

Sir Geoffrey E. Pattie, the Queen's Privy Counselor for Defence & Propaganda, appears to direct U.S. intelligence, military, media and administration from London UK

Crown's "Golden Share" controls the Senior Executive Service (SES), Serco, Lockheed Martin, British Aerospace (BAE), Atomic Weapons Establishment (AWE) UK, Crown Agents, Rio Tinto, Urenco, OPIC, USAID, MCC, State Department, HHS, DOE, DoE, NSA, C.I.A., FBI, DOJ, DoD

Deployment of 24,000 5G killer satellites (SpaceX, OneWeb) for "population control" thru Silicon Valley, financed by Wall Street and City of LondonUK, is their evident top priority

Figure 1: Sir Geoffrey Pattie.

Thankfully, knowledge of the well-hidden Deep State shadow government is reaching the consciousness of average Americans. However, this rat hole is found to tunnel back to the British Crown. That's right, to Queen Elizabeth, and more specifically to her courtiers in the [Privy Council](#).

In American terms, privy counselors are something like the President's cabinet, but a huge difference is that a privy counselor is a life appointment. Notably, American judges and lawyers promote this British for-life Privy Council aristocratic mentality through The American Inns of Court.

What we are about to reveal is information that has been out there for decades, if not centuries, but which the Deep State propaganda machine has successfully marginalized as "conspiracy theory." We hope this article will help take the mask off this propaganda. We believe these people can no longer be tolerated. Their abject immorality is driving the world toward a truly dystopian future, right before our eyes.

Deep State control priorities: digital networks, media

The Deep State controls the mainstream media, and therefore "the narrative." Narratives are the stories they want you to believe, whether they are true or not. Effective propaganda is the art of getting the public to believe the lie as true." Pearl Harbor. Kennedy Assassination. Planned Parenthood. Gulf of Tonkin. Iraq. 9/11. Kosovo. Rwanda. Oklahoma City Bombing. 2008 Bank "Crisis." Libya. Zuckerberg. Fast and Furious. Las Vegas. Patriot Act. FISA. Net Neutrality. American Invents Act. U.S. Digital Service. San Bernadino. The list is long.

Most people think they cannot be fooled by mass propaganda, but think again. The Deep State has literally spent tens of billions of dollars in research to deploy mass mind control. If you doubt, study the [Senate Church Committee Hearings \(1976\)](#) where the C.I.A. MKUltra mind control programs were exposed. For example, the LSD drug epidemic in the 1960's was a MKUltra experiment gone bad.

The C.I.A. mind control programs are freely shared with British intelligence via Five Eyes (U.S., Canada, UK, Australia and New Zealand). Notice that all but the U.S. are British Commonwealth countries.

President John F. Kennedy so loathed the evils of the C.I.A. that he said he wanted "to splinter the C.I.A. in thousand pieces and scatter it to the winds." [The New York Times](#). He was assassinated months later. The first C.I.A. director Allen Dulles is suspected to have helped organize the murder to protect his C.I.A. secret society from being broken up. Dulles and his Warren Commission later pushed Lee Harvey Oswald as the lone sniper to the public. This propaganda likely hid the C.I.A.'s involvement.

Christopher Steele ultimately works for Sir Geoffrey E. Pattie, the Queen's privy counselor in charge of defense and propaganda

We realized that intelligence historians will say they have known about Britain's meddling in U.S. affairs for decades. But, the general public has not known this until perhaps the discovery of the involvement of British spy Christopher Steele in fabricating the juvenile "Pee Pee Gate dossier" to try and frame Donald Trump for alleged Russian collusion in the 2016 election.

This is what spies do, they lie. The real question is who in London approved Steele's involvement? Generally, spy organizations are hierarchical and quite bureaucratic. Agents must seek approval before taking action. While it appears that Steele was on loan to the FBI, C.I.A., NSA, Department of State and FusionGPS, his orders came from London (where Comey had worked as general counsel to HSBC bank before becoming FBI director).

