AMERICAN PUBLIC DESERVES TO KNOW WHAT ZUCKERBERG IS HIDING

STONENWALLING ABOUT FACEBOOK’S ORIGINS IS NOW A MATTER FOR MANDATORY PUBLIC DISCLOSURE

MAY 1, 2015 NEWS FLASH!—SAP AMERICA IMPlicated IN GROWING ZUCKERBERG, FACEBOOK, IBM, NSA, THE ECLIPSE FOUNDATION SCANDAL

Corporate giant SAP America appears to have no sense of humor. While they abuse true American inventors, they are thin skinned when called on the carpet for their corruption. On Dec. 6, 2014, AFI exposed Patent Office chief judge Robert MacNamara’s holdings in JPMorgan and SAP in an unfounded patent reexamination captioned PiNet/Dr. Lakshmi Arunachalam v. SAP America. Dr. Arunachalam holds about 15 patents on much underlying infrastructure used widely in e-commerce. SAP is trying to steal them without compensating her. Rumors are circulating that JPMorgan and SAP are attempting to get royalty-free, perpetual licenses for the technology they have stolen from inventors—even royalty-free rights to their future inventions in exchange for not persecuting the inventor. This mentality is socialism. It undermines the U.S. Constitution, Article I, Section 8, Clause 8 on copyrights and patents. The fruit of your liberty and labor is your property.

In that exposé, we included a photo of Judge MacNamara with an attorney toxic waste symbol. The illustration was satire to emphasize the destructive effects that the legal profession is having on our American Republic (see Fig. 1). In SAP’s filing yesterday, they implied that Dr. Arunachalam was responsible for the AFI posts. She is not, but even if she was, the last time we checked, the First Amendment is still in the U.S. Constitution, Article I, Section 8, Clause 8 on copyrights and patents. The fruit of your liberty and labor is your property.

FACEBOOK CARTEL ALERT: SAP America is a founding member of David J. Kappos’, James P. Chandler’s and BM’s The Eclipse Foundation on Nov. 29, 2001. This could explain their sensitivity to having their conduct exposed. It appears that SAP, too, has relied upon Leader Technologies’ social networking invention, just like Facebook. Is SAP on cahoots with the Patent Office (formerly directed by The Eclipse Foundation’s founder, BM’s David J Kappos) and cooperating with the NSA also? Are
Zuckerberg's hard drives going to incriminate SAP also? The scandal grows.

ORIGINAL POST

(APR. 29, 2015)—Mark Zuckerberg was a 19-year-old Harvard sophomore in 2003-2004 when Facebook began.

The Social Network movie “narrative” led the public to believe that Zuckerberg was some sort of savant who could write computer code 20 or 30 times faster than a normal programmer. Not a single mainstream media investigator has ever questioned this story.

Given the pervasiveness of social networking in our culture—the media silence about Facebook’s origins betrays the secret loyalties of media editors and their owners who appear to have been insiders in this deception.

WILL A FREE PRESS RETURN?

Hopefully, an independent Free Press will return before our Republic is destroyed by this acquiescence to crony capitalism.

Today, Facebook is protected by a phalanx of large law firms who have stonewalled every attempt to learn the truth about Zuckerberg and Facebook in 2003-2004. Prominent among these firms are Fenwick & West LLP, Gibson Dunn LLP, Cooley Godward LLP and Orrick Herrington LLP.

Incontestably, these law firms have outright lied to numerous federal judges in trade secrets, patent and breach of contract lawsuits filed against Zuckerberg and Facebook. They have also lied to the American public in the sale of Facebook stock to the public and their reliance on stolen intellectual property.

Normally, such lies would land these people in jail. But in Obama’s brand of justice, these people are excused and elevated to high office.

How do we know that The Social Network was a false narrative meant to fool the public into believing Zuckerberg was something he never was?

ZUCKERBERG’S STORY CHANGES WITH EACH TELLING

In a recent Zuckerberg v. Argentieri court filing, Zuckerberg wrote that he “conceived of Facebook” around December 2003.” However, in his 2006 ConnectU testimony he was clear that it was “one to two weeks” in January 2004.

