SES SERCO “WET-WARE” SOFT KILL PLAN IS HAPPENING, BUT CAN BE STOPPED: DEFUND THEM, NOW!

(MAY 16, 2018) – On Jan. 02, 2018, a British Crown-controlled company named Serco Inc. was awarded a $610 million contract to manage FEMA Region 9 that covers Arizona, California, Nevada, Hawaii and the Pacific Islands. On Jul. 16, 2013, Obama awarded Serco a $1.2 billion...
contract to run the Obamacare website. Serco also manages the air traffic control towers in 63 U.S. airports, and has been paid more than $95 million to run the U.S. Patent and Trademark examination processes. See substantiating evidence below.

WHO IS SERCO?

Why have we not heard of them? More to the point, why are we outsourcing critical American infrastructure, ingenuity and private medical information on every U.S. citizen to sworn agents of the British Crown?!

Serco’s most recent 2016 annual report published at Companies House in London provides critical clues about Serco’s unstated mission. In looking at Serco’s bizarre collection of subsidiaries, one is left with the evident conclusion that something nefarious is afoot.

Fig. 2—SES and Serco plan to control the world. [Video: American Intelligence Media (AIM).]
ON THE SURFACE, SERCO IS THE WEIRDEST ASSORTMENT OF COMPANIES ON THE PLANET

Serco builds nuclear weapons, provides housing for migrants, reviews U.S. patents, runs the Obamacare website, operates obvious money-laundering shell companies in the Middle East, is teamed with Lockheed Martin, builds ships, manages massive IT infrastructure, manufactures space vehicles, runs job placement agencies, provides air traffic control to cities, runs rail services, manages parking meters, oversees FEMA Region 9, manages courts and prisons, and runs sports and recreation centers. Huh? This is the weirdest list of companies one can imagine, until one overlays Richard C. Walker’s “wet-ware” patents on top, then it makes sense.

This Serco list of 73 subsidiaries revealed a shocking correlation among; (1) Serco’s business interests, (2) the activities of the Senior Executive Service (SES), and (3) the monstrous “Internet of Things” patents filed by Richard C. Walker, Hewlett-Packard and Agilent Technologies.

EUREKA! SERCO IS TASKED BY THE SES TO MANAGE THE GLOBAL EXECUTION OF THE "WET-WARE" INTERNET OF THINGS 5G SATELLITE SYSTEM FOR THE DEEP STATE

In the Walker patents, human beings or people are labeled as mere “wet-ware.” “Wet works” is a spy euphemism for assassination. Tellingly, Obama’s chief of staff, John D. Podesta, used the term just days before Justice Antonin Scalia was found dead in Texas, after which Obama immediately began promoting SES gloabalist Merrick B. Garland to replace him at the Supreme Court.

The association of the spy tradecraft “wet” words is apparent. Walker does not even hide it, he states that his patents are intended to track and control everything and ever body in this world, even ino low orbit—The Internet of Things. It is apparent that neither Walker nor his SES handlers ever expected deplorables to read his work. We have.
5G IS INTENDED TO DRAMATICALLY ALTER LIFE ON THIS EARTH WITH THE UNTESTED POWER TO ALTER MIND AND BODY

The widely-promoted 5G wireless plan is very clearly designed to make Walker’s one-world government population control plan a reality. Elon Musk (SpaceX), Eric Schmidt (Google), OneWeb (Qualcomm, Amazon) have been working with the SES-controlled The Aerospace Corporation to put up a hundred satellites so far, with a planned 24,000 more in the 5G plan. 5G will enable the SES to eliminate people without harming plants and animals, so they think.

They’re wrong. Why do you think honey bee populations are collapsing? ANSWER: Electromagnetic smog. Something like eight billion different radio frequencies surround us at all times. Can you mitigate these harmful frequencies? Yes, but we digress.

Obama’s Net Neutrality pitchman FCC Chairman Tom Wheeler (2013-2017) told the National Press Club on Jun. 20, 2016 that the health effects of 5G will not be tested before roll out. Here are culture commentator David Icke’s observations on Wheeler’s 5G industry bullying.

