IBM SOLD OUT AMERICA IN SALE OF PC GROUP TO CHINESE IN 2004

MARK LOUGHRIDGE, IBM CFO, ARRANGED $10 BILLION JPMORGAN SLUSH FUND, GOLDMAN SACHS PONZI-LIKE FINANCING FOR CHINESE WHILE CRONIES FINANCED FACEBOOK FOR NSA SNOOPING WITHOUT CONGRESSIONAL OVERSIGHT

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | MAY 14, 2015, UPDATED MAY 18 | PDF

MAY 18, 2014 NEWS UPDATE! Judge Sue L. Robinson in Arunachalam v. JPMorgan (see previous post) recused herself from the case on May 15, 2014 following Dr. Arunachalam’s motion to disqualify for conflicts of interest. This is great news for justice, it will likely unwind all judgments in the case for judge bias, and force a rehearing of the whole case. Shockingly, Robinson sent the case back to Judge Richard J. Andrews, whose now admitted relationships to and admitted holdings in JPMorgan are legion. The Delaware District Court appears to be imploding from self-inflicted wounds. The crooked Leader v. Facebook Judge Leonard P. Stark is now the chief judge in this district. Stark holds substantial Facebook and JPMorgan stock. JPMorgan is one of Facebook’s and IBM’s lead underwriters.

TODAY, ON MAY 18, 2015, Dr. Arunachalam filed a Motion to Void the Judgments Ab Initio (from the beginning). She lays bare the ‘corruption and maliciousness’ of the judges and their JPMorgan handlers. The Delaware Court is knee deep in a quicksand of corruption created by their collusion with JPMorgan, IBM and the Facebook Cartel.

ORIGINAL POST

(MAY 14, 2015)—The world went to hell in 2004, or so it seems. If America allows the Benedict Arnolds at IBM, JPMorgan, NSA, Goldman Sachs and Facebook, identified below, to succeed, then we believe China will control the future of the Internet, tech and finance. It is not too late to stop them, but time is running out.

On Dec. 8, 2004, IBM’S chief financial officer, MARK LOUGHRIDGE, shocked the IBM world with his holiday-time announcement of the sale of IBM’s storied PC Group to the Chinese company, Lenovo.

IBM’S BREACH OF FIDUCIARY DUTY USTERED IN SELLOUT OF AMERICA

The devil was in the details that Loughridge failed to disclose. It appears that IBM’s directors and officers breached their fiduciary duties by not warning shareholders and the public about the hidden agendas large enough to drive a Mack truck through.
IBM failed to disclose that:

STOLEN TECHNOLOGY:
IBM stole Columbus, Ohio Innovator Leader Technologies’ social networking invention via THE ECLIPSE FOUNDATION that started on Nov. 29, 2001.

2. COUNSEL CONFLICTS: IBM relied on the advice of intellectual property law adviser, Professor James P. Chandler, who was also Leader’s patent counsel. Chandler was also the author of the Economic Espionage Act of 1996, the Federal Trade Secrets Act, member of President Clinton’s National Infrastructure Assurance Council and adviser to the Justice Department, FBI, NSA, CIA, White House and Congress.

UNCOMMONLY UNIFIED COMPETITORS

This uncommonly unified Benedict Arnold activity could not have happened without Columbus, Ohio Innovator Leader Technologies’ Important social networking invention—which they all wanted for free from IBM’s Eclipse Foundation. In unison, the members of Eclipse turned a blind eye to questions of authorship of the invention to which they would receive enormous benefit. They chose instead to swallow hook, line and sinker.

Bottom line: IBM’s Eclipse Foundation sold out America and American inventors in just 12 months.

THE NATIONAL SECURITY SMOKE SCREEN

“National security!” has become the excuse for this mobster thievery and obfuscation of discovery and FOIA requests. Zuckerberg’s 28 Harvard hard drives have been protected by numerous federal judges on this cartel’s payroll.

America’s Founders feared the two-party system and the interference of banks and corporations. So did Abraham Lincoln (1863):

“The banking powers are more despotic than a monarchy, more insolent than autocracy, more selfish than bureaucracy.”

We must now add supranational law firms to this list of despotic corporations.

3. BOGUS OPEN SOURCE CLAIMS: Via The Eclipse Foundation, IBM promoted the lie that Leader Technologies’ invention was Open Source and free for anyone to use. It was not. It was privately owned, proprietary software. Yet IBM induced most tech companies to participate in the theft.

5. OTHER STOLEN CONTRACTS & TECHNOLOGY: IBM willfully induced the misappropriation of multiple other intellectual properties and contractual claims important to social platforms (e.g., Dr. Lakshmi Arunachalam, Johannes Van der
6. **MISAPPROPRIATION OF FUNDS:** JPMorgan’s $10 billion line of credit was used to promote The Eclipse Foundation scam. JPMorgan is also a Facebook underwriter.

7. **PONZI–LIKE SCHEMING WITH LENOVO’S BANKER:** Goldman Sachs, another Facebook underwriter, arranged Lenovo’s debt financing of the IBM PC Group—no arm’s length relationships.

8. **NSA BACKDOORS BREACH REPS AND WARRANTIES:** IBM provided intelligence snooping backdoors for the NSA and CIA, irrespective of laws broken.

9. **EMBEDDED SYSTEMS SNOOPING:** IBM’s embedded systems strategy was aimed at building permanent NSA backdoors through companies like Eurotech SpA and Ltd., even though U.S. laws prohibit such intrusion.