This British connection suddenly got more focused when Brad Parscale was appointed head Trump 2020. MSM jumped on opposition research and breathlessly identified 270,000 Facebook accounts that Parscale had purchased during the campaign from a third party. This data was purchased from a data mining and research firm named Cambridge Analytica. Senator Ted Cruz's campaign had also purchased data from the firm. The fact is that Facebook openly sells their user demographic data to political campaigns. Never mind Facebook's immoral user license agreement that allows them to sell data your data, not to mention their illegal use of Leader Technologies' social networking invention.

In order not to get bogged down in the many moving parts of this story, suffice it to say that the Obama White and Hillary 2016 decided that their biggest threats to getting elected were the hack of the DNC, her private email server, and John Podesta's email hack that would reveal: (1) an undisclosed and highly illegal \$6 billion George Soros campaign contribution, (2) The Clinton Foundation billions of dollars in pay-to-play bribery, and (3) the Russian Uranium One give away of 20% of American uranium reserves, among other things.

Obama and Hillary hired longtime political hack Stefan Halper to organize their disinformation campaign. Halper is believed by *The New York Times* and *The Daily Caller* to be the name that the Department of Justice has redacted from the recent disclosure to the House Oversight Committee.

The Deep State appears to have been sloppy in trying to discredit Brad Parscale.

They shined a light on Cambridge Analytica.

Cambridge Analytica is a subsidiary front for SCL Group Limited (UK) where Stefan Halper is an advisor.

SCL is the new name for Strategic Communications Laboratories Limited founded on Oct. 27, 2004 by The Right Honorable Sir Geoffrey E. Pattie, member of the Queen's Council (to provide "defence systems and equipment"), then re-founded on Jul. 20, 2005 (to provide "provides data, analytics and strategy to governments and military organizations worldwide").

[Stefan Halper](#) is a longtime member of the SES and consults to multiple Trump haters including Andrew Wood, former British ambassador to Russia, and Sir Richard Dearlove, Steele's boss as head of British MI6—the British equivalent to the C.I.A.

Halper was under at least four contracts totaling \$1,058,161 (Details: [PDF](#) | [CSV](#)) from 2012-2017 paid by the Department of Defense Office of Net Assessment—Andrew W. Marshall. In short, Marshall has been the SES warlord inside the Department of Defense since at least 1980 (see [Plum Books listings](#)) who decides who lives and dies in war. Marshall is also the convener of the [Highlands Group](#) started under Clinton in 1995 to organize their military-industrial plans with selected private corporation like IBM, Microsoft, Lockheed Martin, NPR, CBS, ABC, Harvard, Stanford, Yale, Princeton, BAE, Cisco, Oracle, Goldman Sach, JPMorgan, Xerox, Wall Street and Silicon Valley venture capital.

As is typical for spies working to recruit targets, Halper lured the relative youngsters Carter Page and George Papadopoulos to London under the pretext of attending his [Cambridge Intelligence Seminar](#) that he sponsored with Sir Richard Dearlove--the British equivalent of Obama C.I.A. Directors John Brennan and Mike Morrell. Both Page and Papadopoulos were flattered and suckered with promises of money, business, political contacts, and dirt on Hillary Clinton.

The story gets tedious from here, but Halper was driving the bus. Their goals was to derail Donald Trump's candidacy and hide Hillary, Podesta and DNC sins from the public with a typical Alinsky attack: accuse your opponent of what you are doing.

Cambridge Intelligence Seminar and Cambridge Analytica are the offspring of SCL Group Limited founded by its chairman Sir Geoffrey E. Pattie.

Who works for whom? Sir Geoffrey E. Pattie is the British warlord equivalent of Andrew W. Marshall in the U.S.

SES careerist Andrew W. Marshall has spent his entire career buried in the bowels of the Department of Defense Office of Net Assessment.

In stark contrast, Sir Geoffrey E. Pattie, has played on the world stage as a Knight, Privy Counselor, advertising executive, lawyer, Member of Parliament, Minister of State, privatized British Telecom, Church of England Synod

member, chaired Marconi and General Electric UK (British Aerospace), teamed Serco and Lockheed with Atomic Weapons Establishment, Conservative Party vice chair, chaired the Intellectual Property Institute chair.

