Served as Associate Attorney General during the Bush Administration. He then became the first general counsel of the Department of Homeland Security. These positions meant he was under the direction of James P. The U.S. Senate held a confirmation hearing to appoint Stephens to be Assistant Attorney General on Sep. 20, 2001. [S. Hrg. 107-603](#), just a week after 9-11.

In Stephens' 2001 Senate hearing, he disclosed Merrick B. Garland as a personal reference in his Senate hearing. [Stephens Hearing, p. 72](#). Therefore, this definitively ties Garland to Stephens' Raytheon interests. See below.

[Stephens Senate 2000 Financial Disclosure](#) is handwritten. **Researchers only see hand-written financial disclosures among lawyers applying for jobs in the Executive Branch.** (The information is not searchable electronically.) Stephens did not disappoint. Stephens' holdings carry the now unmistakable signature of the Washington Cartel (i.e., Vanguard, Fidelity, Janus, Harbor). And yes, Stephens holds Fidelity Contrafund, just like Eric Holder, John Roberts, Evan Wallach and others in the Leader v. Facebook judicial corruption.

In 2005, Stephens also disclosed Margaret G. Gill, Airtouch, Sr. VP for Legal, External Affairs, as a reference. [Id., p. 72](#). In 1995, [Ms. Gill also endorsed Judge Garland](#) in his Senate confirmation hearing. This is clearly a tight clique of lawyers.

In 2001, Stephens disclosed a Justice Department relationship with IBM (including undercover operations), which proves his association with Leader Technologies' patent counsel, James P.

Chandler, who also advised IBM and its inside counsel, David J. Kappos, who was appointed by Obama as Patent Office Director in 2009. [Stephens Hearing, p. 74](#)

Stephens later become senior vice president and general counsel of Raytheon Corp., a prime defense contractor, weapons manufacturer and vendor to the spy state.

[Raytheon Tomahawk Cruise Missiles](#) are suspected by highly credible senior aircraft manufacturing officials to have been used on 9-11. These executives have investigated the gapping holes in the official story of 9-11 from both engineering and forensic perspectives. Some of these executives have overseen manufacturing on well known aircraft.

For example, the Pentagon site had no airplane wing debris and the impact area on the building was too small for the alleged American Airlines Boeing 757. None of the crash sites had customary debris fields that one would normally find for commercial jets full of passengers and cargo (e.g., clothes, papers, luggage, children's toys). Also, the crash sites were bereft of [titanium](#) jet engines. Titanium in a jet engine does not burn or disintegrate in a crash. The inferno, as spectacular as it is, never gets hot enough to melt titanium.

Jet fuel (kerosene) burns at 1220° F. Titanim melts at 3,034° F. You do the math. The myth debunkers (or astroturfers-propogandists) have steered clear of these facts.

Before the Garland nomination, an aircraft industry expert had said he/she believes that the site evidence makes Raytheon Tomahawk Cruise Missles and secondary explosives the more likely cause of the 9-11 site damage signatures. We had not published this previously, but when Raytheon's chief counsel became associated with the Garland nomination and the illegal NSA surveillance programs, [this research may be material, and is certainly worth further investigation.](#)

 Evan J. Wallach

Also confirmed as Int'l Trade Court judge along with Garland; later nominated by Obama to the Federal Circuit; appointed to the Leader v. Facebook appeals panel despite no patent law experience. Ruled for Facebook in clear violation of well-settled court precedent; Holds substantial Facebook and NSA spy state vendor holdings for which he was and is silent about conflicts. Wallach was Senator Harry Reid's chief counsel.

 Eric H. Holder, Jr.

Eric J. Holder, Jr. was appointed Deputy Attorney General by Bill Clinton in 1997. A post he held until 2001. He is a protégé of James P. Chandler, III, author of the Economic Espionage Act in 1996. Holder carried out Clinton's last minute pardon of Marc Rich. He served as Assistant Attorney General under George Bush. Thus, he was a close associate of Merrick B. Garland, Robert S. Mueller, Dan K. Webb, Robert S. Bennett, George J. Terwilliger, III, Joe D. Whitley, Jay B. Stephens, Donald B. Ayer and Evan J. Wallach.

Holder was appointed Attorney General by Barack Obama on Feb. 2, 2009. Holder approved and supervised the NSA's illegal bulk surveillance

## CONCLUSIONS

- 1. NSA SPY STATE RELATIONSHIPS:** It appears that Judge Garland had a secret NSA Spy State agenda and set of relationships coming into his current job, and will certainly carry it into the Supreme Court, should he be confirmed.
- 2. DUBIOUS FINANCIAL GAINS:** Judge Garland's ability to grow his financial portfolio by over \$800,000 per year while a full time judge needs to be investigated for possible insider trading and/or collusion with Wall Street.
- 3. NO MORE JUDGES FROM HARVARD!** Judge Garland's spy agenda and dubious finances aside, the country needs to diversify its legal perspectives on the Supreme Court to include a majority NOT from Harvard.
- 4. RAYTHEON LOYALTIES** Judge Garland's sponsor, Jay B. Stephens, and therefore Raytheon, cruise missile manufacturer, ties him to the military-industrial complex. This taints Garland's objectivity. This association is disturbing and raises all sorts of other questions about Garland's association with the spy state agenda of the intelligence agencies and their private "Big Data" beneficiaries, including Silicon Valley and Wall Street.

For these reasons alone, the Garland nomination should be abjured.

## POOLS"

## STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Sickle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

## ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

### LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

- a technology upon which the President and U.S. government now rely;
- a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate.  
Sanction. Certify.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.