10. **CONTEMPT OF CONGRESS:** IBM, JPMorgan and Goldman Sachs participated in a plan to privately fund American intelligence without Congressional oversight.

11. **ANTI–TRUST CONSPIRACY:** IBM used its monopolistic market position to steal innovations from Leader Technologies, Inc., a small Ohio business, and others.

12. **JUDICIAL COLLUSION:** IBM, via its inside and outside counsel, induced members of the federal judiciary to violate their ethical Code of Conduct by holding stocks in IBM and cronies without proper conflict of interests disclosure, and by manipulating the impartiality of courts.

13. **PRIVATELY–FUNDED INTELLIGENCE AGENCIES:** IBM’s secret collusion with Tsinghua University, Beijing, China, James W. Breyer, Accel Partners LLP, In-Q-Tel (C.I.A.’s “private” venture capital company), Facebook and the NSA to construct privately-funded, offshore “dark profiles” on American citizens—out of reach of oversight by Congress.

**STOP FACEBOOK PROPERTY THEFT**

WILL HUMANK ND EVER LEARN? Facebook’s Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under Mao’s Red Star, Stalin’s SOVIET Hammer & Cycle and Hitler’s NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

**ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!**
Table 1: IBM’s sellout of America to the Chinese—2004.

BACKSTORY

Now that we have summarized the 2004 smoking gun, we will back up and provide evidence sufficient to convince any reasonable person that America was sold out by people we trusted.

In the late 1990’s, Columbus, Ohio software innovator Leader Technologies, Inc. was referred to James P. Chandler, III, George Washington Law professor emeritus.

Chandler had a private intellectual property law practice in Washington, D.C. His clients were a Who’s Who, including the White House, IBM, NSA, FBI, CIA, Congress, the Judiciary and the U.S. Department of Justice. Chandler had authored the Economic Espionage Act of 1996 and the Federal Trade Secrets Act.

Chandler advised David J. Kappos, then IBM’s chief intellectual property counsel, Mark Loughridge, IBM’s chief financial officer, and Eric H. Holder, Jr., then Assistant Attorney General.

NO CONFLICTS DISCLOSED

According to Leader, Chandler agreed to represent Leader and did not disclose any conflicts of interest. Disclosure of conflicts of interest is an integral part of the Rules of Professional Conduct for lawyers and Code of Conduct for judges and judicial employees: “a lawyer should further the public’s understanding of and confidence in the rule of law and the justice system because legal institutions in a constitutional democracy depend on popular participation and support to maintain their authority” and “a judge should avoid impropriety and the appearance of impropriety in all activities.”

Confirmed by Leader prior to publication, not a single person identified in this article has ever disclosed even a single conflict identified here. The silence is deafening.

IBM—BIASED LEGAL ADVICE

Hindsight is 20-20. After studying Leader’s Internet software invention in 2000, Chandler gave Leader a piece of horrible legal advice. This patent law professor advised that Leader should take another two years and “reduce the invention to practice” before he would file the patents. He also told Leader they had “at least 60 patentable inventions.”

(It turns out that Chandler’s patent estimate was a low-ball. Fenwick & West LLP, another Leader attorney recommended by Chandler, has now filed hundreds of social networking patents for Facebook without seeking a waiver of conflicts from Leader either. This doesn’t count the thousands of patents that IBM has filed off the same Leader invention.)

Hindsight shows that Chandler fed Leader’s ground-breaking software invention to IBM and

IBM’s cronies. These Chandler cronies supported Chandler’s vision for national security and a stealth way to quietly reward judges with insider financial tips in exchange for crooked decisions. However, Chandler’s vision required the theft of Leader’s intellectual property to accomplish these intertwined goals.

By mid-2002, Chandler had extracted over $500,000 in legal fees from Leader. As mentioned above, he also encouraged Leader to hire Silicon Valley law firm, Fenwick & West LLP. The two firms then waited for Leader to do the hard work to engineer its invention.

That opportunity came on Jun. 6, 2002.

**WHEN UNSCRUPULOUS ATTORNEYS WANT THEIR HANDS IN YOUR KNICKERS, THEY DISGUISE THEIR SCHEMES WITH HIGH-SOUNDED LEGAL SOPHISTRY**

Chandler wrote himself into the source code custody clause of a “Smart Camera” research contract with Lawrence Livermore National Laboratory (LLNL) that he brought to Leader. Leader thought the opportunity was a big break, but it was a Chandler double-cross. As a part of that contract, Chandler received a copy of Leader’s full source code. Fenwick received a copy as well. Fenwick’s clients included Facebook’s first venture capitalists, James W. Breyer and Accel Partners LLP.

**LEADER “UNIVERSITY INITIATIVE” PLANNED IN EARLY 2001**

Leader’s inventor, Michael McKibben, had a son attending Harvard as an undergraduate. In early 2001, McKibben developed a “University Initiative” to involve IBM and Harvard—both Chandler relationships—in implementing Leader’s social networking invention.

**IBM LAUNCHED ECLIPSE IN LATE 2001**

Unknown to Leader, on Nov. 29, 2001, IBM “donated” $40 million (from CFO Mark Loughridge) to start The Eclipse Foundation to offer “open source” software (free of licenses, fees and royalties). See also IBM Annual Report, p. 21.

