Ms. Barbara S. Fredericks
Assistant General Counsel for Administration U. S. Department of Commerce
1401 Constitution Avenue, N.W.
Washington, D.C. 20230

Dear Ms. Fredericks:

The purpose of this letter is to describe the steps that I will take to avoid any actual or apparent conflict of interest in the event that I am confirmed for and appointed to the position of General Counsel for the U.S. Department of Commerce.

As required by 18 U.S.C. § 208(a), I will not participate personally and substantially in any particular matter that has a direct and predictable effect on my financial interests or those of any person whose interests are imputed to me, unless I first obtain a written waiver, pursuant to 18 U.S.C. § 208(b)(1), or qualify for a regulatory exemption, pursuant to 18 U.S.C. § 208(b)(2). I understand that the interests of the following persons are imputed to me; any spouse or minor child of mine; any general partner of a partnership in which I am a limited or general partner; any organization in which I serve as officer, director, trustee, general partner or employee; and any person or organization with which I am negotiating or have an arrangement concerning prospective employment.

I will resign from my position as a member of Mintz Levin Colm Fetris Glovsky and Popeo P.C. (Mintz Levin) on or before confirmation and prior to appointment. Consistent with other members of that firm and the firm's compensation scheme for members, I have received a partnership distribution in the form of a bonus for the fiscal year ending March 28, 2009 (fiscal year 2009) on or about March 28, 2009. A portion of that distribution was held back as a loan to the law firm. My position, as well as that of all partners, is expected to be repaid in the ordinary course of business at the end of December 2009. I will not participate personally and substantially in any particular matter that has a direct and predictable effect on the ability or willingness of Mintz Levin to repay my loan, unless I first obtain a written waiver, pursuant to 18 U.S.C. § 208(b)(1).

As of the beginning of Mintz Levin's new fiscal year on March 29, 2009, I began work for the firm on as a contract partner, for which I will receive a morthly fee equal to my monthly draw or salary for fiscal year 2009, with no distribution or bonus. Such payment agrangement is consistent with established practice of the law firm at the outset of a new fiscal year prior to setting compensation for the current year. Compensation for any partial month during which I end my contractual relationship with the law firm will be prorated to the date of departure.

Ms. Barbara S. Fredericks Page 2 April 17, 2009

Through my affiliation with Mintz Levin, I have an interest in certain shares of stock held by Mintz Levin Investments, LLC in privately-held companies. On my departure from the firm, Mintz Levin has the option to purchase my interest in these shares at the current book value or to hold these securities for my benefit. So that I may divest myself of any continuing interest in Mintz Levin Investments, LLC or its underlying holdings, the firm will exercise its option to purchase my interest within 90 days of my confirmation. Until the firm purchases my interest, I will not participate personally and substantially in any particular matter that has a direct and predictable effect on the financial interests of ML Investments, including its underlying holdings, unless I first obtain a written waiver, pursuant to 18 U.S.C. § 208(b)(1), or qualify for a regulatory exemption, pursuant to 18 U.S.C. § 208(b)(2).

i

Under the Mintz Leven Cohn Ferris Glovsky & Popeo, P.C. Savings Plan for Members and Staff 401(k) Plan managed by Fidelity Investments and administered by Mintz Levin, I have the option to leave contributions in the plan or to withdraw. If I leave my contributions in the plan, no further contributions will be made by Mintz Levin during my Government service, except for the 2009 fiscal year-end contribution, which is expected to be made in the July-August 2009 time frame, based on a pre-determined formula. Such distributions will similarly be made for all participants in the plan. I will not participate personally and substantially in any particular matter that has a direct and predictable effect on the ability or willingness of Mintz Levin to provide the distributions to which I am entitled, unless I first obtain a written waiver, pursuant to 18 U.S.C. § 208(b)(1).

I have been advised that the duties of the position of the General Counsel are not likely to involve particular matters affecting the financial interests of Detroit Edison (in which my spouse has a remainder interest held in a trust), or a condominium in Farmington Hills, Michigan (also held in the aforementioned trust), or Les Essants Property Ltd. (consisting of real estate in Saint-Briac, France). Therefore, the Department of Commerce ethics officials have determined that it is not necessary at this time for me to divest my interests in these entities in order to appropriately perform the duties of my position because the likelihood that my duties will involve such matters is remote. Accordingly, I and my spouse will retain these holdings and I will not participate personally and substantially in any particular matter that has a direct and predictable effect on the financial interests of any of these entities, unless I first obtain a written waiver, pursuant to 18 U.S.C. § 208(b)(1), or qualify for a regulatory exemption, pursuant to 18 U.S.C. § 208(b)(2).