After all that, Pattie founded Strategic Communications Laboratories—twice.

On Jul. 20, 2005, Sir Pattie founded and chaired **Strategic Communications Laboratories Limited Co. No. 5514098** along with fellow directors John Michael Bottomley, Alexander James Ashburner Nix and Alexander W. Oakes. Here are their [Nov. 07, 2005](#) Articles of Association. They stated: "The company's principal activities involve the training, consultancy and supply of operations facilities in the field of strategic communications" also known as data mining.

However, on Oct. 27, 2004, ten months earlier, Bottomley, Nix and Oakes had formed a company also named **Strategic Communications Laboratories Limited Co. No. 5270852**, but their mission was: "provision of defence systems and equipment." (Defense is spelled Defence in Britain.)

In short, Sir Geoffrey's Strategic Communications Laboratories Limited (renamed SCL Group Limited on Aug. 19, 2015) is, behind:

Door #1 –military systems and equipment

Door #2 – data mining (i.e., election rigging through bribery, extortion, propaganda, sex scandals, mass deception, counter-propaganda and behavior change programs)

The company registrar allowed Door #2 to use Door #1's name on Jul. 20, 2005. Such confusion is normally not allowed. Except, apparently, for members of the Queen's Privy Council.

[SCL's](#) website says it is a "data mining" company. They boast an almost dystopian ability to control human thinking. They say that have "conducted behavioral change programs in over 60 countries" with a focus on "defense & social change." They say their "messaging strategies can be precisely constructed to maximize behavior change." They say they have "significant insight into human behavioral issues" and "non-invasive tools" whatever that means. No alien probes?

Human beings are mere Pavlov's dogs or trained rats to Sir Geoffrey

Frankly, Sir Geoffrey's SCL Group talks about human beings as if they are Pavlov's dogs or trained rats able to be manipulated and controlled with SCL's data analytics and "behavior tools."

Sir Geoffrey's pivotal role in British telecommunications and propaganda

Even a cursory review of Sir Geoffrey's biographical timelines tells you he is a man groomed to be Britain's warlord.

Sir Geoffrey is a lawyer who spent 33 years in the advertising business as the managing director of Collett Dickenson Pearce UK Advertising Limited in London. Collett was "Britain's most glamorous and influential advertising agency, generally regarded as one of the finest advertising agencies in the world during the 1970s." [Wikipedia](#).

After his advertising career (learning how to manipulate public opinion), he was a member of parliament for 23 years, then held various roles as a Undersecretary then Minister of State for Defence Procurement (1979-1987). In 1984 he was tasked with the privatization of British Telecom, the state telecommunications monopoly.

Sir Pattie: The Queen's counselor for Defence, Intelligence and Propaganda.

In 1987 he became a Privy Counsellor to the Queen, which is a lifetime appointment. The same year he was knighted, thus essentially becoming the Queen's counselor for Defence, Intelligence and Propaganda.

From 1990-1999, Sir Geoffrey became the chairman of Marconi Electronics which merged with GEC (General Electric Company). In 1999, the merged companies were renamed BAE Systems Plc (British Aerospace).

Trading on his Privy Council inside knowledge

Bringing Sir Geoffrey's resume to the SCL / Cambridge Analytica scandal, it is evident that in forming SCL and Terrington, Sir Geoffrey began buying, selling and trading on his relationships to line his pockets and position the Crown.

That brings us to the Crown's Golden Share in the globalist companies Sir Geoffrey was directing as effectively the Minister of Defence, Intelligence and Propaganda, including Serco, Lockheed Martin, British Aerospace (BAE), Atomic Weapons Establishment (AWE) UK, Crown Agents, Rio Tinto, Urenco, OPIC, USAID, MCC, U.S. State Department, U.S. HHS, U.S. DOE, U.S. DoE, U.S. NSA, U.S. C.I.A., U.S. FBI, U.S. DOJ, U.S. DoD.

With this backdrop, it finally starts to make sense why the U.S. is a member of the Five Eyes intelligence operation involving four British Commonwealth countries and the U.S. It appears that America is actually part of the British Commonwealth, and Sir Geoffrey, as Counsellor for Defence, Intelligence and Propaganda controls the U.S. on the Queen's Privy Council.