Chandler’s IBM cronies, David J. Kappos and Mark Loughridge, provided the perfect cover for Chandler to feed Leader’s invention to IBM out his back door without detection. Tellingly, Eclipse board minutes in Dec. 4, 2002 stated that the original source code platform for Eclipse came from “a single company” (never identified by name). But then by Dec. 8, 2004, just two years later, these lawyers stated disingenuously that they were “not unexpectedly” “unable to locate” the original contributor. All signs point to Leader Technologies as the contributor, via its ne'er-do-well attorneys Chandler and Fenwick.

**FEB. 4, 2004 —LEADER’S UNIVERSITY INITIATIVE RENAMED “FACEBOOK”**

Like a phoenix, Facebook came out of nowhere and launched on Feb. 4, 2004 at Harvard with a plan that mimicked Leader’s University Initiative written 18 months earlier. Hindsight shows that Harvard alums, James W. Breyer, and Accel Partners LLP funded the launch, supported by Harvard’s president, Larry Summers.

Mark Zuckerberg claims to have done it all by himself as a sophomore in “one to two weeks” while drinking, chasing girls and studying for mid-terms. No self-respecting engineer would claim such a Herculean fete. But a pathological liar supported by Hollywood “narratives” did.

Numerous Facebook projects were in play at Harvard in 2003. Paul Ceglia, the Winklevoss twins below), have stonewalled all legal efforts to study Zuckerberg’s 28 computers and email from his Harvard days in 2003-2004.

**UNSCRUPULOUS DOUBLE DOWN**

It is illogical to expect these people to see the error of their ways voluntary, repent, and change their wicked ways. They are going to have to be confronted and battled. We hope our un tainted elected representatives use the powers delegated to them by the People to accomplish these intertwined goals.
stop this criminality before these bullies do much more damage to our Republic.

Fenwick & West LLP, after representing Leader Technologies during the critical research and development phase, including learning the “secret sauce,” has gone on to become Facebook’s securities and patent attorney without seeking conflicts of interest waivers from Leader Technologies. Fenwick also took Obamacare architect Todd Y. Park’s company, Castlight Health, Inc. public, while Park was the White House chief technology officer without a single word from Obama about this impropriety.

JPMorgan and Goldman Sachs have gone on to underwrite Facebook’s initial public offering and fund many other infringers of Leader Technologies’ patents—earning them billions of dollars in fees and stock.

James W. Breyer and Accel Partners LLP became Facebook’s second largest shareholder. Breyer declared in 2012 that his is “super bullish on China.” No wonder he is ceding America’s sovereignty to China where intellectual property is not respected andlikeminded oligarchs rule.

James P. Chandler visited Russia and China to cement the theft of his client Leader Technologies’ invention and his private national security NSA agenda.

David J. Kappos was appointed Patent Office director and ordered Leader Technologies’ patent invalidated as one of his final acts; appointing IBM cronies, like chief administrative judge Stephen C. Siu, inside the Patent Office to do his dirty work.

Eric H. Holder, Jr. was appointed Attorney General and has turned a blind eye to all federal judges’ conflicts of interest in Leader v. Facebook, right up to Chief Justice John G. Roberts, Jr. who holds substantial stock in JPMorgan and Facebook cartel interests. Holder himself is loaded up with Fidelity and T. Rowe Price holdings.

Vanguard, T. Rowe Price and Fidelity became large Facebook investors.

Yada, yada, yada.

**COLLUSION AMONG IBM & HARVARD PRINCIPALS**

Following the adage “follow the money,” all roads lead to IBM’s chief financial officer, Mark Loughridge. He paid Chandler’s consulting fees, donated $40 million to start Eclipse, and led to the Chinese Lenovo sale, which he explained to nervous IBMers.

Mark Loughridge failed to disclose is numerous hidden-agenda associations to IBM shareholders:

1. IBM chief financial officer
2. David J. Kappos, IBM colleague
3. Eclipse Consortium funder
4. James P. Chandler client
5. JPMorgan client
6. Fenwick & West LLP client
7. James W. Breyer, Accel Partners LLP colleague
8. Robert C. Ketterson, Fidelity Investments colleague
9. Chinese Lenovo deal selling out the IBM PC Group
10. Vanguard Group director (major Facebook shareholder)
11. William R. Brody, IBM director, T. Rowe Price director (5.2% Facebook shareholder, 6.9% Baidu (China) shareholder)

**MARK LOUGHRIDGE’S FIDUCIARY DUTY SINS**

To what extent are IBM’s earnings since 2004 fraudulent as a result of Mark Loughridge’s nondisclosure? IBM’s use of its monopoly to oppress small American inventors is exactly the sorts of despotic powers America’s founders decried as deadly to the Republic.

**WHEN IN DOUBT, THE CORRUPT DOUBLE DOWN**

David J. Kappos left the Patent Office, after assigning IBM crony judges to invalidate Leader Technologies’ patent, and then went to work for Cravath Swaine LLP. On Jan. 23, 2014, Kappos’ Cravath Swaine facilitated the sale of IBM’s server unit to Lenovo.

Table 2: X = conflicting associations with Facebook interests. The only honest broker in this list appears to be Judge Joseph J. Farnan. He oversaw Leader v. Facebook up to one month before trial, after which he "retired" to make way for Obama nominee Leonard P. Stark. Judge Stark was formally appointed to his judgeship by President Obama just a week after the trial—evident reward for giving the administration the verdict they wanted. On Jan. 20, 2010, Judge Farnan had conducted the pivotal Markman Hearing which was a disaster for Facebook. Just a week later, on Jan. 26, 2010, Judge Farnan suddenly announced his "retirement" having previously told the litigants he was looking forward to the trial. He still practices law in Delaware.