With respect to my other assets in which I have a financial interest, disqualification is not presently required because of the applicability of a regulatory exemption under 18 U.S.C. § 208(b)(2). I will monitor the value of those interests and if the aggregate value of interests affected by a particular matter increases and exceeds the de minimis threshold, I will not participate in the particular matter, unless I first obtain a written waiver under 18 U.S.C. § 208(b)(1).

Ms. Barbara S. Fredericks Page 3 April 17, 2009

Upon confirmation, I will resign from the following positions:

Boston Bar Association, Civil Rights & Civil Liberties Section Steering Committee, Member

Citizen Schools Boston, Advisory Board Member

Federal Communications Bar Association, Steering Committee, Member

Griselda Forbes-Martineau Trust, Successor Trustee

National Jewish Democratic Council, Board Member, Executive Committee, and Vice.

New England Nordic Skiing Association, Board Member.

For a period of one year after my resignation, I will not participate personally and substantially in any particular matter involving specific parties in which any of the following entities is a party or represents a party, unless I am first authorized to participate, pursuant to 5 C.F.R. § 2635.502(d):

Griselda Forbes-Martineau Trust National Jewish Democratic Council Mintz Levin New England Nordic Skiing Association.

In addition, I will not participate personally and substantially in any particular matter involving specific parties in which a former client of mine is a party or represents a party, for a period of one year after I last provided service to that client, unless I am first authorized to participate, pursuant to 5 C.F.R. § 2635.502(d).

My spouse is currently a partner with the law firm of Dwyer & Collora, LLP. I will not participate personally and substantially in any particular matter that has a direct and predictable effect on the financial interests of that firm, unless I first obtain a written waiver, pursuant to 18 U.S.C. § 208(b)(1). I also will not participate personally and substantially in any particular matter involving specific parties in which I know that a client of my spouse is a party or represents a party, unless I have been authorized pursuant to 5 C.F.R. § 2635.502(d). In addition, for the duration of my appointment to the position of General Counsel, my spouse has agreed not to communicate with the Department of Commerce on behalf of the firm or any of her clients.

Finally, I understand that as an appointed I am required to sign the Ethics Pledge (Exec. Order No. 13490) and that I will be bound by the requirements and restrictions therein in addition to the commitments I have made in this and any other ethics agreement.

#### Fidelity Invests \$74 Million in Facebook & \$82 Million in Zynga

<u>Gregory Gomer</u> Jun 2nd 2011 at 2:31 pm <u>Facebook</u>, <u>Zynga</u>, <u>Fidelity</u>

According to the <u>Boston Globe this morning</u>, Fidelity Investments made a few large investments in social media during the first quarter of this year. It is reported that William Danoff, the manager of Fidelity's Contrafund - it's biggest and very popular fund - has invested \$74 million in Facebook Class B common shares and \$82 million in Zynga

+1

convertible preferred stock. Danoff has managed the \$80 billion Fidelity Contrafund since September 1990.

In the <u>article</u>, "Vincent Loporchio, a spokesman for Fidelity, said more than 30 of its funds held Facebook shares as of April 30. No fund had more than 0.15 percent of its assets invested in Facebook, said Loporchio, who declined to comment further."

This is certainly no surprise as large funds have been dying to get their hands on the red hot shares of these social media companies, but it does mark a scary trend.

These secondary markets are not regulated at all by the SEC, and most funds have avoided these privately traded stocks for years. These markets can be extremely volatile and guess what is going to the be first to crash, once this said "bubble" we are in either pops or deflates?

I certainly like this move, historically these markets have proven to be extremely valuable leading up to the company's IPO's but again can be very risky. The fund also has a \$5.3 billion stake in Apple Inc. and \$3.8 billion in Google Inc.

Having that said, being a Fidelity alum I have money in the Contrafund and dig the investment.

## Fidelity's Danoff Bets on Facebook, Zynga

By Miles Weiss - Jun 1, 2011

William Danoff, the manager of Fidelity Investment's largest stock fund, established a toehold in the social-networking industry during the first quarter by acquiring shares of <u>Facebook</u> Inc. and Zynga Inc.

