, STEPHANIE J.</u> <u>DORSEY, is Vice Treasurer of McNamara's up to \$500,000 Fidelity</u> <u>Contrafund FCNTX holding.</u>

Even if an impartial tribunal were to determine that McNamara's financial holdings are "too remote and to inconsequential to affect the integrity of the services" (18 U.S.C. § 208)(which common sense says is unimaginable), then the "appearance of impropriety" is still not avoided because the treasurer of his Fidelity Contrafund FCNTX investment, Stephanie J. Dorsey, Vice Treasurer, was formerly treasurer and vice president of numerous JPMorgan funds. Clearly, any McNamara decision favorable to the litigants will benefit Dorsey and JPMorgan.

Stephanie J. Dorsey (1969)

Year of Election or Appointment: 2010

Assistant Treasurer

Ms. Dorsey also serves as an officer of other funds. She is an employee of Fidelity Investments (2008-present) and has served in other fund officer roles. Prior to joining Fidelity Investments, Ms. Dorsey served as Treasurer (2004-2008) of the JPMorgan Mutual Funds and Vice President (2004-2008) of JPMorgan Chase Bank.

Figure 1: <u>Stephanie J. Dorsey</u> is a Fidelity Contrafund FCNTX Vice Treasurer. She is also Treasurer and President of many Fidelity Funds. Until 2008 she was President and Treasurer of numerous JPMorgan Funds. *See* Trustees and Officers, Advisory Board Member and Officers, Fidelity Contrafund, SEC FORM N-CSR, Dec. 31, 2013, <a href="http://www.sec.gov/Archives/edgar/data/24238/000087846714000111/contrafund.htm">http://www.sec.gov/Archives/edgar/data/24238/000087846714000111/contrafund.htm</a>

#### B. REQUEST FOR RELIEF

For at least the preceding reasons, this tribunal has a sworn duty to recuse itself and turn this matter over to an impartial tribunal. PO hereby requests relief from Judge's/PTAB's financial conflicts of interest, voiding Judge McNamara's/PTAB's final decision after PO's Request for Re-Hearing and to restart the IPR Process again with an impartial tribunal.