Judge Joseph J. Farnan appears to have been the only honest broker in this cast of characters. Tellingly, he was pressed into retirement just a month before trial. Actually, Judge Farnan did not retire. He went into private practice and continues to practice law in Delaware. Strange conduct from someone who said he was looking forward to the Leader v. Facebook trial just months earlier. It appears that the Facebook cartel did not like Judge Farnan’s Markman opinion.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness, . . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney “dark arts,” destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

**CHIEF JUDGE PROST REPEATS COURT BIAS AND REVEALS JPMORGAN DEEP-POCKET INFLUENCE**

**PANEL FAILED TO DISCLOSE MASSIVE JPMORGAN HOLDINGS & IBM / ECLIPSE FOUNDATION / FACEBOOK / NSA LINKS IN ARUNACHALAM V. JPMORGAN**

**MAY 8, 2015 NEWS FLASH!**—Today, Judge Sue L. Robinson was also asked to recuse herself in Arunachalam v. JPMorgan. Forensics reveal she was instrumental in 2001 judicial rules changes that spawned the “safe harbor” mutual fund scam, along with Federal Circuit executive Jan Horbaly who resigned shortly after censoring Dr. Arunachalam’s amicus curiae briefs in Leader Tech v. Facebook.

Dr. Arunachalam moved to have Judge Robinson recuse herself due to her self-interestedness in supporting the “safe harbor concept” that federal judges are using as their excuse to hide investments in deep-pocket litigants, like JPMorgan, Facebook and Facebook’s other underwriters. Dr. Arunachalam included a timeline showing when the safe harbor scam was put in place.

Judge Robinson had earlier ruled for JPMorgan in the critical Markman Hearing, after just a week on the case as judge. She has strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury’s admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook’s appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

almost laughably refused to acknowledge even one conflict of interest in this case. Tellingly, JPMorgan defends her conflicts as permissible. The judge she replaced, Richard G. Andrews, actually admitted his JPMorgan holdings, citing Robinson’s “safe harbor” mutual fund sham excuse. Federal judges are clearly feathering their nests at the expense of justice and fair play... no doubt believing that laypeople are too stupid to notice, and fellow attorneys too cowardly to say anything, even though Rule 8.3 of the Rules of Professional Conduct says it is their solemn duty to self-policing this corruption in order to maintain our Republic. The entire legal community is silent about this profound judicial scam, like co-dependent alcoholics who refuse to admit their alcoholism.

Robinson was evidently shuffled into this case (which was going badly for JPMorgan in a fair fight) as a placeholder by fellow Delaware District Court Judge Richard G. Andrews and Chief Judge Leonard P. Stark. Both Andrews and Stark hold mountains of investments in JPMorgan and the Facebook cartel. Stark was shoehorned into the Leader v. Facebook case just one month before trial, and received his appointment by Obama just six days after the trial ended where he ruled against Leader on a fabricated on-sale claim that he allowed Facebook to add as his first act as trial judge without permitting additional discovery on the new claim—a clear breach of Leader’s right to due process. Despite this corruption, Leader proved that Facebook infringes their patent on 11 of 11 claims.

See the pattern folks? These JPMorgan / Facebook / IBM / Harvard Law thugs don’t give two hoots about the U.S. Constitution.

ORIGINAL POST
(MAY 7, 2015)–On Apr. 20, 2015, a Federal Circuit Court of Appeals panel in Dr. Lakshmi Arunachalam v. JPMorgan, dismissed Dr. Arunachalam’s patent infringement appeal on trivial procedural grounds, without a hearing, and after failing to clarify ambiguous rulings crafted to create a pro-JPMorgan decision. Dr. Arunachalam asserts that JPMorgan and other key banks infringe her core patent on web transactions.

Dr. Arunachalam is the former Director of Network Architecture for Internet pioneer supplier, Sun Microsystems (now part of Oracle).

Today, Dr. Arunachalam fired back with a motion for recusal of these judges for evident bias. She included a detailed analysis of each judge’s financial holdings in the JPMorgan litigants: (Exhibit A) Judge Sharon Prost, (Exhibit B) Judge Evan J. Wallach (part of the corrupt Leader Tech v. Facebook panel) and (Exhibit C) Judge Jimmie V. Reyna.

Several days ago, she filed a motion for reconsideration due to the Court having run roughshod over her basic constitutional rights in a school-yard bully ruling including: (1) prejudice created by conflicting rulings which made it impossible for her to comply, (2) dismissal on dubious procedure grounds based on a trivial argument over how to count abbreviations in the word count, (3) ignoring her medical emergency, (4) ignoring the evident judge bias, and (5) refusal to give latitude to a pro se litigant and allow her to correct the alleged word count error.

The fact is, Internet pioneer Dr. Lakshmi Arunachalam may be the most bold woman in America. She is highlighting the financial conflicts of interests of high court judges who have probably never been challenged about the way they hide their financial holdings in deep-pocketed litigants.

By dismissing the case before it had reached first base, the financial holdings of these judges in JPMorgan, Wells Fargo and Citigroup, among other defendants shows obvious bias.

Kuddos to Dr. A for her courage and determination to be judged by fair and impartial tribunals, and not by schoolyard bullies spewing from Harvard Law.

