This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, “snuff parties” (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. contract to run the Obamacare website. Serco also manages the air traffic control towers in 63 U.S. airports, and has been paid more than $95 million to run the U.S. Patent and Trademark examination processes. See substantiating evidence below.

WHO IS SERCO?

Why have we not heard of them? More to the point, why are we outsourcing critical American infrastructure, ingenuity and private medical information on every U.S. citizen to sworn agents of the British Crown?!

Serco’s most recent 2016 annual report published at Companies House in London provides critical clues about Serco’s unstated mission. In looking at Serco’s bizarre collection of subsidiaries, one is left with the evident conclusion that something nefarious is afoot.

SES SERCO “WET-WARE” SOFT KILL PLAN IS HAPPENING, ...

ON THE SURFACE, SERCO IS THE WEIRDEST ASSORTMENT OF COMPANIES ON THE PLANET

Serco builds nuclear weapons, provides housing for migrants, reviews U.S. patents, runs the Obamacare website, operates obvious money-laundering shell companies in the Middle East, is teamed with Lockheed Martin, builds ships, manages massive IT infrastructure, manufactures space vehicles, runs job placement agencies, provides air traffic control to cities, runs rail services, manages parking meters, oversees FEMA Region 9, manages courts and prisons, and runs sports and recreation centers. Huh? This is the weirdest list of companies one can imagine, until one overlays Richard C. Walker's "wet-ware" patents on top, then it makes sense.

This Serco list of 73 subsidiaries revealed a shocking correlation among; (1) Serco’s business interests, (2) the activities of the Senior Executive Service (SES), and (3) the monstrous “Internet of Things” patents filed by Richard C. Walker, Hewlett-Packard and Agilent Technologies.

EUREKA! SERCO IS TASKED BY THE SES TO MANAGE THE GLOBAL EXECUTION OF THE "WET-WARE" INTERNET OF THINGS 5G SATELLITE SYSTEM FOR THE DEEP STATE

In the Walker patents, human beings or people are labeled as mere “wet-ware.” “Wet works” is a spy euphemism for assassination. Tellingly, Obama’s chief of staff, John D. Podesta, used the term just days before Justice Antonin Scalia was found dead in Texas, after which Obama immediately began promoting SES gloabalist Merrick B. Garland to replace him at the Supreme Court.

The association of the spy tradecraft “wet” words is apparent. Walker does not even hide it, he states that his patents are intended to track and control everything and ever body in this world, even ino low orbit—The Internet of Things. It is apparent that neither Walker nor his SES handlers ever expected deplorables to read his work. We have.

FCC CHAIR WHEELER SAID 5G IS INTENDED TO DRAMATICALLY ALTER LIFE ON THIS EARTH WITH NO PLAN TO TEST THE KNOWN HARMFUL AND POTENTIALLY DEADLY EFFECTS OF 5G ON MIND AND BODY

The widely-promoted 5G wireless plan is very clearly designed to make Walker’s one-world government population control plan a reality. Elon Musk (SpaceX), Eric Schmidt (Google), OneWeb (Qualcomm, Amazon) have been working with the SES-controlled The Aerospace Corporation to put up a hundred satellites so far, with a planned 24,000 more in the 5G plan. 5G will enable the SES to eliminate people without harming plants and animals, so they think.

They're wrong. Why do you think honey bee populations are collapsing? ANSWER: Electromagnetic smog. Something like eight billion different radio frequencies surround us at all times. Can you mitigate these harmful frequencies? Yes, but we digress.

Obama's Net Neutrality pitchman FCC Chairman Tom Wheeler (2013-2017) told the National Press Club on Jun. 20, 2016 that the health effects of 5G will not be tested before roll out. Here are culture commentator David Icke's observations on Wheeler's 5G industry bullying.

Globalist eugenicist Ted Turner, CNN founder (now known as the C.I.A. News Network) was caught here on video calling for a 75% reduction in the world population ("I think 2 billion is about right right."). According to the U.N. Agenda 21, the goal is to reduce populations in high tech rare earth mineral rich poor countries (many in Africa), and to reduce populations in the consuming nations to make more room for the genetically superior elites who will remain. (And we thought the world turned its back on such evil thinking after Adolf Hitler and WWII. No, we secretly imported those depraved Nazi eugenicists into the C.I.A. and IBM during operation Paperclip.)

