With this left of left pedigree, why did President Trump hire him? Maybe he didn't. Maybe Obama's 10,000 stay-behind Senior Executive Service (SES) Army did.

Sergey Brin & Larry Page, Class of 2000
Founders of Google

It was Larry Page who first had the idea of analyzing Internet links to rate their relevance to a given information search. Initially, Page was only interested in writing an entertaining dissertation, but he soon realized his idea had far greater potential. With his classmate Sergey Brin, he presented his work to acclaim at the World Wide Web conference in 1998. Within a year they had raised over \$30 million to start a company, Google Inc., providing a free Web search service that could return an ordered list of results in a fraction of a second. The simple white page with the multi-colored logo was an immediate hit with Web surfers around the world. The website generates enormous revenue by providing advertising space linked by content to the results of a given search. When Page took the company public in 2004, he and Sergey Brin became multi-billionaires overnight. That same year, they joined the select company of Academy of Achievement student delegates who have returned to the International Achievement Summit as honorees of the Academy. Today, Google is the most-used Web search service in the world, conducting more than a billion searches a day, in over 100 languages, and has given the English language a new verb: "to Google." Larry Page and Sergey Brin have transformed the way the world accesses and uses information.

The Honorable Pete Buttigieg, Class of 2008
United States Secretary of Transportation

Pete Buttigieg became mayor of his hometown, the City of South Bend, Indiana, in January 2012. Elected at the age of 29, he was the youngest mayor of an American city with over 100,000 residents. His responsibilities included overseeing a city workforce of more than 1,000 employees and an annual budget topping \$300 million. In 2013, he was named national Mayor of the Year by GovFresh.com, sharing the award with New York City Mayor Michael Bloomberg. He was President of the Indiana Urban Mayors Caucus, and has served on the boards of the Indiana Association of Cities and Towns and the Truman National Security Project. The Washington Post called him "the most interesting mayor you've never heard of." Mayor Buttigieg took a leave of absence to serve in Afghanistan during a seven-month deployment in 2014. As a lieutenant in the U.S. Navy Reserve, he earned the Joint Service Commendation Medal for his counterterrorism work. Following his return from Afghanistan, he sought a second term as Mayor of South Bend, and in November 2015, he was re-elected with over 80 percent of the vote. As a Rhodes Scholar, he studied philosophy, politics, and economics at Pembroke College, Oxford. A 2004 graduate of Harvard University, he earned a bachelor's degree in American history and literature, and a citation in Arabic. In 2000, while still in high school, he won the nationwide J.F.K. Profile in Courage Essay Contest; in 2015, he received a J.F.K. New Frontier Award, given annually to two young Americans who serve as models for modern public service in the spirit of John F. Kennedy. An unsuccessful effort to win the chairmanship of the Democratic Party raised his profile in the national media and prompted talk of a possible run for higher office. In 2019, he announced his candidacy for President of the United States and quickly posted impressive fundraising and polling numbers. He emerged from the 2020 Iowa caucuses leading his fellow Democrats in the delegate count, and scored a strong second-place finish in the New Hampshire primary before withdrawing from the race in March of that year. The newly elected President Joseph Biden named Buttigieg to his cabinet as Secretary of Transportation, an appointment confirmed by the Senate in February 2021.

The Honorable **James Joshua Edelman**, Class of 2000
Justice, High Court of Australia

Justice Edelman attended the 2000 International Achievement Summit in London while studying as a **Rhodes Scholar** at Oxford. He completed his doctorate in law the following year and returned to his home state, Western Australia, to practice law. In 2005, he took up a position as a Fellow and Tutor in Law at Keble College and lecturer at Oxford. He practiced law full-time in England while teaching, becoming the youngest law professor at Oxford. He has written and edited six books on damages, interest awards, equity, unjust enrichment, and torts. In 2011, he returned to Western Australia to accept a commission as a Justice of the **Supreme Court of Western Australia**. In 2015, he was appointed to a **Federal Court**, and in the closing weeks of 2016 was appointed to the highest court in the Australian judicial system. At age 42, he is the youngest judge to be called to the High Court since 1930. He had previously appeared before the High Court on three occasions, winning the release of men wrongly convicted of murder.