Globalist eugenicist Ted Turner, CNN founder (now known as the C.I.A. News Network) was caught here on video calling for a 75% reduction in the world population (“I think 2 billion is about right right.”). According to the U.N. Agenda 21, the goal is to reduce populations in high tech rare earth mineral rich poor countries (many in Africa), and to reduce populations in the consuming nations to make more room for the genetically superior elites who will remain. (And we thought the world turned its back on such evil thinking after Adolf Hitler and WWII. No, we secretly imported those depraved Nazi eugenicists into the C.I.A. and IBM during operation Paperclip.)

It is no longer a secret that New World Order globalists are proponents of eugenics and world depopulation, as was Woodrow Wilson, Adolf Hitler and as are Hillary Clinton, Barack Obama and Planned Parenthood. Indeed, government data aggregator Deagel.com, Agenda 21 and Ted Turner’s Georgia Guidestones predict higher than 70% population reduction by 2025-30. It appears that Serco is being paid billions of dollars a year to get ready and make it happen.

Eugenicists want to dramatically reduce the world’s population—by stealth if necessary. Wars have always been good for population reduction. Bankers get a two-fer when they fund war. They make money and they depopulate. In Secretary of State Madeleine Albright’s world, 500,000 dead Iraq children was acceptable collateral damage. Poisons, toxins and altered genetics work too. For example, billionaire eugenics promoter Bill Gates recently suggested that medical treatment be withheld from the elderly and the savings given to education. With Gates its all in the family. In 2003, he told interviewer Bill Moyers that his father was the former head of Planned Parenthood. Gate’s mother also worked at IBM—another eugenics promoter who supported Hitler’s eugenics campaign of murder throughout WWII.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Dav is investigates Facebook’s Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008.
Serco companies are evidently working with the SES Deep State shadow government to implement 5G, and then manage the societal effects of their coming mass murder program. That’s why Serco runs FEMA camps, owns pathology companies, houses migrants, owns laundries, operates prisons, provides transport and rail, run hospitals and leisure centers, builds ships and space technology—to zap the populace with 5G like a mosquito zapper, then handle the clean up.

SERCO IS DIRECTED BY THE SES

Ever since Americans for Innovation (AFI) and American Intelligence Media (AIM) unearthed the Senior Executive Service (SES), the revelations of their nefarious activities have been pouring in.

See Obama hired them. Trump cannot fire them. So they say (over 500,000 views). See also The shadow government uses SES, Serco and OPIC as portals into horrific corruption.

Suddenly, the amorphous “Deep State” blob has SES names, faces and titles. See SES Plum Books. For example, almost all of the current players in Robert S. Mueller’s witch hunt are SES.

SERCO HISTORY

Among these SES corruptocrats is perhaps the largest British company in America that you have never heard of—Serco Group Plc. (“Serco”).

Serco began life in 1929 in the United Kingdom (UK) as RCA Photophone Limited. In 1956, they changed their name to RCA Great Britain Limited. In 1969, they changed names again to RCA Limited. In 1987 their name changed again to Serco Limited.

Today, Serco employs 47,000 people around the world with 8,000 in the United States alone. In 2005, Serco bought commercial, government and defense contractor Resource Consultants Inc. (RCI). Then in 2008, they bought SI International, Inc., an almost carbon copy of RCI. SI International, founded by Lockheed Martin and CACI, Inc. insiders, became wholly-owned US subsidiaries of Serco Inc. These acquisitions gave Serco a significant foothold in major U.S. and government services, including IT, engineering, strategy consulting, HR, business process management, professional services, military and intelligence.
Serco has become, in some cases, the single source provider of critical American infrastructure via 5,000 contracts totaling $6.2 billion (not including secret offshore accounts) including 477 contracts worth $41.3 million at the Senior Executive Services' Office of Personnel Management (OPM), four contracts worth $172 million at the Department of State (DOS), and 4,644 contracts worth $4.22 billion at the Department of Defense (DoD).

Three astonishing Serco contracts are: (1) a $95 million contract to run the U.S. Patent Office’s processing of new patent applications, (2) a $1.2 billion contract to run the Obamacare website, and (3) $610 million to run FEMA Region 92: Arizona, California, Nevada, Hawaii and the Pacific Islands. Here's the actual Serco FEMA contract Solicitation No. HSFE80-R-004-DHS.

In addition, already mentioned, but bears repeating, Serco manages air traffic control at 63 U.S. airports! You cannot make this up. Outrageous? Most certainly.