It is no longer a secret that New World Order globalists are proponents of eugenics and world depopulation, as was Woodrow Wilson, Adolf Hitler and as are Hillary Clinton, Barack Obama and Planned Parenthood. Indeed, government data aggregator Deagel.com, Agenda 21 and Ted Turner's Georgia Guidestones predict higher than 70% population reduction by 2025-30. It appears that Serco is being paid billions of dollars a year to get ready and make it happen.

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

Click image above to download a poster-quality PDF optimized for a 11in. x 17in. (ledger-size) poster. America should not be in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

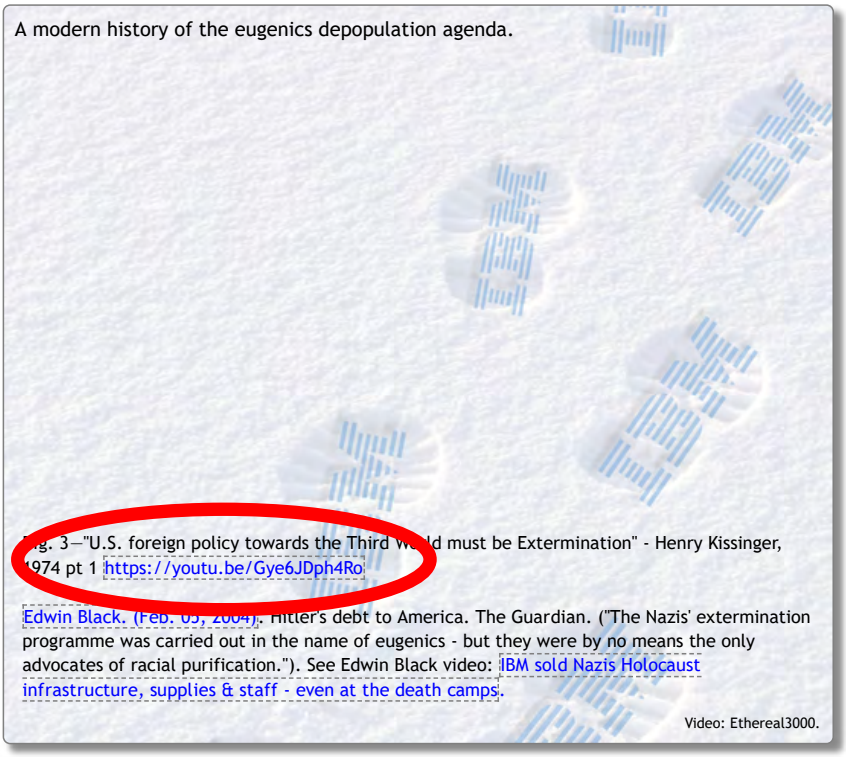
George Orwell wrote in 1984 that one knows one is in a totalitarian state when telling the truth becomes an act of courage.



Eugenicists want to dramatically reduce the world’s population—by stealth if necessary. Wars have always been good for population reduction. Bankers get a two-fer when they fund war. They make money and they depopulate. In Secretary of State Madeleine Albright's world, 500,000 dead Iraq children was acceptable collateral damage. Poisons, toxins and altered genetics work too. For example, billionaire eugenics promoter Bill Gates recently suggested that medical treatment be withheld from the elderly and the savings given to education. With Gates its all in the family. In 2003, he told interviewer Bill Moyers that his father was the former head of Planned Parenthood. Gate's mother also worked at IBM—another eugenics promoter who

supported Hitler's eugenics campaign of murder throughout WWII.

Serco companies are evidently working with the SES Deep State shadow government to implement 5G, and then manage the societal effects of their coming mass murder program. That's why Serco runs FEMA camps, owns pathology companies, houses migrants, owns laundries, operates prisons, provides transport and rail, run hospitals and leisure centers, builds ships and space technology—to zap the populace with 5G like a mosquito zapper, then handle the clean up.

SERCO IS DIRECTED BY THE SES

Ever since Americans for Innovation (AFI) and American Intelligence Media (AIM) unearthed the Senior Executive Service (SES), the revelations of their nefarious activities have been pouring in.