BAE Systems PLC – The Crown's Golden Share

BAE Systems is controlled by the British Crown through a "golden share." This share gives the crown governance control of the company. As a defense and intelligence company, Sir Geoffrey controls BAE.

Share capital

On 29th April, 1985 the authorised share capital was increased from £115,000,000 to £150,000,001 by the creation of 70,000,000 new ordinary shares of 50p each and a special share of £1. The special share may only be held by HM Government

The issue of new shares coincided with HM Government's sale of 48.43 per cent of the Company's existing issued ordinary share capital. The net proceeds will be used for the longer term development of the Company's business.

	Special share of £1	Ordinary shares of 50p	Nominal value £m
Authorised			
At 1st January, 1985	—	230,000,000	115.0
Creation of new shares	1	70,000,000	35.0
At 31st December, 1985	1	300,000,000	150.0

Figure 5: [British Aerospace Limited, Co. No. 1470151. \(Jun. 24, 1986\)](#). Group of companies made up to 31 Dec. 1985. Companies House, p. 63. ("On 29th April, 1985 the authorized share capital was increased from £115,000,000 to £150,000,001 by the creation of 70,000,000 new ordinary shares of 50p each and a special share of £1. The special share may only be held by HM Government ["Golden Share"].").

BAE Systems PLC – Is largely dependent on the U.S. for revenue

Lockheed Martin nurtures BAE for subcontracts in the U.S.

BAE's largest customer is the United States. The U.S. generates 42% of BAE's revenue, as compared to 21% from the UK.

Sales and revenue by customer location

	Sales		Revenue	
	2017 £m	2016 £m	2017 £m	2016 £m
UK	4,057	4,033	3,825	3,869
Rest of Europe ¹	2,073	2,174	1,457	1,645
US	7,698	6,920	7,695	6,920
Canada	100	92	100	92
Saudi Arabia	3,228	4,043	3,107	3,808

Rest of Asia and Pacific	503	369	314	167
Africa, and Central and South America	103	134	47	62
	19,626	19,020	18,322	17,790

1. Includes £0.9bn (2016 £1.0bn) generated under the Typhoon workshare agreement with Eurofighter Jagdflugzeug GmbH.

Figure 6: [BAE Systems Plc, Co. No. 1470151. \(Apr. 27, 2018\)](#). Group of companies made up to 31 December 2017, p. 151. Companies House.

BAE Systems has been awarded 48,327 prime contracts by the US federal government totaling \$88,740,037,495 ([*.csv file 67.5 MB](#)) and 1,542 subprime contracts to Lockheed Martin totaling \$3,486,361,737 ([*.csv 1.5MB](#)). This totals 49,869 contracts totaling \$92,226,399,232.

Britain's Atomic Weapons Establishment

Sir Geoffrey also manages AWE Management Limited for the Privy Council. AWE was formed in 1999, the same year that British Aerospace emerged from the merger of Marconi and GEC.

Sir Geoffrey issued three equal amounts of shares to Lockheed Martin, Serco Group and British Nuclear Fuels Plc

Lockheed Martin is 1/3 owner of AWE Management Limited

Serco Group is 1/3 owner of AWE

British Nuclear Fuels is a 1/3 owner of AWE

Therefore, this AWE relationship closely ties the interests of Lockheed Martin and Serco.

Sir Geoffrey: The tie that binds BAE, Lockheed Martin, Serco, AWE

The facts are unmistakable. The fortunes of Serco Group—a group closely aligned with the Senior Executive Service (SES) in the U.S. — are also tied to BAE and Lockheed Martin.

The Crown holds a golden share in BAE and AWE. Therefore, given the level of penetration of Serco into U.S. infrastructure

The Crown represents a clear and present danger to American sovereignty.

A military systems vendor gave its name to a data mining company, while continuing to sell military systems and equipment under a new name, Boldnote Limited, with both companies run by the same directors led by Sir Geoffrey Pattie.