THE SES DEEP STATE SHADOW GOVERNMENT IS SILENTLY USING SERCO FOR THE TAKEDOWN OF OUR REPUBLIC

Obvious questions are: “What is going on? (a) Why isn’t Serco a household name in America? (b) Why are we outsourcing critical American infrastructure and ingenuity to the British Crown? (c) Why are our three branches of government and the media silent about this evident coup de tat of American sovereignty?

This British hegemony extends to the American judiciary and government.

British Crown Agents operate in America and have numerous U.S. government contracts too. Here is one example, a $23.7 million USAID contract with Serco. These are the very same Crown Agents whose taxes on tea sparked the Boston Tea Party. See Crown Agents Act of 1995. Why are we giving any money and contracts at all to the British Crown?

In addition, both British and American attorneys are given the title of “Esquire” despite the fact that Article I, Section 9, Clause 8 of the U.S. Constitution prohibits the federal...
government from granting titles of nobility due to the corrupting foreign influences.

The fact is, American lawyers, judges, law professors and students are organized into an elaborate British-styled union called The American Inns of Court with over 30,000 members. It is directly modeled on the British Inns of Court comprised of four “Temples” in and around the City of London and Westminster.

Tellingly, our American Inns of Court nowhere mention the U.S. Constitution in their charter documents, including their Vision Statement and Professional Creed. To whom do they pledge? To “the movement” and a generic “Rule of Law.”

When one considers that The City of London UK banking center is adjacent to the British Inns of Court temples, one begins to get the picture. The British Army may have withdrawn in 1776, but Britain’s bankers and lawyers dug in, and have never left. Now, a British company name Serco is being tapped by the SES to finish the job of bringing the American colonies to heel.

CONCLUSION: BRITAIN IS STILL RUNNING AMERICA.

Serco Group UK Plc’s most recent annual report (2016) appears to be a very odd assortment of companies ranging from outer space, military, air traffic control and satellites to nuclear weapons, parking, pathology, laundry and immigration housing.

The following slides summarize our findings and conclusion that Serco was selected by Deep State shadow government globalists to manage the implementation of the SES soft kill of our population.

Here’s a full list of Serco Group Plc’s subsidiaries taken directly from their 2016 annual financial report.

Conclusion: Serco (UK) is implementing the infrastructure for reducing world population by 75% using 5G and other technologies.

The rogue C.I.A., banks, Senior Executive Service (SES), Silicon Valley, education, judiciary, many politicians and MSM are assisting them, and being well paid to do so.

Fig. 10—Conclusion: The SES Deep State shadow government eugenics plan has assigned Serco the task of murdering 75% of the world population and then cleaning up the mess.

CALL TO ACTION:

God-fearing citizens of the United States and the world must call upon President Trump and loyal American leaders to defund the feeder systems used by these SES corruptocrats.

Ask President Trump to write the check to Leader Technologies for their Miller Act Notice so they can help implement new technologies that respect Constitutional privacy and property and help implement a truly Free Press.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks. Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook’s evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See Motion to Disclose Conflicts of Interest. Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam’s motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach’s behalf. See a full analysis of these...
MR. PRESIDENT: DEFUND THE CRIMINALS AND FUND THE MILLER ACT NOTICE

Mr. President, please pull the plug on these corruptocrats and their illegal funding streams. Since they are all based on fake values, no real services will be affected.

In addition, write the Miller Act Notice check to Leader Technologies for 18 years of unpaid use of their revolutionary social networking invention. This will generate new cash streams to free up our economy from the globalist stranglehold. This will also empower Leader Technologies and other actually creative people in America to fix our foundering ship of state. See Leader Technologies files trillion dollar bond lien on the U.S. Government.

One Miller Act Notice check starts the ball rolling, Mr. President.

In addition, Leader shareholders have proposed a win-win solution to the collapse of the American Free Press, as well a large new revenue source without raising taxes. Leader principals are willing to funnel these payments back into establishing a truly Free Press. See Leader proposes trillion dollar fed revenue while lowering taxes.

