CISCO IS A KEY ENABLER OF THE DEEP STATE SHADOW GOVERNMENT

CISCO CEO JOHN CHAMBERS BUILT BACK DOORS INTO HIS INTERNET ROUTERS, DONATED \$5 MILLION TO THE CLINTON FOUNDATION, AND PAID \$1 BILLION INTO THE OBAMA/HILLARY "RUSSIAN RESET"

FIG. 1 – JOHN T. CHAMBERS, CEO, CISCO SYSTEMS. Chambers is emerging as a central organizing figure in the rogue C.I.A. Deep State shadow government's takeover of the American Republic. Here he is as special guest of Bill and Hillary Clinton at the Clinton Global Initiative (CGI) on Sep. 25, 2013. Chambers donated up to \$5 million to the Clintons and donated \$1 billion to the Hillary/Obama "Russian Reset" to promote Russian technology.

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. Robert S. Mueller's appointment of Assistant U.S. Attorney **ANDREW D. GOLDSTEIN** (Yale Law, [Reg. No. 4585675](#), formerly [Paul Weiss LLP](#), [*] now [Jeh Johnson's](#) law firm) must be rescinded due to Goldstein's personal DOJ conflicts of interest. Goldstein also worked for U.S. Attorney Preetinder Bharara who was recently fired by President Trump. [On Oct. 28, 2008](#), JPMorgan recieved a \$25 billion TARP bailout from the U.S. Treasury, managed by Larry H. Summers under Barack Obama. [On Mar. 09, 2009](#), five months later, [Goldstein represented JPMORGAN CHASE and Ford Motor Company](#) against a small NY brokerage firm involving a \$20 million transaction. [In 2010](#), Goldstein then joined Preet Bharara's U.S. Attorney's office. [On Nov. 19, 2013](#), JPMorgan settled

with Attorney General Eric Holder for \$13 billion with no prosecutions of JPMorgan executives by either Bharara or Goldstein. Experts called this JPMorgan settlement money an "Obama political slush fund." JPMorgan CEO [Jamie Dimon had met secretly](#) with Attorney General Eric Holder before the settlement. "OK, HOUSTON, WE'VE HAD A PROBLEM HERE"

This was the message that Apollo 13 Command Module Pilot Jack Swigert radioed to earth after an explosion in their spacecraft.

This seditious Roundtable group almost universally backed Hillary Clinton for President. A president Hillary would have renewed Executive Order 13708 by Sep. 30, 2017.

However, without that renewal, the decades of digital sedition that has hidden under these executive orders will officially go rogue. They will have no legal authority to operate their warrantless surveillance of Americans and their unConstitutional theft of our privacy.

Said another way, the decades of collusion that have led us to the cliff of The New American Surveillance State will have no legal legitimacy whatsoever come Sep. 30, 2017.

Indeed, like Apollo 13, these conspirators just heard an explosion inside their own "command module." They have a vital problem.

After September 30, 2017, unless President Trump offers them some sort of amnesty, disclosure of their blackmailers, disgorgement and restitution, their Deep State collusion will likely land the entire technology world in prison for treason and sedition. Indeed, former C.I.A. leader turned whistleblower [Robert David Steele](#) recommends that President Trump implement such a "truth and reconciliation" program to help fix the rampant rogue spy-generated blackmail that has overtaken our public institutions.

OFFICIALLY CRIMINALS AFTER SEP. 30, 2017

On Sep. 30, 2017, all of the companies and individuals who have colluded with the rogue C.I.A. / NSA / FBI and NSS in the White House to spy illegally on the American people will be officially criminals because they will no longer have the dubious executive order protections they have relied on since 1999 when these shadow government executive orders were instituted. (The first version of the NIAC, [Executive Order 13130](#) was implemented on Jul. 14, 1999.)

HOW BAD IS IT?

President Trump asked each Roundtable participant to introduce himself or herself. AFI researchers have compared that list of attendees to various other collusion membership lists compiled for the [AFI TIMELINE](#):

People you trusted are now hijacking the Internet.