Sir Geoffrey's history is well known: Parliament, Ministry of Defence, MP, Marconi, General Electric Company, BAE Systems, Leica, Cambridge Instrument Company.

He was even introduced to Boris Johnson, a leading British politician and Trump hater. Papadopoulos on the other hand was paid \$3,000 to produce a report. That activity took him to Italy where he met a Knights of Malta agent Joseph Mifsud who promised him dirt on Hillary.

Successfully enticed, Page and Papadopoulos were sent back to America with instructions to infiltrate the Trump campaign. Page talked somebody in the campaign into letting him write a report, which he did. Afterward, he began telling people he was a campaign adviser, which he was not. His false assertion of an association with the campaign triggered the campaign to file a restraining order to stop the false statements.

has been exposed by The Daily came out that redacted document refused to show to the House Oversight committee. Speculation began about who that was. Someone in the Wall Street Journal exposed the importance of the redacted name. Daily Caller NYT and MSM started speculated it was Stefan Halper.

Halper consorts with SCL group, parent. Actually puts on seminars by Cambridge Intell seminars.

Associates

Sir Richard Dearlove, MI6, prior boss of Christopher Steele

Andrew Woode Steele informed. British ambassador to

data analytics used by the Trump campaign.

tried to accuse Donald Trump of rigging the election through Facebook using a data mining firm called Cambridge Analytica.

Almost humorously,

A British company named Strategic Communications Laboratories Limited, later renamed SCL Group Limited has recently come into the news as the parent company to Cambridge Analytica that is embroiled in the Facebook election rigging scandal involving SES member [Stefan Halper](#)—an FBI informant planted inside the Trump campaign.

[SCL's](#) website says it is a “data mining” company that boasts an almost dystopian ability to control human thinking. They say that have “conducted behavioral change programs in over 60 countries” with a focus on “defense & social change.” They say their “messaging strategies can be precisely constructed to maximize behavior change.” Their braggadocio says they have “significant insight into human behavioral issues” and “non-invasive tools” whatever that means. No alien probes? They talk about human beings as if they are dogs or rats able to be manipulated with their “behavior tools.”

SCL was founded by The Right Honorable Sir Geoffrey E. Pattie. Pattie’s resume describes experience in advertising, law, telecommunications, defense and politics. Sir Pattie led the privatization of British Telecom in 1984. He has served as the Minister of State for Defence Procurement. He was chairman of Marconi Electronics (1990-1999) that sold to General Electric and then to British Aerospace. In 2004, he started a company to sell military equipment which then created a parallel existence as the infamous data mining company Cambridge Analytica whose agents spied on the Trump campaign.

On the surface, Sir Pattie is British elitism at its best—all the right schools, all the right positions. However, AFI researchers have uncovered potential duplicity on a grand scale.

Breaking down SCL Group Limited

On Jul. 20, 2005, Sir Pattie founded and chaired **Strategic Communications Laboratories Limited Co. No. 5514098** along with fellow directors John Michael Bottomley, Alexander James Ashburner Nix and Alexander W. Oakes. Here are their [Nov. 07, 2005](#) Articles of Association. They stated “**The company's principal activities involve the training, consultancy and supply of operations facilities in the field of strategic communications**” also known as data mining.

Curiously, ten months earlier, on Oct. 27, 2004, Bottomley, Nix and Oakes had formed a company also named **Strategic Communications Laboratories Limited Co. No. 5270852**, but their mission was “**provision of defence systems and equipment.**” (Defense is spelled Defence in Britain.)

In short, Sir Geoffrey's Strategic Communications Laboratories Limited is, behind:

Door #1 – sale of military systems and equipment (for profit)

Door #2 – sale of data mining (to rig elections)

The company registrar allowed Door #2 to use Door #1's name on Jul. 20, 2005. Such confusion is normally not allowed. A military systems vendor gave its name to a data mining company, while continuing to sell military systems and equipment under a new name, Boldnote Limited, with both companies run by the same directors led by Sir Geoffrey Pattie.

Sir Geoffrey's history is well known: Parliament, Ministry of Defence, MP, Marconi, General Electric Company, BAE Systems, Leica, Cambridge Instrument Company.