Eric S. Lander, Ph.D., Class of 1974
Founding Director, Broad Institute

From an early age, Eric Lander made a name for himself as a mathematical prodigy, winning the **Westinghouse Science Talent Search**. Class valedictorian at Princeton, **Rhodes Scholar** at Oxford, he was poised for a career as a theoretical mathematician. Yet he was dissatisfied. He wanted his research to serve a more immediate human purpose. He embarked on a career teaching managerial economics at **Harvard Business School**; although he loved the teaching, he found the research unsatisfying. In the midst of a promising career, with a growing family to support, he dropped everything and made a mid-life course correction. Although he was already a professor in the business school, he undertook basic studies in biology. He soon found a new application of his mathematical prowess in the emerging field of genomics, the study of all the genes in a given organism, and their function in sickness and in health. He played a leading role in the **Human Genome Project**, and is the first listed author on the article describing the complete human genome published in *Nature* in 2001. Today, he is Founding Director of the **Broad Institute**, a joint project of **Harvard, MIT and the Whitehead Institute**, where he is leading a revolution in our understanding of the nature of life — and the causes and treatment of disease.

Beth Shapiro, Ph.D., Class of 2000

Professor of Ecology and Evolutionary Biology, University of California, Santa Cruz

Beth Shapiro is an evolutionary molecular biologist best known for her studies of ancient DNA. From her base at the University of California, Santa Cruz, she has traveled to Kenya, Canada, Alaska and Siberia collecting samples of the bones, teeth, skulls and tusks of creatures long extinct — mammoths, mastodons and saber-toothed cats. In the Yukon, she has uncovered remains buried under layers of volcanic ash for 130,000 years. By extracting and comparing DNA samples from remains of different eras, she has traced the evolution, diversification and extinction of entire species. Her research has challenged long-held beliefs about the extinction of the giant mammals and diversity loss among species such as the great North American bison. Dr. Shapiro earned her bachelor's and master's degrees at the University of Georgia and her doctorate in zoology as a Rhodes Scholar at Oxford. She received a University Research Fellowship from the Royal Society in 2006, a MacArthur "genius grant" in 2009, and was named a National Geographic Emerging Explorer in 2010. Her recent research publications have included studies of prehistoric human migration in the Middle East and North Africa, the kinship of brown bears and polar bears in the last Ice Age, and the molecular epidemiology of the AIDS virus.

PARTICULARLY ALARMING ARE AWARDS GIVEN OUT IN 2017 TO JUSTICES NEIL GORSUCH AND ANTHONY KENNEDY:

<https://achievement.org/summit/2017/>

Press Release. (Oct. 10, 2017). 52nd International Academy of Achievement, London and Oxfordshire, keynote speaker **Neil Gorsuch**. U.S./UK Pilgrims Society.

U.S. Supreme Court justice Neil Gorsuch's wife, Louise: You can see it written all over her face. She has caved to the Pilgrims Society flattery strategy, hook, line and sinker.

Remember, this is their strategy regarding American wives, from Lillian Scott Troy in 1912:

Lillian Scott Troy (Feb. 17, 24, 1912):

1. Power of the President of the United States to be increased so as to gradually diminish the powers of Congress.
2. Supreme Court of the United States to be revised so as to embrace only judges agreeable to absorption by Great Britain, and uniformly hostile to the United States Senate.
3. Precedents must be established by said Court against the United States Senate in rulings, decisions, etc., (specially prepared).

Lillian Scott Troy. (Feb. 17, 24, 1912). The 24-step Pilgrims Society Corporatist Imperial Federation Strategy to Return America to British Rule, with preamble by Hon. Dr. Lt. Commander Jacob. Thorkelson, MN, 1940. The San Francisco Leader, GPO, George Mason.

10. The **wives and daughters** of men controlling great **wealth and influence in America** must be **given preference** at these "courts." They must be **selected carefully** from every State and Territory in the United States. Thus a **new "society,"** through royal favor, must **quietly and expeditiously be created.**
11. **Honors must be conferred on the husbands of women** thus given preference in the **social circles of America,** and a rank or position determined by **judiciously distributed decorations.**
12. **Honor must be conferred on all** American officers favoring **"peace."**
13. The women of men showing hostility to "peace" must be **socially ostracized.**
14. When a strong **phalanx of influential people in favor of "peace"** has been created, and **the exchange of British and American naval officers** accomplished, and as many as possible of the United States troops transported to India, the **King and Queen of England** may then visit Washington.