See Obama hired them. Trump cannot fire them. So they say (over 500,000 views). See also The shadow government uses SES, Serco and OPIC as portals into horrific corruption.

Suddenly, the amorphous "Deep State" blob has SES names, faces and titles. See SES Plum Books. For example, almost all of the current players in Robert S. Mueller's witch hunt are SES.

SERCO HISTORY

Among these SES corruptocrats is perhaps the largest British company in America that you have never heard of—Serco Group Plc. ("Serco").

Serco began life in 1929 in the United Kingdom (UK) as RCA Photophone Limited. In 1956, they changed their name to RCA Great Britain Limited. In 1969, they changed names again to RCA Limited. In 1987 their name changed again to Serco Limited.

Today, Serco employs 47,000 people around the world with 8,000 in the United States alone. In 2005, Serco bought commercial, government and defense contractor Resource Consultants Inc. (RCI). Then in 2008, they bought SI International, Inc., an almost carbon copy of RCI. SI International, founded by Lockheed Martin and CACI, Inc. insiders, became wholly-owned US subsidiaries of Serco Inc. These acquisitions gave Serco a significant foothold in major U.S. and government services, including IT, engineering,

> "Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. SERCO HAS BEEN HANDED HUGE SWATHS OF U.S. SECURITY INFRASTRUCTURE

Serco has become, in some cases, the single source provider of critical American infrastructure via 5,000 contracts totaling $6.2 billion (not including secret offshore accounts) including 477 contracts worth $41.3 million at the Senior Executive Services' Office of Personnel Management (OPM), four contracts worth $172 million at the Department of State (DOS), and 4,644 contracts worth $4.22 billion at the Department of Defense (DoD).

Three astonishing Serco contracts are: (1) a $95 million contract to run the U.S. Patent Office's processing of new patent applications, (2) a $1.2 billion contract to run the Obamacare website, and (3) $610 million to run FEMA Region 92: Arizona, California, Nevada, Hawaii and the Pacific Islands. Here's the actual Serco FEMA contract Solicitation No. HSFE80-R-004-DHS.

In addition, already mentioned, but bears repeating, Serco manages air traffic control at 63 U.S. airports! You cannot make this up. Outrageous? Most certainly.

THE SES DEEP STATE SHADOW GOVERNMENT IS SILENTLY USING SERCO FOR THE TAKEDOWN OF OUR REPUBLIC

Obvious questions are: "What is going on? (a) Why isn't Serco a household name in America? (b) Why are we outsourcing critical American infrastructure and ingenuity to the British Crown? (c) Why are our three branches of government and the media silent about this evident coup de tat of American sovereignty?

This British hegemony extends to the American judiciary and government.

British Crown Agents operate in America and have numerous U.S. government contracts too. Here is one example, a $23.7 million USAID contract with Serco. These are the very same Crown Agents whose taxes on tea sparked the Boston Tea Party. See Crown Agents Act of 1995. Why are we giving any money and contracts at all to the British Crown?

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged

In addition, both British and American attorneys are given the title of “Esquire” despite the fact that Article I, Section 9, Clause 8 of the U.S. Constitution prohibits the federal government from granting titles of nobility due to the corrupting foreign influences.

The fact is, American lawyers, judges, law professors and students are organized into an elaborate British-styled union called The American Inns of Court with over 30,000 members. It is directly modeled on the British Inns of Court comprised of four “Temples” in and around the City of London and Westminster.

Tellingly, our American Inns of Court nowhere mention the U.S. Constitution in their charter documents, including their Vision Statement and Professional Creed. To whom do they pledge? To “the movement” and a generic "Rule of Law."

When one considers that The City of London UK banking center is adjacent to the British Inns of Court temples, one begins to get the picture. The British Army may have withdrawn in 1776, but Britain’s bankers and lawyers dug in, and have never left. Now, a British company name Serco is being tapped by the SES to finish the job of bringing the American colonies to heel.

CONCLUSION: BRITAIN IS STILL EFFECTIVELY RUNNING AMERICA.