What emerged is a list that we have named the "Deep State Hive Mind Index." It is hard evidence of "groupthink," in which the desire for harmony or conformity in the group results in an irrational or dysfunctional decision-

W L L HUMANK ND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOV ET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

THE DEEP STATE HIVE MIND INDEX

We coined the term “Deep State Hive Mind Index” as a way to determine the relative contributions of the various actors involved in this massive collusion. Clearly, some of these players are more central to this hive mind than others.

Membership in the following Deep State shadow government activities were each given a “1” value, and Clinton speaking fees were given a “1” for each speech. Ohio State's Trustee President [Jeffrey Wadsworth](#) manages numerous intelligence units as CEO of Battelle Institute and therefore classifies Ohio State as a C.I.A. agent.

Ohio State is also the network hub for M.O.O.C. (Massive Open Online Course)—an evident agent of the Deep State shadow government to **steal university research data** and **brainwash students** using advanced C.I.A. **MKUltra mind control techniques** like virtue signaling and trolling. MKUltra never stopped despite Congress' order to shut it down. “Conspiracy theory!” you say? Open your eyes. Such reactions have been effective in hiding this diabolical program in plain sight. Conspiracy is not theory if it is true. See FBI superstar Agent In Charge [Ted L. Gunderson](#) whistleblower revelations.

Policy & Funding: National Infrastructure [Assurance](#) / [Advisory](#) Council (NIAC), the “safe harbor” concept to circumvent 4th Amendment privacy protections; safe harbor protections will expire on Sep. 30, 2017 which will likely and immediately expose all NIAC contributors to treason and sedition charges

TABLE 1: White House Technology Roundtable Participants (Jun. 19, 2017).

WHAT IS THE DEEP STATE HIVE MIND?

One notable trend among these collaborators is their near universal involvement in the IBM Eclipse Foundation. This foundation distributed the social networking invention of Columbus innovator Leader Technologies at no charge to the entire tech community. Of course, embedded in that code were Deep State requirements for backdoor keys and quid pro quo data sharing.

Is the adoption of the "Eclipse" symbolism merely coincidental? Or, is it intentionally selected Islamic symbolism signaling the unholy alliance between the globalist New World Order and jihadi Islamic extremists?

SACRIFICED MORALS FOR POWER AND MONEY

Evidently, all these people sacrificed their morals and ethics to establish this unconstitutional and depersonalized "Internet of Things" to spy on you and steal all your best ideas to exploit among the hive mind elitists.

These people are like a hive of drone bees buzzing around their corrupt Queen Hillary.

Tellingly, Barack Obama even promoted the "Internet of Things" in his [Executive Order 13718](#). They probably thought no one was paying attention.

MISPRISION OF A FELONY: DID THE ROUNDTABLE PARTICIPANTS COMMIT A FELONY BY NOT DISCLOSING THEIR DEEP STATE COLLUSION TO THE PRESIDENT?

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not

a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." [Examiner.com, Apr. 10, 2012](#). Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. The law is clear. It is a felony to have knowledge of fraudulent activity involving a contract with the federal government and not disclose it.

18 U.S. Code § 4 - Misprision of felony

“Whoever, having knowledge of the actual commission of a felony cognizable by a court of the United States, conceals and does not as soon as possible make known the same to some judge or other person in civil or military authority [including the President and his agency chiefs] under the United States, shall be fined under this title or imprisoned not more than three years, or both.”

Each of these Deep State participants has contracts with the federal government.

By remaining silent about their decades of fraud and crony capitalist collusion, is not each person who introduced himself or herself to President Trump guilty of misprision of a felony? In the opinion of our legal experts, yes.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision,

Remember, the real purpose of Facebook and Google is to be a rogue C.I.A. global spy data collection system for the Deep State shadow government to manipulate and control you from their yachts in the South Pacific—the wolf —who comes into your home dressed in the sheep's clothing of coupons, titillation and baby pictures—very devilish, insidious and effective. Isn't that right Aleksa?

CISCO HAS HELPED LEAD THE DEEP STATE TECHNOLOGY COLLUSION

From 2002-2006 Cisco's CEO John T. Chambers was vice chair of the National Infrastructure Assurance Council (NIAC) started under Bill Clinton as the main policy arm of the rogue C.I.A.'s takeover of the Internet. It was during this period that IBM and Cisco conspired with the rest of the technology world to steal Leader Technologies' social networking invention and convert it to a global spying platform.