FOOTNOTE:

THE MAGIC OF LEADER’S INVENTION

Leader’s late 1990’s breakthrough in digital scalability gave these corruptocrats a platform to unify their communications globally—on a large scale not previously possible with IBM and Microsoft platforms. Leader’s founder Michael McKibben knew that because he had previously rebuilt AT&T’s email system AT&T AccessPlus 3.0. He knew exactly what IBM’s and Microsoft’s collaboration shortcomings were because AT&T Bell Labs engineers had told him after they had abandoned their failed alliance with IBM-Lotus called “Network Notes.” He knew they could not scale to the transaction volumes needed for the emerging Internet. Problem-solver McKibben very intentionally set out to create a...
whole new paradigm. See [The Weaponization of Social Media Should Concern Us All](https://americans4innovation.blogspot.com/2018/05/ses-serco-wet-ware-soft-kill-plan-is_16.html).

Once they had their “ah hah” moment in Dec. 1999, McKibben sought legal advice to protect the invention. He was eventually referred to the federal government’s top intellectual property lawyer, James P. Chandler, III. Little did McKibben know that Chandler was chief among the world’s corruptocrats. Chandler, who was already conspiring with the C.I.A., NSA, IBM, Microsoft, Cisco and Silicon Valley, knew that Leader’s invention would finally enable them to implement their dream to spy on everyone.

As wolves in sheep’s clothing, they offered the “social” services and email free of charge, replete with slippery legalese that gave them rights to all user data forever. This power has utterly corrupted them. Property and privacy were abolished in their pursuit of the seven deadly sins... in the name of “national security,” of course.

What they did not plan on was that Leader’s invention could not be controlled so precisely. Social users figured out ways to beat their censors and spread the truth using the very tools with which they are trying to enslave us.

Court of Appeals for the Federal Circuit, chief judge responsible for the misconduct of his judges and Clerk of Court in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. See analysis of Judge Rader’s undisclosed conflicts of interest in Leader v. Facebook. Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook’s evidence on appeal, which is a clear breach of constitutional due process.

Hillary Clinton’s presidential campaign has transferred nearly $150,000 of leftover campaign funds to a company she solely owns in the months following her election defeat, according to filings with the Federal Election Commission (FEC).

The Clinton campaign has paid $149,457 to ZFS Holdings LLC, since May 2017 for the purpose of “rent,” FEC filings show, but the campaign has left it unclear if it’s paying at, above or below fair market value for the office space it’s renting.

Also, the rent payments to ZFS were sent to the same address as Rorrie Gregorio, Clinton’s personal financial manager.

ZUCK IS RUNNING HOME TO MOMMY.

Facebook has partnered with the Atlantic Council, whose members include arch-globalists like Henry Kissinger and Dina Powell, to "protect free and fair elections around the world."

Facebook announced earlier today that the Atlantic Council will provide it with “real-time insights and updates on emerging threats and disinformation campaigns from around the world.”

In other words, Facebook will trust a globalist think-tank to distinguish “disinformation” from the spin and sloganeering that characterize virtually all democratic elections.

Facebook says it will also rely on monitoring teams from the Atlantic Council during elections:

Facebook will also use the Atlantic Council’s Digital Research Unit Monitoring Missions during elections and other highly sensitive moments. This will allow us to focus on a particular geographic area — monitoring for misinformation and foreign interference and also working to help educate citizens as well as civil society.

The thought that a globalist think tank might be biased against certain politicians around the world, and that this might affect their opinion of what counts as “misinformation,” does not seem to have occurred to Facebook.

WASHINGTON — Deputy attorney general Robert Rosenstein appointed special counsel Robert Mueller because “our friends all have stuff on him,” according to private messages exchanged by five federal government employees on the day Mueller was appointed in May 2017.

Intelligence insiders in Washington are exchanging the messages presented below because they believe they show an accurate presentation of what the House Intelligence Committee has long known: that an inter-agency coalition of a small number of operatives including a top official at John Brennan’s CIA conspired to leak negative stories and “memos” on General Michael Flynn. They ran an operation called “The Limey” to target Flynn and weaken his mental state.

Rod Rosenstein appointed Mueller because “he knows our friends have stuff on him.”

A group of prosecutors in California has called out New York billionaire George Soros for meddling in several local district attorney races taking place across the Golden State.

Michele Hanisee, President of the Los Angeles Association of Deputy District Attorneys, warned of Soros’ ongoing attempts “to buy the criminal justice system” in a pair of editorials recently posted on the organization’s website:

Now, California is in the crosshairs of Soros funded campaigns that target District Attorney races in San Diego, Alameda, Yolo and Sacramento counties.