Serco Group UK Plc’s most recent annual report (2016) appears to be a very odd assortment of companies ranging from outer space, military, air traffic control and satellites to nuclear weapons, parking, pathology, laundry and immigration housing.

The following slides summarize our findings and conclusion that Serco was selected by Deep State shadow government globalists to manage the implementation of the SES soft kill of our population.

Here’s a full list of Serco Group Plc’s subsidiaries taken directly from their 2016 annual financial report.

down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury’s admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

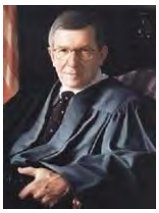
judge in Leader Techs, Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)



Judge Alan D. Lourie , U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO. Judge Lourie also failed to apply his own law-test in Group One v. Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. Mr. President, please pull the plug on these corruptocrats and their illegal funding streams. Since they are all based on fake values, no real services will be affected.

In addition, write the Miller Act Notice check to Leader Technologies for 18 years of unpaid use of their revolutionary social networking invention. This will generate new cash streams to free up our economy from the globalist stranglehold. Judge Wallach also failed to police his court’s violation of Leader’s Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook’s sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's Pfaff v. Wells Electronics, Inc. test for on-sale bar evidence, which included even the Federal Circuit’s own Group One v. Hallmark Cards, Inc. test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. Group One test omission analysis.

Clerk of Court Jan Horbaly , U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. Facebook. Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. Lotus called "Network Notes." He knew they could not scale to the transaction volumes needed for the emerging Internet. Problem-solver McKibben very intentionally set out to create a whole new paradigm. See The Weaponization of Social Media Should Concern Us All.

Once they had their "ah hah" moment in Dec. 1999, McKibben sought legal advice to protect the invention. He was eventually referred to the federal government's top intellectual property lawyer, James P. Chandler, III. Little did McKibben know that Chandler was chief among the world's corruptocrats. Chandler, who was already conspiring with the C.I.A., NSA, IBM, Microsoft, Cisco and Silicon Valley, knew that Leader's invention would finally enable them to implement their dream to spy on everyone.

As wolves in sheep's clothing, they offered the "social" services and email free of charge, replete with slippery legalese that gave them rights to all user data forever. This power has utterly corrupted them. Property and privacy were abolished in their pursuit of the seven deadly sins… in the name of "national security," of course.

What they did not plan on was that Leader's invention could not be controlled so precisely. Social users figured out ways to beat their censors and spread the truth using the very tools with which they are trying to enslave us.

Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook. Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

NEW YORK, NY - MAY 02: Hillary Clinton speaks onstage at the Planned Parenthood 100th Anniversary Gala at Pier 36 on May 2, 2017 in New York City. (Photo by Andrew Toth/Getty Images)
Hillary Clinton’s presidential campaign has transferred nearly $150,000 of leftover campaign funds to a company she solely owns in the months following her election defeat, according to filings with the Federal Election Commission (FEC).

The Clinton campaign has paid $149,457 to ZFS Holdings LLC, since May 2017 for the purpose of “rent,” FEC filings show, but the campaign has left it unclear if it’s paying at, above or below fair market value for the office space it’s renting.

Also, the rent payments to ZFS were sent to the same address as Rorrie Gregorio, Clinton’s personal financial manager.

ZUCK IS RUNNING HOME TO MOMMY.

Allum Bokhari. (May 17, 2018). Facebook Partners with Globalist Atlantic Council to Interfere in Elections Around the World. Breitbart.

Facebook has partnered with the Atlantic Council, whose members include arch-globalists like Henry Kissinger and Dina Powell, to “protect free and fair elections around the world.”

Facebook announced earlier today that the Atlantic Council will provide it with “real-time insights and updates on emerging threats and disinformation campaigns from around the world.”

In other words, Facebook will trust a globalist think-tank to distinguish “disinformation” from the spin and sloganeering that characterize virtually all democratic elections.

Facebook says it will also rely on monitoring teams from the Atlantic Council during elections:

Facebook will also use the Atlantic Council’s Digital Research Unit Monitoring Missions during elections and other highly sensitive moments. This will allow us to focus on a particular geographic area — monitoring for misinformation and foreign interference and also working to help educate citizens as well as civil society.