These were also the formative years following the Deep State's rogue C.I.A. orchestration of the 9/11 false flag and The Patriot Act. This council was established under Clinton/Podesta in 1999 and tasked to set policy for the Deep State shadow government's "Internet of Things" global spy grid.

Cisco's timeline shows that they were helping lead the development of the rogue C.I.A. surveillance system—almost completely outside the oversight of Congress and the American People. It also shows that Cisco has been a central figure in the Clinton-Obama-Soros-Russia axis:

courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

WELCOME TO DONNA KLINE NOW! READERS!

HOW DO WE KNOW THE DEEP STATE ABUSED THEIR BUREAUCRATIC POWER?

The NIAC's own internal PowerPoint said that's what they were doing—by design. They clearly state that they will essentially **bribe vendors** with government contracts to get compliance with the plan:

GALLERY OF JUDICIAL MISCONDUCT

Recommendations – Cybersecurity Framework Adoption

Deep State shadow government interpretation:
Muscle technology vendors into 100% compliance to the wishes of the Deep State "Internet of Things"

2. Use the Government's procurement power to encourage information technology suppliers to develop cybersecurity framework-compliant hardware and software.

- Government procurement practices have numerous indirect benefits for the larger critical infrastructure community.
- It incentivizes suppliers to enhance the security of their products and services, which are often the same products and services used throughout the critical infrastructure security and resilience (CISR) community.
- Improvements to those systems and reducing the risk associated with hardware and software gaps also allow owners and operators to redirect their attention to other critical security concerns.

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that [Jury Instruction No. 4.7 here](#).)

He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See [analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO](#).

FIG. 4: ON JAN. 17, 1961, PRESIDENT DWIGHT D. EISENHOWER warned the world about the dangers for tyranny arising from a military-industrial complex. As the AFI investigation has uncovered, that day came on Sep. 29, 1999 when the C.I.A. began investing in hardware and software companies, thus essentially nationalizing, largely in secret, America's emerging digital infrastructure. This gave the C.I.A. an unprecedented and unaccountable ability to spy on everyone without a warrant.

bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks.](#)

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells Electronics, Inc.*—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. Brian Barrett. (Jun. 30, 2017). THE ENCRYPTION DEBATE SHOULD END RIGHT NOW. Wired.

WHEN LAW ENFORCEMENT argues it needs a "backdoor" into encryption services, the counterargument has typically been that it would be impossible to limit such access to one person or organization. If you leave a key under the doormat, a seminal 2015 paper argues, a burglar eventually finds it. And now recent events suggest an even simpler rebuttal: Why entrust a key to someone who gets robbed frequently?

This aptly describe US intelligence services of late. In March, WikiLeaks released nearly 9,000 documents exposing the CIA's hacking arsenal. More so-called Vault 7 secrets trickled out as recently as this week. And then there's the mysterious group or individual known as the Shadow Brokers, which began sharing purported NSA secrets last fall. April 14 marked its biggest drop yet, a suite of hacking tools that target Windows PCs and servers to devastating effect.

Judge Wallach also failed to police his court when he failed to apply the Supreme Court's Pfaff v. Former President Barack Obama's administration spied on then-Republican presidential candidate Donald Trump, unmasked the names of private citizens, and leaked them for political reasons.

Now that members of the Obama team are facing potential jail time, the Deep State has pulled one last, desperate attempt to bury all the evidence.

They have removed all the records from government files and put them under lock and key for five years — inside Obama's private library.

Judicial Watch filed a Freedom of Information Act (FOIA) demanding everything related to the alleged Russian hacking scandal — especially anything produced by Susan Rice, Obama's national security adviser. In the past, Rice admitted she unmasked the names of Trump officials, feeding the phony story to the media that they colluded with Russia to steal the election.

But the government says those records are missing and are now sealed inside a library that hasn't even been built yet in Hoffman Estates, Illinois.

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

(1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

(2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

(3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.