In Ceglia v. Zuckerberg he first claimed the contract was a forgery. Then later, in U.S v. Ceglia, when it became clear that his original signature was on page two, he said the 2nd page was genuine, but the 1st page was a forgery. The government accepted his claim without independent verification and threw Ceglia in jail. The U.S. Attorney Preetinder Bharara was formerly employed by Gibson Dunn LLP, Facebook’s attorney, and a fellow Obama Harvard crony.

However, in recent weeks the government disclosed an August 18, 2003 email where Zuckerberg and Ceglia discussed the second contract. Then just a few weeks ago, the U.S. Secret Service Forensic Labs confirmed that both pages of the contract are genuine. Despite this hard proof, Gibson Dunn LLPs mobster “Punks with a Pen” continue to shout the stale “forgery!” fiction in an obvious attempt to cover up the new facts that expose their false “narrative.”

The judges and media that Gibson Dunn is shouting at are either gullible, or complicit.

Barack Obama announced his candidacy for President on Facebook in 2007. Pundits credit his election and re-election with the slicing and dicing of Facebook demographic data to micro-target voter groups to whom he pandered. It appears that both Obama and Zuckerberg have the same handlers.

Facebook began feeding user data on American citizens to the NSA just nine weeks after Eric H. Holder, Jr. became U.S. Attorney General. Was this the greatest public-private mercantile sell out of all time?

Are your children safe on the Facebook platform?

Is our Republic's political dialogue safe in the hands of these unaccountable predators and their secret censors of “community standards?”

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS
   Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.

2. WAS CHIEF JUSTICE ROBERTS BLACKMAILED into supporting Obamacare by his ethical compromises in Leader v. Facebook?
A TIMELINE OF DECEPTION, THEFT AND COLLUSION

During 2003, while Leader Technologies was busy debugging its social networking invention, Zuckerberg set about to stall at least three other campus facebook initiatives by Paul Ceglia (Facebook), the Winkelevoss Twins (ConnectU) and Aaron Greenspan (HOUSeSystem).

The various deceptions were necessary so his former PayPal handlers (James W. Breyer, Reid Hoffman, Peter Thiel), in collusion with IBM attorney David J. Kappos and IBM’s “The Eclipse Consortium,” could wait for Leader’s 750,000 lines of source code to be debugged and fed to them by Leader’s patent counsel, IBM’s chief outside counsel. For comparison, a good programmer can write and test perhaps 300-400 lines of debugged (clean up all drafting errors) code a day.

Leader’s debugging was completed on Oct. 28, 2003. Magically, Zuckerberg hacked the house sites at Harvard that same night (“Let the hacking begin.”).

Rolling forward, Barack Obama was elected on Nov. 4, 2008.

On Nov. 18, 2008, Leader Technologies sued Facebook for patent infringement.

On Nov. 28, 2008, Harvard’s Larry Summers was appointed to lead the bank bailout and thereafter funneled $33 million to Goldman Sachs, Morgan Stanley and JPMorgan—all Facebook underwriters.

On Dec. 12, 2008, the FISA Court quietly change the oversight rules which effectively gave the incoming Attorney General almost dictatorial powers to allow the NSA to spy on American citizens on the flimsiest of probable cause.

On Nov. 29, 2001, during Kappos’ tenure at IBM, he and Chandler cajoled IBM to invest $40 million to start The Eclipse Foundation. The publicly available Eclipse minutes from Dec. 8, 2004 state they were “unable to locate” the original contributor of the code they used to

FIG. 3—ZUCKERBERG AND FACEBOOK CONCEALED 28 HARD DRIVES AND HARVARD EMAILS FROM DISCOVERY IN THE LEADER V. FACEBOOK PATENT INFRINGEMENT CASE. Leader nonetheless proved that Facebook infringes Leader’s invention of social networking on 11 of 11 claims. Facebook’s attorneys lied to the court and said this information was lost. See Rose and McGowan depositions.

Magically, this information was found to be in the custody of Facebook’s appeals attorney, Gibson Dunn LLP, the entire time. This revelation occurred just two days after the Federal Circuit appeals court denied Leader’s appeal on a trumped up Facebook side issue that the judges affirmed.

The judges in Leader v. Facebook, just like the judges in Ceglia v. Zuckerberg, hold substantial amounts of financial interests in Facebook at its underwriters. These holdings and their prior relationships with Facebook’s attorneys dictated their recusal according to the Code of Conduct.