The thought that a globalist think tank might be biased against certain politicians around the world, and that this might affect their opinion of what counts as “misinformation,” does not seem to have occurred to Facebook.

Patrick Howley. (May 17, 2018). INTERCEPTED DEEP STATE PRIVATE CHAT: Rosenstein Was Blackmailed Into Appointing Mueller. Big League Politics.

WASHINGTON — Deputy attorney general Robert Rosenstein appointed special counsel Robert Mueller because “our friends all have stuff on him,” according to private messages exchanged by five federal government employees on the day Mueller was appointed in May 2017.

Intelligence insiders in Washington are exchanging the messages presented below because they believe they show an accurate presentation of what the House Intelligence Committee has long known: that an inter-agency coalition of a small number of operatives including a top official at John Brennan’s CIA conspired to leak negative stories and “memos” on General Michael Flynn. They ran an operation called “The Limey” to target Flynn and weaken his mental state.

Rod Rosenstein appointed Mueller because “he knows our friends have stuff on him.”

True Pundit Staff. (May 17, 2018). California Prosecutors Call Out George Soros For Meddling In Local D.A. Races. True Pundit.

A group of prosecutors in California has called out New York billionaire George Soros for meddling in several local district attorney races taking place across the Golden State.

Michele Hanisee, President of the Los Angeles Association of Deputy District Attorneys, warned of Soros’ ongoing attempts “to buy the criminal justice system” in a pair of editorials recently posted on the organization’s website:

Now, California is in the crosshairs of Soros funded campaigns that target District Attorney races in San Diego, Alameda, Yolo and Sacramento counties.

District Attorney elections used to be lightly financed campaigns largely focusing on personal qualifications. Definitions of criminal conduct and the proper penalties for that conduct were left to be decided in the political process by legislation or initiative. … Soros has seized on District Attorney races to bypass the legislative process, seeking to elect candidates who support Soros’ political agenda and social views. A staple of these candidates is the promise not to enforce laws with which they disagree.

Chuck Ross. (May 17, 2018). EXCLUSIVE: Cambridge Prof With CIA, MI6 Ties Met With Trump Adviser During Campaign, Beyond. Daily Caller.

Days after Carter Page’s high-profile trip to Moscow in July 2016, the Trump campaign adviser had his first encounter with Stefan Halper, a University of Cambridge professor with CIA and MI6 contacts.

The conversation seemed innocent enough, Page tells The Daily Caller News Foundation. He recalls nothing of substance being discussed other than Halper’s passing mention that he knew then-campaign chairman Paul Manafort. But the interaction was one of many that the pair would have over the next 14 months, through a period of time when Page was under the watchful eye of the U.S. government.

Their relationship included a number of in-person meetings, including at Halper’s farm in Virginia.

Page’s encounters with Halper were quite different from those that another Trump campaign adviser had during the campaign with the 73-year-old academic. As TheDCNF reported exclusively in March, Halper and George Papadopoulos met several times over a period of a few days in Sept. 2016. Several days earlier, Halper contacted and met with a third Trump campaign official. That official, who has requested anonymity, told TheDCNF that Halper expressed interest in helping the campaign.

Unlike with Page, Halper’s relationship with Papadopoulos was ostensibly more of a business arrangement than a fledgling friendship.

Halper, a veteran of the Nixon, Ford and Reagan administrations, unsolicitedly contacted Papadopoulos on Sept. 2 with an offer to fly the Trump associate to London for several nights to discuss a policy paper about energy issues in Turkey, Cyprus and Israel. Papadopoulos, who has worked on energy issues at various think tanks, accepted the offer and flew to London.

Papadopoulos and Halper met several times during that stay, having dinner one night at the Travellers Club, an Old London gentleman’s club frequented by international diplomats. They were accompanied by Halper’s assistant, a Turkish woman named Azra Turk. Sources familiar with Papadopoulos’s claims about his trip say Turk flirted with him during their encounters and later on in email exchanges.

Papadopoulos wrote the paper and delivered it in early October. He was paid $3,000 for the work. Days before making that payment, Halper had finalized a contract with the ***Office of Net Assessment***, the Pentagon’s think tank. Federal records show that Halper has been paid $928,800 since 2012 for work on four policy projects for the Pentagon.