AMERICAN PUBLIC DESERVES TO KNOW WHAT ZUCKERBERG IS HIDING

STONEWALLING ABOUT FACEBOOK’S ORIGINS IS NOW A MATTER FOR MANDATORY PUBLIC DISCLOSURE

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | APR. 29, 2015, UPDATED MAY 6 | PDF

MAY 1, 2015 NEWS FLASH!—SAP AMERICA IMPLICATED IN GROWING ZÜCKERBERG, FACEBOOK, IBM, NSA, THE ECLIPSE FOUNDATION SCANDAL

Corporate giant SAP America appears to have no sense of humor. While they abuse true American inventors, they are thin skinned when called on the carpet for their corruption. On Dec. 6, 2014, AFI exposed Patent Office chief judge Robert MacNamara’s holdings in JPMorgan and SAP in an unfounded patent reexamination captioned Pi-Net/Dr. Lakshmi Arunachalam v. SAP America. Dr. Arunachalam holds about 15 patents on much underlying infrastructure used widely in ecommerce. SAP is trying to steal them without compensating her. Rumors are circulating that JPMorgan and SAP are attempting to get royalty-free, perpetual licenses for the technology they have stolen from inventors—even royalty-free rights to their future inventions in exchange for not persecuting the inventor. This mentality is socialism. It undermines the U.S. Constitution, Article I, Section 8, Clause 8 on copyrights and patents. The fruit of your liberty and labor is your property.

In that exposé, we included a photo of Judge MacNamara with an attorney toxic waste symbol. The illustration was satire to emphasize the destructive effects that the legal profession is having on our American Republic (see Fig. 1).

AMERICAN REPUBLIC (see Fig. 1). In SAP’s filing yesterday, they implied that Dr. Arunachalam was responsible for the AFI posts. She is not, but even if she was, the last time we checked, the First Amendment is still in the U.S. Constitution. SAP America conflated the description this way: “a picture of [the Judge] superimposed on a background of simulated targets with a skull and crossbones.” Really? (Tellingly, SAP failed to mention the words “CORRUPTION CENTRAL,” and thus took the opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court’s Pfaff v. Wells Electronics, Inc. test for on-sale bar evidence, which included even the Federal Circuit’s own Group One v. Hallmark Cards, Inc. test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. Group One test omission analysis.

FIG. 1—PATENT JUDGE BRIAN MACNAMARA

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court’s ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. Facebook. Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook’s largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone’s throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the misconduct of his judges and Clerk of Court in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court’s Pfaff v. Wells Electronics, Inc. test for on-sale bar evidence, which included even the Federal Circuit’s own Group One v. Hallmark Cards, Inc. test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. Group One test omission analysis.

FACEBOOK CARTEL ALERT: SAP America is a founding member of David J. Kappos’, James P. Chandler’s and BMS The Eclipse Foundation on Nov. 29, 2001. This could explain their sensitivity to having their conduct exposed. It appears that SAP, too, has relied upon Leader Technologies’ social networking invention, just like Facebook. Is SAP in cahoots with the Patent Office (formerly directed by The Eclipse Foundation’s founder, BMS David J Kappos) and cooperating with the NSA also? Are Zuckerberg’s hard drives going to incriminate SAP also? The scandal grows.

(APR. 29, 2015)—Mark Zuckerberg was a 19-year old Harvard sophomore in 2003-2004 when
Facebook began.

The Social Network movie “narrative” led the public to believe that Zuckerberg was some sort of savant who could write computer code 20 or 30 times faster than a normal programmer. Not a single mainstream media investigator has ever questioned this story.

Given the pervasiveness of social networking in our culture—the media silence about Facebook’s origins betrays the secret loyalties of media editors and their owners who appear to have been insiders in this deception.

WILL A FREE PRESS RETURN?

Hopefully, an independent Free Press will return before our Republic is destroyed by this acquisitiveness to crony capitalism.

Today, Facebook is protected by a phalanx of large law firms who have stonewalled every attempt to learn the truth about Zuckerberg and Facebook in 2003-2004. Prominent among these firms are Fenwick & West LLP, Gibson Dunn LLP, Cooley Godward LLP and Orrick Herrington LLP.

Incontestably, these law firms have outright lied to numerous federal judges in trade secrets, patent and breach of contract lawsuits filed against Zuckerberg and Facebook. They have also lied to the American public in the sale of Facebook stock to the public and their reliance on stolen intellectual property.

Normally, such lies would land these people in jail. But in Obama’s brand of justice, these people are excused and elevated to high office.

How do we know that The Social Network was a false narrative meant to fool the public into believing Zuckerberg was something he never was?

ZUCKERBERG’S STORY CHANGES WITH EACH TELLING

In a recent Zuckerberg v. Argentieri court filing, Zuckerberg wrote that he “conceived of Facebook” “around December 2003.” However, in his 2006 ConnectU testimony he was clear that it was “one to two weeks” in January 2004.

In Ceglia v. Zuckerberg he first claimed the contract was a forgery. Then later, in U.S v. Ceglia, when it became clear that his original signature was on page two, he said the 2nd page was genuine, but the 1st page was a forgery. The government accepted his claim without independent verification and threw Ceglia in jail. The U.S. Attorney Preetinder Bharara was formerly employed by Gibson Dunn LLP, Facebook’s attorney, and a fellow Obama Harvard crony.