These judges have been playing paddy cakes games trying to hide behind ambiguous guidelines that appear to let them hold stock in litigants behind mutual funds. But, the self-serving guidelines are convoluted and fail to address the overarching instruction to avoid even the appearance of impropriety—which their mutual fund games do not. Instead, they hammered down against the U.S. Constitution and sacred American property rights in order to protect their cronies. See Hijack of the Cyber World Timeline and Database.

STOP FACEBOOK PROPERTY THEFT

We see. We “like.” We steal. STOP FACEBOOK PROPERTY THEFT. www.fbcoverup.com

WILL HUMANITY NEVER LEARN? Facebook’s Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO’s Red Star, Stalin’s SOVIET Hammer & Cycle and Hitler’s NAZI Swastika. Respect for the inalienable rights of each Individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!
start Eclipse. The minutes also declared that they must “re-implement” its founding source code. “Re-implementation” is lawyer sophistry for steal.

### SNARK ALERT
(Sorry, we could not resist commenting on the ridiculousness of the “unable to locate” and “re-implementation” lawyer sophistry for theft in the preceding paragraph.)

Notice to the Facebook Cartel lawyers: we found the contributor you were unable to locate! **LEADER TECHNOLOGIES**—true American innovators from Columbus, Ohio. Turns out, your law professor buddy, Professor James P. Chandler, was Leader’s patent counsel at the time you stole Leader invention starting in late 2001! (See Eclipse formation announcement, Nov. 29, 2001; See first Eclipse board meeting minutes.) James P. Chandler—the esteemed professor emeritus of intellectual property law from George Washington University and author of the Economic Espionage Act of 1996—must’ve had a brain freeze not to remember his client’s name. Isn’t it a crazy coincidence that Chandler also happened to have two protégés who just happened to gain high office in the Obama White House in IBM/Eclipse’s David J. Kappos (Patent Office director) and Eric H. Holder, Jr. (Attorney General)? Isn’t it also just crazy coincidence that Chandler cut a backroom deal with IBM/Eclipse to construct a special backdoor for the NSA into the Eclipse platform that you gave away (without Leader’s permission) to every developer on the planet in 2004. As a result, the NSA can snoop on every American, including our children, at their convenience, in total secrecy. Yee Haw, it was an “open source” code free for all, wasn’t it? You certainly do know how to “lose” incriminating evidence when it is convenient. No wonder Facebook looked so much like Leader’s invention. It was!

### THE DOG ATE IT (for national security, of course)

The first whistle blower might be able to cut a deal to stay out of jail. You younger lawyers don’t want to ruin your lives and families for these misguided people. Don’t be fooled any longer, their conduct is greed, powermongering and criminality dressed up in the verbiage of “national security.”

On Jul. 18, 2012, Facebook’s experts Rose and McGowan revealed that 28 Zuckerberg hard drives and Harvard emails were not lost and were in the custody of Gibson Dunn LLP the whole time, proving that their claims to Leader invention were a lie.

FACEBOOK: CHILD PREDATOR AND VOYEUR? THE PUBLIC & 1+ BILLION USERS DESERVE TO KNOW THE TRUTH. PUBLIC SAFETY IS THREATENED

Over one billion Facebook users, Facebook’s shareholders and the American public deserve to know the truth about Zuckerberg and Facebook’s origins.

The fact that Facebook’s lawyers have stonewalled (with extensive judicial cooperation) every lawful request to review Zuckerberg’s 2003-2004 hard drives and Harvard emails is telling.

What are they hiding? If their arguments are genuine, then they have nothing to worry about. If on the other hand, the investigation proves that Ceglia’s contract is genuine, and it proves that Facebook relies on Leader Technologies’ invention, then Facebook is led by thieves and liars who have made a pact with the devil in their cooperation with the NSA.

If the latter is true, then these are not the sorts of people to be managing the online conversations of our children.

IS OUR CHILDREN’S DIGITAL PLAYGROUND OVERSEEN BY LIARS, THIEVES & MONEY LAUNDERERS? (YES)

Would you drop off your children to play in playground full of thieves, liars and money launderers? That appears to be exactly what is happening on Facebook.

This issue has become one of public safety and security, and not just one of constitutional contract and patent rights.