Danoff's Fidelity Contrafund invested \$74 million in Facebook Class B common shares and \$82 million in Zynga convertible preferred stock, according to a quarterly report the fund filed yesterday with the U.S. Securities and Exchange Commission. Danoff, 50, has managed the \$80 billion Fidelity Contrafund since September 1990.

Fidelity and rivals T. Rowe Price Group Inc. and Capital Group Cos. are snapping up stakes in social-networking companies before they go public, after the mutual-fund industry avoided privately traded stocks for years. Boston-based Fidelity and Baltimore's T. Rowe Price may recognize an opportunity as a growing percentage of clients access their fund holdings through Facebook, said <u>Geoff Bobroff</u>, a fund consultant in <u>East Greenwich</u>, <u>Rhode Island</u>.

"We are seeing more of these fund companies embrace and adopt social media as something they are providing to their shareholders," Bobroff said today in an interview. "It's somewhat logical they would think there is value."

<u>Vincent Loporchio</u>, a spokesman for <u>Fidelity</u>, said more than 30 of its funds held <u>Facebook</u> shares as of April 30. No fund had more than 0.15 percent of its assets invested in Facebook, according to Loporchio, who declined to comment further.

#### T. Rowe, American

T. Rowe Price reported in April that 19 of its mutual funds invested at least \$191 million during the first quarter in Facebook, the <u>Palo Alto</u>, California-based owner of the world's most popular social-networking website. American Funds Growth Fund of America, a \$168 billion stock fund overseen by Los Angeles-based Capital Group, invested \$66.5 million on Feb. 18 in Zynga, the largest maker of games on Facebook, according to an April 29 filing.

Fidelity Contrafund (FCNTX) averaged annual gains of 7 percent over the past 10 years to beat 99

percent of its large-capitalization growth stock peers, according to Chicago-based research firm Morningstar Inc.

Danoff's fund aims to invest in stocks whose value hasn't been fully recognized by the public. At the end of last year, it had about 33 percent of net assets in information technology shares, including a \$5.3 billion stake in Apple Inc. (AAPL) and \$3.8 billion in Google Inc.

The fund acquired 2.97 million Facebook shares during the first quarter for about \$25 each, the same price T. Rowe Price reported paying, according to yesterday's filing. Facebook in January said it had raised \$1.5 billion from investors led by <u>Goldman Sachs Group Inc. (GS)</u>, placing a \$50 billion valuation on the closely held business at the time.

Convertible Preferred Shares

Fidelity Contrafund also bought its Zynga convertible preferred stock on Feb. 18, according to yesterday's filing. Zynga held talks in February with T. Rowe Price and Fidelity about selling shares at a price that implied the company's market value was close to \$10 billion, two people familiar with the situation said at the time.

Facebook and Zynga last year laid the groundwork for initial public offerings by imposing fees on employees who sell their shares. Zynga may file for an IPO by the end of June, a person familiar with the plans said last week.

## Morgan Stanley Funds in Big Facebook Bet

By Aaron Lucchetti and Telis Demos Updated Aug. 24, 2012 11:57 a.m. ET

U.S. mutual funds run by Morgan Stanley, MS -0.12% the lead underwriter in Facebook Inc. FB \$16 billion initial public offering, have disproportionately high investments in the social-media company, leaving fund shareholders exposed to the stock's big drop since its May 18 IPO.

New data show that eight of the top nine U.S. mutual funds with Facebook shares as a percentage of total assets are run by Morgan Stanley's asset-management arm, according to fund tracker Morningstar Inc.

Morgan Stanley had a crucial role in lining up orders for Facebook as the social-media company prepared to go public. It helped advise Facebook executives to increase the size and price of the IPO, despite warnings the company was making about its profit outlook. The New York securities firm, which declined to comment, took in \$200 million in underwriting fees and trading profits,

according to regulatory filings and people involved in the deal.

The Morgan Stanley funds that have Facebook shares got many of them before the IPO at prices well below the \$38 offering price.

That means that fund shareholders may still have paper gains on their Facebook purchases, depending on when the fund bought their original stake. It also means the funds have been unable to sell any of their pre-IPO holdings.

