

## Group Companies

### AXESS Networks Solutions

AXESS Networks Solutions provides bespoke satellite-based and terrestrial communications solutions to industrial, corporate, utility, infrastructure and government/NGO customers globally.

[Read More \(\)](#) ▲

Applications typically involve mission-critical communications networks in environments that are geographically remote, mobile (maritime and aviation) and/or where high data reliability and security are essential to customer operations.

**Technical Services:** Communications and networking

**Headquarters:** Barcelona, Spain

**Target Market:** Global

**Aksiom Group Company:** Since May 2018

Aksiom partnered in May 2018 with CETel GmbH, a leading satellite services company operating throughout the EMEA region, as a platform for expansion in the sector. In August 2019, with further investment from Aksiom, CETel merged with Axesat S.A, a leading satellite services provider in Latin and South America, forming AXESS to serve customers

globally.

- **May 2018** – Aksiom acquires a majority interest in CETel GmbH (based near Bonn Germany) in partnership with one of its founders.
- **June 2019** – CETel acquires Cobbett Hill Earth Station in the United Kingdom
- **September 2019** – With further investment from Aksiom, AXESS Networks Solutions is formed through the combination of CETel and Axesat S.A., a leading provider of satellite services in Latin and South America