Researchers uncovered relationships that Pattie has hidden from his public biographies, notably Leica, Boldnote Limited and Cambridge Instrument Company. These companies are involved in geospatial engineering, satellite surveillance and pathology—all key technologies crucial to population control for the 5G Internet of Things.

Sir Geoffrey Pattie, Director of Cambridge Analytica parent SCL Group Limited, tied to SES, Serco, Lockheed, BAE coming 5G satellite nightmare & real interference in American elections

1. Includes £0.9bn (2016 £1.0bn) generated under the Typhoon workshare agreement with Eurofighter Jagdflugzeug GmbH.

Figure 10: [BAE Systems Plc, Co. No. 1470151. \(Apr. 27, 2018\)](#). Group of companies made up to 31 December 2017, p. 151. Companies House.

BAE Systems has been awarded 48,327 prime contracts by the US federal government totaling \$88,740,037,495 ([*.csv file 67.5 MB](#)) and 1,542 subprime contracts to Lockheed Martin totaling \$3,486,361,737 ([*.csv 1.5MB](#)). This totals 49,869 contracts totaling \$92,226,399,232.

Lockheed Martin's BAE for subcontracts in the U.S.

Lockheed Martin is 1/3 owner of AWE Management Limited

Serco Group is 1/3 owner of AWE

British Nuclear Fuels is a 1/3 owner of AWE

Therefore, this AWE relationship closely ties the interests of Lockheed Martin and Serco.

Sir Geoffrey: The tie that binds BAE, Lockheed Martin, Serco, AWE

The facts are unmistakable. The fortunes of Serco Group—a group closely aligned with the Senior Executive Service (SES) in the U.S. – are also tied to BAE and Lockheed Martin.

The Crown holds a golden share in BAE and AWE. Therefore, given the level of penetration of Serco into U.S. infrastructure

The Crown represents a clear and present danger to American sovereignty.

LOCKHEED MARTIN UK HOLDINGS LIMITED

Figure 11: [BAE Systems Plc, Co. No. 1470151. \(Apr. 27, 2018\)](#). Group of companies made up to 31 December 2017, p. 151. Companies House.

In classical Deep State misdirection, another company named “Boldnote Limited” had used the name “Strategic Communications Laboratories Limited” until the name was changed to Boldnote Limited on Jul. 20, 2005—the *very same day* that “Strategic Communications Laboratories Limited” was reformed. This use of the same name by two different companies is evidently designed to confuse searches and discourage researchers.

One of the first named directors of SCL Group Limited is Sir Geoffrey Pattie.

“Consultancy Agreements” means the amended consultancy agreements to be entered into on the Adoption Date between the Company and each of Peter Varnish, John Tollhurst and Sir Geoffrey Pattie pursuant to which Peter Varnish has been granted options over 2,386 Ordinary Shares, John Tollhurst has been granted options over 1,590 Ordinary Shares and Sir Geoffrey Pattie has been granted options over 1,590 Ordinary shares;

Sir Geoffrey Pattie, Director of Cambridge Analytica parent SCL Group Limited, tied to SES, Serco, Lockheed, BAE coming 5G satellite nightmare & real interference in American elections

Here are a few of American intelligence's more famous lies that the public embraced. Pearl Harbor. Gulf of Tonkin. The lone shooter Kennedy assassination. Building 7's collapse on its footprint. The Pentagon was struck by an airliner. Timothy McVay was not a CIA asset. Las Vegas was a terror attack. Libya.

If you doubt, study the. are masters of propagandaThe attack on Pearl Harbor was allowed as a media event to cajole a reluctant U.S. into World War II. The Gulf of Tonkin incident that escalated the Vietnam War was likely triggered by false intelligence from war hawk Robert McNamara. Recent releases confirm that President Kennedy was probably assassinated by the C.I.A. from at least two sniper locations, contradicting the false intelligence published by Allen Dulles, the first C.I.A. director, and the Warren Commission. Kennedy had already said that

a staged media event that likely never happened.excuse to go to war with North Vietnam was a staged media event.