The company's mutual funds have made large bets on other big-name technology companies in recent years, including bets on <a href="Apple">Apple</a> Inc., AAPL +1.48% <a href="Amazon.com">Amazon.com</a> Inc.AMZN -1.06% and <a href="LinkedIn">LinkedIn</a> Corp. LNKD +0.14% whose values have all surged this year.

Still, the Morgan Stanley funds' large stakes raise questions about whether the firm's role as lead underwriter influenced decisions.

A large investment bank that simultaneously buys and sells shares in any company "is in this conflicted position," said Frank Partnoy, a law professor at the University of San Diego who worked for Morgan Stanley in the 1990s. "This time it didn't work out."

The funds span the \$1.6 billion Focus Growth fund to the \$2.5 million Institutional Global Advantage fund.

Morgan Stanley's funds don't appear to have violated Securities and Exchange Commission rules limiting investments in offerings underwritten by an affiliate. SEC rules allow bank-affiliated mutual funds to participate in offerings in which the bank's investment bankers are advising the company, as long as the fund managers don't buy more than 25% of the deal and they buy the shares from a different bank.

The concentration of Morgan Stanley's funds stands out when compared with funds operated by other large institutional holders of Facebook stock.

Morgan Stanley Focus Growth Portfolio had 5.7% of its assets in Facebook shares as of July 31, according to Morgan Stanley's website, while Morgan Stanley Institutional Opportunity Portfolio had 5.5% and Morgan Stanley Institutional Growth Portfolio had 4.8%. Others among the eight Morgan Stanley mutual funds range between 3.6% and 4.6%. Those proportions ranged between 5% and 7.8% on June 30, according to the most recent Morningstar data that included other fund families.

"It's surprising that so many Morgan Stanley affiliated funds out of the thousands of mutual funds show up as having

extremely big weights," said Jay Ritter, a professor of finance at the University Florida.

Morgan Stanley isn't the largest institutional holder of Facebook.

Larger holders by dollar value include Fidelity Investments, <u>T. Rowe Price Group</u>Inc. TROW -0.79% and Goldman Sachs Asset Management, a unit of underwriter <u>Goldman Sachs Group</u> Inc. GS -0.24% Goldman also owned Facebook shares before its IPO

Goldman's most concentrated mutual fund position in Facebook was the Technology Tollkeeper fund, with Facebook making up 2.85% of its portfolio as of the end of June.

No mutual funds operated by Fidelity or T. Rowe Price, two other large institutional holders, publicly reported holding more than 1% of their portfolios in Facebook through June.

Many of the Morgan Stanley funds are sold to institutions only, and require a \$5 million minimum investment.

Morgan Stanley Multicap Growth Fund—one fund open to retail investors, including Morgan Stanley Smith Barney brokers—had a stake in Facebook as early as November 2010, when Facebook shares were valued at about \$13. They closed Thursday at \$19.44, down 49% since the IPO.

In June, a commentary on Morgan Stanley's fund website noted that Facebook and other technology stocks were "the leading detractor in the portfolio this quarter," attributing the decline in Facebook shares "to post-IPO volatility."

Under SEC rules, mutual fund managers also are bound by fiduciary duties to look out for their investors' interests over their own.

There's no sign that fund managers at Morgan Stanley bought Facebook shares because of the firm's underwriting relationship with Facebook, or to help curry favor with Facebook executives who chose Morgan Stanley for a key underwriting assignment in the spring IPO.

Mr. Ritter cited "psychological factors" as a possible explanation for the large investments, driven by the fact that many of the funds owned a big chunk of Facebook shares before the company sold shares to the public.

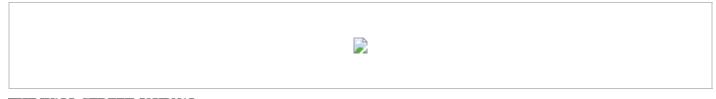

"There's a tendency to fall in love with what you've got rather than stepping back," said Mr. Ritter. Many Morgan Stanley funds added to their pre-public stakes during the month of the IPO—a sign, he said, that "they were drinking the Kool-Aid and became true believers."

Morgan Stanley has streamlined its mutual fund business under Gregory Fleming, who runs both the firm's asset management and wealth management units. Morgan Stanley's asset management at the end of June managed \$311 billion and produced \$456 million in revenues.

Morgan Stanley funds with the strongest liking for Facebook are overseen by Dennis Lynch, the firm's head of growth investing. A Morgan Stanley spokesman declined to comment on behalf of Mr. Lynch.