District Attorney elections used to be lightly financed campaigns largely focusing on personal qualifications. Definitions of criminal conduct and the proper penalties for that conduct were left to be decided in the political process by legislation or initiative. ... Soros has seized on District Attorney races to bypass the legislative process, seeking to elect candidates who support Soros’ political agenda and social views. A staple of these candidates is the promise not to enforce laws with which they disagree.

True Pundit Staff. (May 17, 2018). California Prosecutors Call Out George Soros For Meddling In Local D.A. Races. True Pundit.

A group of prosecutors in California has called out New York billionaire George Soros for meddling in several local district attorney races taking place across the Golden State.

Michele Hanisee, President of the Los Angeles Association of Deputy District Attorneys, warned of Soros’ ongoing attempts “to buy the criminal justice system” in a pair of editorials recently posted on the organization’s website:

Days after Carter Page’s high-profile trip to Moscow in July 2016, the Trump campaign adviser had his first encounter with Stefan Halper, a University of Cambridge professor with CIA and Mil6 contacts.

The conversation seemed innocent enough, Page tells The Daily Caller News Foundation. He recalls nothing of substance being discussed other than Halper’s passing mention that he knew then-campaign chairman Paul Manafort. But the interaction was one of many that the pair would have over the next 14 months, through a period of time when Page was under the watchful eye of the U.S. government.

Their relationship included a number of in-person meetings, including at Halper’s farm in Virginia.

Page’s encounters with Halper were quite different from those that another Trump campaign adviser had during the campaign with the 73-year-old academic. As TheDCNF reported exclusively in March, Halper and George Papadopoulos met several times over a period of a few days in Sept. 2016. Several days earlier, Halper contacted and met with a third Trump campaign official. That official, who has requested anonymity, told TheDCNF that Halper expressed interest in helping the campaign.

Unlike with Page, Halper’s relationship with Papadopoulos was ostensibly more of a business arrangement than a fledgling friendship.

Halper, a veteran of the Nixon, Ford and Reagan administrations, unsolicitedly contacted Papadopoulos on Sept. 2 with an offer to fly the Trump associate to London for several nights to discuss a policy paper about energy issues in Turkey, Cyprus and Israel. Papadopoulos, who has worked on energy issues at various think tanks, accepted the offer and flew to London.

Papadopoulos and Halper met several times during that stay, having dinner one night at the Travellers Club, an Old London gentleman’s club frequented by international diplomats. They were accompanied by Halper’s assistant, a Turkish woman named Azra Turk. Sources familiar with Papadopoulos’s claims about his trip say Turk flirted with him during their encounters and later on in email exchanges.

Papadopoulos wrote the paper and delivered it in early October. He was paid $3,000 for the work. Days before making that payment, Halper had finalized a contract with the Office of Net Assessment***, the Pentagon’s think tank. Federal records show that Halper has been working. C. Facebook puppet masters:

81. President Barack Obama (appointed Leonard P. Stark to the judge’s seat in Delaware Federal District Court eight days after Stark’s court allowed Facebook to get away with jury and court manipulation of an on-sale bar verdict which was attained without a single piece of hard evidence; Barack and Michelle Obama were evidently protecting Facebook puppet masters:)

82. Lawrence “Larry” Summers (Harvard President who aided Zuckerberg’s light-speed rise to prominence with unprecedented Harvard Crimson coverage; Obama bailout chief; Clinton Treasury Secretary; World Bank Chief Economist; “Special Advisor” to Marc Andreessen in Instagram; co-creator of the current Russian robber baron economy; close 20-year relationships with protégés Sheryl Sandberg & Yuri Milner; aided in recommendations that created the Russian robber baron economy—and Yuri Milner/DST/Asmanov’s money used to purchase Facebook stock)

As the treasonous players in the Deep State try to explain their illegal spying on the Trump campaign (see headline below), we headed back into the mines to see what we could find out about Halper.

Corrupt Intelligence Apparatchik Leaks “Informant” Name (Stefan Halper) and Defensive Perspective To New York Times.

Miner

Contract proof that Stefan Halper was recruited by Andrew W. Marshall, Director of the Office of Net Assessment, Department of Defense.

Marshall is SES. The Office of Net Assessment is evidently a Deep State Saboteur.