However, in recent weeks the government disclosed an August 18, 2003 email where Zuckerberg and Ceglia discussed the second contract. Then just a few weeks ago, the U.S. Secret Service Forensic Labs confirmed that both pages of the contract are genuine. Despite this hard proof, Gibson Dunn LLP’s mobster “Punks with a Pen” continue to shout the stale “forgery!” fiction in an obvious attempt to cover up the new facts that expose their false “narrative.”

The judges and media that Gibson Dunn is shouting at are either gullible, or complicit.

A TIMELINE OF DECEPTION, THEFT AND COLLUSION

Zuckerberg set about to stall at least three other campus facebook initiatives by Paul Ceglia (Facebook), the Winkelvoss Twins (ConnectU) and Aaron Greenspan (HOUSEsystem).

Barack Obama announced his candidacy for President on Facebook in 2007. Pundits credit his election and re-election with the slicing and dicing of Facebook demographic data to micro-target voter groups to whom he pandered. It appears that both Obama and Zuckerberg have the same handlers.

Facebook began feeding user data on American citizens to the NSA just nine weeks after Eric H. Holder, Jr. became U.S. Attorney General. Was this the greatest public-private mercantile sell out of all time?

Are your children safe on the Facebook platform?

Is our Republic’s political dialogue safe in the hands of these unaccountable predators and their secret censors of “community standards”?

The judges and media that Gibson Dunn is shouting at are either gullible, or complicit.

A TIMELINE OF DECEPTION, THEFT AND COLLUSION

Zuckerberg set about to stall at least three other campus facebook initiatives by Paul Ceglia (Facebook), the Winkelvoss Twins (ConnectU) and Aaron Greenspan (HOUSEsystem)

they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. See analysis of Judge Rader’s undisclosed conflicts of interest in Leader v. Facebook.

Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook’s evidence on appeal, which is a clear breach of constitutional due process.

AFI LOGO (with text)
The various deceptions were necessary so his former PayPal handlers (James W. Breyer, Reid Hoffman, Peter Thiel), in collusion with IBM attorney David J. Kappos and IBM’s “The Eclipse Consortium,” could wait for Leader’s 750,000 lines of source code to be debugged and fed to them by Leader’s patent counsel, IBM’s chief outside counsel. For comparison, a good programmer can write and test perhaps 300-400 lines of debugged (clean up all drafting errors) code a day.

Leader’s debugging was completed on Oct. 28, 2003. Magically, Zuckerberg hacked the house sites at Harvard that same night (“Let the hacking begin.”).

Rolling forward, Barack Obama was elected on Nov. 4, 2008.

On Nov. 18, 2008, Leader Technologies sued Facebook for patent infringement.

On Nov. 28, 2008, Harvard's Larry Summers was appointed to lead the bank bailout and thereafter funneled $33 million to Goldman Sachs, Morgan Stanley and JPMorgan—al Facebook underwriters.

On Dec. 12, 2008, the FISA Court quietly change the oversight rules which effectively gave the incoming Attorney General almost dictatorial powers to allow the NSA to spy on American citizens on the flimsiest of probable cause.

On Mar. 27, 2009, Eric H. Holder, Jr. became U.S. Attorney General. Leader Technologies’ patent attorney, James P. Chandler, appears to have had murky control over Holder’s nomination and the relationship between the Justice Department and the NSA.

Nine weeks after that, on Jun. 06, 2009, Facebook began feeding American user data to the NSA based on a dubious FISA opinion concocted just months earlier to give incoming Eric H. Holder, Jr. almost dictatorial powers to snoop on American citizens. See previous two posts.

Also in June 2009, Facebook told Leader Technologies’ attorneys that Zuckerberg’s 2003-2004 information discovery was received and all lost.

On Aug. 13, 2009, David J. Kappos, IBM’s intellectual property counsel was appointed by Obama as director of the Patent Office. Both Kappos and Eric Holder were protégés of, James P. Chandler, Leader Technologies’ patent attorney. Chandler was chief outside counsel to IBM and close adviser to the National Security Agency (NSA)

On Nov. 29, 2001, during Kappos’ tenure at IBM, he and Chandler cajoled IBM to invest $40 million to start The Eclipse Foundation. The publicly available Eclipse minutes from Dec. 8, 2004 state they were “unable to locate” the original contributor of the code they used to start Eclipse. The minutes also declared that they must “re-implement” its founding source code. “Re-implementation” is lawyer sophistry for steal.

**SNARK ALERT** (Sorry, we could not resist commenting on the ridiculousness of the “unable to locate” and ‘re-implementation’ lawyer sophistry for theft in the preceding paragraph.)

Notice to the Facebook Cartel lawyers: we found the contributor you were unable to locate! LEADER TECHNOLOGIES—true American innovators from Columbus, Ohio. Turns out, your law professor buddy, Professor James P. Chandler, was Leader’s patent counsel at the time you stole Leader invention starting in late 2001! (See Eclipse formation announcement, Nov. 29, 2001; See first Eclipse board meeting minutes.) James P. Chandler—the esteemed professor emeritus of intellectual property law from George Washington University and author of the Economic Espionage Act of 1999, must’ve had a brain freeze not to remember his client’s name. Isn’t it a crazy coincidence that Chandler also happened to have two protégés who just happened to gain high office in the Obama White House in IBM/Eclipse’s David J. Kapps (Patent Office director) and Eric H. Holder, Jr. (Attorney General)? Isn’t it also just crazy coincidence that Chandler cut a backroom deal with IBM/Eclipse to construct a special backdoor for the NSA into the Eclipse platform Leader platform that you gave away (without Leader’s permission) to every developer on the planet in 2004. As a result, the NSA can snoop on every American, including our children, at their convenience, in total secrecy. Yee haw, it was an “open source” code free for all, wasn’t it? You certainly do know how to “lose” incriminating evidence when it is convenient. No wonder Facebook looked so much like Leader’s invention. It was!