Lillian Scott Troy. (Feb. 17, 24, 1912). The 24-step Pilgrims Society Corporatist Imperial Federation Strategy to Return America to British Rule, with preamble by Hon. Dr. Lt. Commander Jacob. Thorkelson, MN, 1940. The San Francisco Leader, GPO, George Mason.

Justice Neil M. Gorsuch and his wife, Louise, at dinner in the Long Library at Blenheim Palace. The Long Library is thought to be the second longest room in any house in England. The library is home to more than 10,000 books collected by the 9th Duke of Marlborough. As well as portraits of past monarchs, the room houses a number of portraits of members of the Marlborough family. Above the bookcases are portraits of Queen Anne, King William III and the 1st Duke, together with those of three of the Duke's daughters: Elizabeth, Countess of Bridgewater; Anne, Countess of Sunderland; and Mary, Duchess of Montagu. At the end of the elegant library, the magnificent Willis Organ was installed by the Duke and Duchess in 1891. It bears the inscription: "In memory of happy days and as a tribute to this glorious home we leave thy voice to speak within these walls in years to come when ours are still."

Good hunting. (Note the Supreme Court Justices who have been wined and dined). Then, remember the words of warning on Feb. 17 & 24, 1912 about the Pilgrims Society agenda for the British Empire to retake America:

Lillian Scott Troy (Feb. 17, 24, 1912):

1. Power of the President of the United States to be increased so as to gradually diminish the powers of Congress.
2. Supreme Court of the United States to be revised so as to embrace only judges agreeable to absorption by Great Britain, and uniformly hostile to the United States Senate.
3. Precedents must be established by said Court against the United States Senate in rulings, decisions, etc., (specially prepared).

Lillian Scott Troy. (Feb. 17, 24, 1912). The 24-step Pilgrims Society Corporatist Imperial Federation Strategy to Return America to British Rule, with preamble by Hon. Dr. Lt. Commander Jacob. Thorkelson, MN, 1940. The San Francisco Leader, GPO, George Mason.

10. The wives and daughters of men controlling great wealth and influence in America must be given preference at these "courts." They must be selected carefully from every State and Territory in the United States. Thus a new "society," through royal favor, must quietly and expeditiously be created.
11. Honors must be conferred on the husbands of women thus given preference in the social circles of America, and a rank or position determined by judiciously distributed decorations.
12. Honor must be conferred on all American officers favoring "peace."
13. The women of men showing hostility to "peace" must be socially ostracized.
14. When a strong phalanx of influential people in favor of "peace" has been created, and the exchange of British and American naval officers accomplished, and as many as possible of the United States troops transported to India, the King and Queen of England may then visit Washington.

THESE PILGRIMS' RECRUIT-SYCOPHANT-INFLUENTIAL-AMERICANS STRATEGIES ARE CERTAINLY IN FULL SAIL IN THE "AMERICAN ACADEMY OF ACHIEVEMENT."

THE 24-STEP PILGRIMS SOCIETY CORPORATIST IMPERIAL FEDERATION STRATEGY TO RETURN AMERICA TO BRITISH RULE

Know them by their works!

What an utterly disgusting despicable group of people and their accomplishments.

These are a seriously f'ed up people. Can you see them reveling in their riches.

Bragging on their destruction of everything good and wholesome. I really don't think I'd have ever felt so much disgust for anyone like this post made me feel!

Greetings:

That photo of Gorsuch and his 'wife': YUCK!

I am beyond disgusted with them. Always have with the ass hat pedophile psychopathic so-called royals And the ass licking crowd around them. No wonder hat these subhumans want to cling to life and want their human 'suits' to live for ever. Manly P Hall. wrote a chapter in the Teachings of All Ages about how these people have sold their soul. I believe it. And for what? for power and shiny objects on this material plane?
