About the data

This data is compiled using OpenSecrets (<https://www.opensecrets.org/>) bulk data downloads. LittleSis analysts match federal campaign contributions given by individuals in our database using the donation matching tool.

Individual profile pages show giving information for the individual profiled; org pages show an aggregate analysis of giving information for individuals with positions or memberships at those orgs. Note that this information may differ substantially from data found at InfluenceExplorer (<http://influenceexplorer.com/>) or OpenSecrets, because it only includes donations for individuals in our database who have been donor-matched by an analyst.