THE DOG ATE IT (for national security, of course)

The first whistle blower might be able to cut a deal to stay out of jail. You younger lawyers don’t want to ruin your lives and families for these misguided people. Don’t be fooled any longer, their conduct is greed, powermongering and criminality dressed up in the verbiage of “national security.”

On Jul. 12, 2018, Facebook’s experts Rose and McGowan revealed that 28 Zuckerberg hard drives and Harvard emails were not lost and were in the custody of Gibson Dunn LLP the whole time, proving that their claims to Leader Technologies were a lie.

The new Attorney General, Loretta Lynch, has stated her intention to extend these abuses of power for another five years. The fact that Facebook's lawyers have stonewalled (with extensive judicial cooperation) every lawful request to review Zuckerberg’s 2003-2004 hard drives and Harvard emails is telling.

What are they hiding? If their arguments are genuine, then they have nothing to worry about. If on the other hand, the investigation proves that Ceglia’s contract is genuine, and it proves that Facebook relies on Leader Technologies’ invention, then Facebook is led by thieves and liars who have made a pact with the devil in their cooperation with the NSA.

If the latter is true, then these are not the sorts of people to be managing the online conversations of our children.

IS OUR CHILDRENS’ DIGITAL PLAYGROUND OVERSEEN BY LIARS, THIEVES & MONEY LAUNDERERS? (YES)

Would you drop off your children to play in playground full of thieves, liars and money launderers? That appears to be exactly what is happening on Facebook.

This issue has become one of public safety and security, and not just one of constitutional contract and patent rights.

NO MORE STONEWALLING FROM FACEBOOK’S CADRE OF UNSCRUPULOUS LAWYERS, BANKERS AND JUDGES

It’s time for an independent commission to get to the truth about Zuckerberg and Facebook’s origins—before Facebook’s lawyer, Gibson Dunn LLP and McManus Faulkner LLP, cause these 28 hard drives and Harvard emails in their custody to disappear, magically.

108. Goldman Sachs (received US bailout funds; then invested with DST in Facebook private stock via Moscow; took Facebook public; locked out American investors from investing)

109. Morgan Stanley (received US bailout funds; took Facebook public; probably participated in overseas purchases of Facebook private stock before IPO)

110. State Street Corporation (received U.S. taxpayer bailout monies along with Goldman Sachs and Morgan Stanley; consolidating control of ATM banking networks internationally)

111. JP Morgan Chase (received U.S. taxpayer bailout monies along with Goldman Sachs, Morgan Stanley and State Street Corporation)

112. Lloyd Blankfein (Goldman Sachs, CEO)

113. Jamie Dimon (JP MorganChase, CEO)

114. Steve Cutler (JP MorganChase, General Counsel)

115. Rodgin Cohen (JP MorganChase, Outside Counsel; Sullivan Cromwell, LLP)

116. U.S. Securities & Exchange Commission (granted Fenwick & West’s application on behalf of Facebook for an unprecedented exemption to the 500 shareholder rule; opened the floodgates for Goldman Sachs and Morgan Stanley to make a private market in Facebook pre-IPO insider stock; facilitated the influx of billions of dollars from "dubious" sources associated with Russian oligarchs, Alisher Asmanov and Yuri Milner, and the Kremlin; Goldman Sachs is a partner with this Moscow company, Digital Sky Technologies, aka DST, aka Mail.ru)

117. Jeff Markey (McBee Strategic LLC; allied with Facebook’s Cooley Godward Kronish LLP to arrange Obama’s green energy funding;
arranged $1.6 billion for failed BrightSource and $335 million for failed Solyndra)

118. Steve Mcbee (Mcbee Strategic LLC; allied with Facebook’s Cooley Godward Kronish LLP to arrange Obama’s green energy funding; arranged $1.6 billion for failed BrightSource and $335 million for failed Solyndra)

119. Michael F. McGowan (Stroz Friedberg; Facebook forensic expert who lied about his knowledge of the contents of the 28 Zuckerberg hard drives and Harvard Email accounts)

120. Bryan J. Rose (Stroz Friedberg; Facebook forensic expert who lied about his knowledge of the contents of the 28 Zuckerberg hard drives and Harvard Email accounts)

121. Dr. Saul Greenberg (Facebook’s expert witness from the University of Calgary; disingenuously waived his hands and said he would be “wild guessing” about the purpose of a Java “sessionstate” import statement (even Java newbies know it is used for tracking a user while in a web session); in short, Dr. Greenberg lied to the jury, thus discrediting his testimony)

122. Toni Townes-Whitley (CGI Federal; Michelle Obama’s 1985 Princeton classmate; CGI “donated” $47 million to the Obama campaign; CGI won the no-bid contract to build the www.healthcare.gov Obamacare website; CGI shut off the security features on Obama’s reelection donation sites to increase donations)

123. CGI Federal (US division of a Canadian company; Donated $47 million to Obama’s reelection, then received the no-bid contract to build the ill-fated Obamacare website; Michelle Obama’s Princeton classmate, Toni Townes-Whitley, is a Senior Vice President of CGI; the website is replete with social features and links to Facebook)

124. Kathleen Sebelius (Obama’s Secretary of Health & Human Services since 2009 responsible for $678 million Obamacare implementation; made the decision to hire CGI Federal on a no-bid contract despite the evident conflict of interest with Michelle Obama and $47 million in Obama campaign donations by CGI; the website is replete with social features and links to Facebook)

125. Todd Y. Park (White House Chief Technology Officer (CTO); former CTO for Health & Human Services; chief architect of HealthCare.gov; founder, director, CEO, Athenahealth, Inc.; founder, director, CEO, Castlight Health, Inc.)