NO MORE STONEWALLING FROM FACEBOOK’S CADRE OF UNSCRUPULOUS LAWYERS, BANKERS AND JUDGES

It’s time for an independent commission to get to the truth about Zuckerberg and Facebook’s origins—before Facebook’s lawyer, Gibson Dunn LLP and McManus Faulkner LLP, cause these 28 hard drives and Harvard emails in their custody to disappear, magically.

OK, AFI, if you want us to believe this wild story you must give us facts to include names and dates. Oh wait…. you did. Facts are stubborn things. We now have six years of a track record of unabashed corruptness by Obama and friends. In previous times thieves and liars got punished when facts proved misdeeds. Perhaps an honest administration will be elected and America can begin to, once again, believe that justice will win the day. Zuckerberg belongs in jail.

If this was just a simple patent infringement case, then it would not be such a big deal.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook’s Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article “Everybody hates whistleblowers.” Examiner.com, Apr. 10, 2012. Here’s an excerpt:

-Skillful manipulation of the firm’s extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage.”

This statement followed right after Davis cited Facebook’s chief inside counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in
But it’s not. This platform in the hands of this Harvard cabal is changing America into an elitist, best friend gulag. Us common folks are getting slaughtered. Truth, honesty, bravery, leadership, fairness etc. are becoming extinct. Our economy is corrupt and dying. Our debt burdens are overwhelming. And Obama blames everyone else.

Are you ready for Hillary?

Hey TEX, Zuckerberg is only the wind up toy they put out in front of this parade with Obama. More jail cells are needed to include his handlers, like James W. Chandler (NSA), Jamie Dimon (JPMorgan), Lloyd Blanfein (Goldman Sachs), Fidelity Contrafund, Judge Leonard P. Stark (Leader v. Facebook), Judge Richard Arcara (Ceglia v. Zuckerberg), Judge Richard Andrews (Arunachalam v. JPMorgan), Eric Holder (DOJ), Juri Milner (Mail.ru), Larry Summers (Harvard), Sheryl Sandberg . . . it’s a long list of accomplices.

Evidently they thought if they were really big in being bad, they could get away with it. (Harvard), Sheryl Sandberg . . . it’s a long list of accomplices.

Just saw an IBM commercial promoting “The Internet of Things.”

The FacebookCartel is obviously on the move, hoping the American citizen won’t figure out what they are doing until all the pipes are laid and it will be too late to unwind it (in their minds - remember, they are smarter than us - just ask them). Looks like Obama’s boys and girls cannot hide anymore if they want to get this done before their front man leaves the U.S. Presidency. Take good notes folks. We’re going to have to dismantle this house built on the big lie brick by brick.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney “dark arts,” destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for
strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

CODE OF CONDUCT FOR U.S. JUDGES

“CANON 3 requires disqualification of a judge in any proceeding in which the judge has a financial interest, however small.”

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial Judge in Leader Techs, Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact
discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion here.) He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. See his Sep. 14, 2009 Order. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO. Judge Lourie also failed to apply his own law-test in Group One v. Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore
stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks. Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook’s evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See Motion to Disclose Conflicts of Interest. Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam’s motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach’s behalf. See a full analysis of these events at Donna Kline Now! Judge Wallach also failed to police his court’s violation of Leader’s Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge’s chambers after he had just invalidated Facebook’s sole remaining item of evidence.
(using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court’s Pfaff v. Wells Electronics, Inc. test for on-sale bar evidence, which included even the Federal Circuit’s own Group One v. Hallmark Cards, Inc. test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. Group One test omission analysis.

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court’s ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. Facebook. Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook’s largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone’s throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that
they allegedly ruled in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook. Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

121. Dr. Saul Greenberg (Facebook's expert witness from the University of Calgary; disingenuously waived his hands and said he would be "wild guessing" about the purpose of a Java "sessionstate" import statement (even Java newbies know it is used for tracking a user while in a web session); in short, Dr. Greeberg lied to the jury, thus discrediting his testimony)

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz’s corrupt MOOC education initiative named “University Innovation Alliance” (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for “Massive Open Online Course.”

You should complain about:

1. the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

2. the corruption at Ohio State University and OSU’s collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

3. the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The
Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a “massive” scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.