126. Frank M. Sands, Sr. / Frank M. Sands, Jr. (Founder and CEO, respectively, of Sands Capital Management LLC; failed to file S.E.C. Form SC 13G acquisition reports for Athenahealth, Inc., Baidu, Inc. (ADR) and Facebook stock during 2012; masked the association of Todd Y. Park with Athenahealth, Inc. and Baidu, Inc., and the association of both of those companies with the Facebook IPO fraud)

127. Robin “Handsome Reward” Yangong Li (CEO, Baidu, Inc. (ADR); appointed Jan. 2004, the same month that Mark Zuckerberg
obtained Leader Technologies’ social networking source code to start Facebook; Robin Y. Li is very likely associated with John P. and James W. Breyer through their Chinese entities, including IDG Capital Partners, IDG-Accel and other variants; Li appointed a junior attorney from Fenwick & West LLP, Palo Alto/Mountain View, namely Parker Zhang, to be his “Head of Patents,” Fenwick & West LLP represented both Leader Technologies, Inc. and Accel Partners LLC in 2002-2003 and had Leader’s source code in their files.)

128. Parker Zhang (“Head of Patents” at Baidu, Inc. (ADR), appointed in approx. May 2012; formerly a junior Associate attorney at Fenwick & West LLP; graduate from Michigan Law in 2005)

129. Penny S. Pritzker (Secretary, Department of Commerce; replaced Rebecca M. Blank; holds over $24 million in Facebook “dark pools” stock, most notably in Goldman Sachs, Morgan Stanley and JPMorgan)

130. Rebecca M. Blank (Secretary, Department of Commerce; oversaw the dubious Leader v. Facebook activities of the Patent Office Director, David J. Kappos, who held over one million dollars in Facebook “dark pools” during the Leader v. Facebook proceedings; Kappos purchased this stock within weeks of his surprise recess appointment by President Obama; Kappos also was formerly employed by IBM, who sold Facebook 750 patents during the Leader v. Facebook proceedings; right before leaving the Patent Office, Kappos also ordered an unprecedented 3rd reexamination of Leader’s patent without even identifying claims)

131. Mary L. Schapiro (Chairman, Securities & Exchange Commission; holds at Facebook “dark pools” stocks which held stock in Facebook, Baidu and more than a dozen Facebook crony companies; failed to regulate the “dark pools,” failed to disclose her substantial conflict of interest in regulating the run up to the Facebook IPO)

132. Robert C. Hancock (Chief Compliance Officer, Sands Capital Management, LLC; failed to file S.E.C. Form SC 12G notice of acquisition reports for Athenahealth, Baidu and Facebook during the period of the Facebook IPO in 2012; this conduct masked the conflicts of interest of Todd Y. Park, who was appointed by President Obama to be the U.S. Chief Technology Officer during this same period; Todd Y. Park is/has been founder, director and CEO of both Athenahealth and Castlight Health; Todd Y. Park deeply embedded the software from Athenahealth and Castlight Health into HealthCare.gov when he was CTO at Health & Human Services; none of these conflicts of interest were disclosed; Todd Y. Park’s ethics pledges and reports are missing from the Office of Government Ethics)

133. Jonathan Goodman (Chief Counsel, Sands Capital Management, LLC; failed to file S.E.C. Form SC 12G notice of acquisition reports for Athenahealth, Baidu and Facebook during the
period of the Facebook IPO in 2012; this conduct masked the conflicts of interest of Todd Y. Park, who was appointed by President Obama to be the U.S. Chief Technology Officer during this same period; Todd Y. Park is/has been founder, director and CEO of both Athenahealth and Castlight Health; Todd Y. Park deeply embedded the software from Athenahealth and Castlight Health into HealthCare.gov when he was CTO at Health & Human Services; none of these conflicts of interest were disclosed; Todd Y. Park's ethics pledges and reports are missing from the Office of Government Ethics; Goodman was formerly employed by Gibson Dunn LLP, Facebook appeals counsel in Leader v. Facebook)

134. Trip Adler ("Co-Founder" of Scribd; Harvard contemporaries of Mark Zuckerberg with a dubious orgins story, like Zuckerberg's; Scribd held API documents for two years, then summarily deleted the entire library without warning on Fri. Mar. 7, 2014; AFI's library contained only public documents and much evidence proving the Leader v. Facebook judicial corruption)

135. Jared Friedman ("Co-Founder" of Scribd; Harvard contemporaries of Mark Zuckerberg with a dubious orgins story, like Zuckerberg's; Scribd held API documents for two years, then summarily deleted the entire library without warning on Fri. The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

1. the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

2. the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

3. the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The
Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a “massive” scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.