## Who Else Has a Big Bet on Facebook

ByTelis Demos

We <u>reported this morning about the concentration</u> of Facebook stock in the portfolio of one group of investors, several mutual funds operated by Morgan Stanley Asset Management. But that is not where the concentration of Facebook stock ends.

AFP/Getty Images

According to fresh data from Ipreo, which has tallied up the public filings by all investors, a relatively large chunk of Facebook stock just three months after its \$16 billion IPO in May is held by the company's 10 largest institutional investors (that excludes insiders, like CEO Mark Zuckerberg, and the early VC investors, like Accel Partners).

The top 10 "accounts," in banker-speak, represent about 50% of Facebook's institutional ownership, according to lpreo, the capital markets data firm. That tops the 42% concentration for the top 10 institutions for all second quarter tech IPOs three months after they went public. Across more comparable \$1 billion-plus IPOs since 2010, the concentration is even lighter: The top 10 institutional accounts held 32% of those companies' shares.

This data, keep in mind, does not tell us who bought the IPO. That's a closely guarded secret held by the lead underwriters. These figures are based on public disclosures as of June 30. They are at best a proxy for how the IPO was actually distributed.

So who are the biggest betters — by total number of shares, not necessarily by weighting within the fund — on Facebook? Morgan Stanley Asset Management is only the fifth largest holder by that measure, according to lpreo. Above them are Goldman Sachs Asset Management, Baillie Gifford & Company, Fidelity Investments, and T. Rowe Price Group Inc. Rounding out the top 10 are BlackRock Inc., Sands Capital Management LLC, Jennison Associates LLC, The Vanguard Group Inc. and Capital Research Global Advisors Inc.

Some of those investors were big pre-IPO holders. Goldman Sachs famously marketed a fund with pre-IPO Facebook stock to international investors, which accounts for a big chunk of its holdings. T. Rowe Price and Fidelity also bought in before the IPO. The point here is that they all may still be sitting on Facebook stock gains, depending on when exactly they got into the stock.

Others, however, appear to have gotten in primarily via the IPO, or after it began trading. That includes Baillie Gifford, an Edinburgh-based fund management giant that manages assets of £76.0 billion (\$120 billion). They are a sub-advisor to some large fund management families, like Vanguard, but also manage money on behalf of giant pension funds such as the California Public Employees' Retirement System (CALPERS), the New York City Police Pension Fund and the Korea National Pension Service, according to their website. The firm did not return requests for an interview.

Some of the big investors are also there just because they have to be. BlackRock and Vanguard operate many index funds that may have bought Facebook stock solely because it likely will be a member someday of indexes such as the S&P 500 and Nasdaq 100, and is already in indexes such as the Russell 1000.

What speaks loudly are the absences of firms that are typically very big holders of recently IPO'd companies. Citadel Advisors, which bought 17 other second-quarter IPOs according to Ipreo, owned just 167,164 Facebook shares at the end of June. Wellington Management Company LLP and Lord Abbett & Company LLC, which bought 11 second quarter IPOs, both held fewer than 1m shares. For context, Baillie Gifford reported holding 19 million shares.

# g. Facebook

No. 7,139,761 on 11 of 11 claims. The verdict was split with a ruling of on-sale bar. However, Facebook presented no hard evidence and failed to perform any of the well-settled tests, e.g. *Pfaff Electronics* and *Group One v. Hallmark Cards*. The Federal Circuit affirmed the lower court after rejecting the lower court's arguments for on-sale bar and fabricating new evidence on argument for Facebook in the secrecy of chambers, without a hearing. Chief Justice **John G. Roberts** refused to take Leader Technologies' Petition for Writ of Certiorari.

Tellingly, the judges in this case hold this Fidelity Contrafund stock, namely Chief Justice John G. Roberts, Federal Circuit Judge **Kimberly A. Moore** and Federal Circuit Judge **Evan J. Wallach**.

It is notoriously known that during the pendency of the *Leader v. Facebook* trial, President Obama's political organization via **Obama for America** and **Organizing for America** exploited over 47 million "likes" on Facebook, an infringed technology, to raise money and influence voters in the 2008 and 2012 elections.

# **IBM**

IBM sold **Facebook** 750 patents during the pendency of Leader v. Facebook. The former Director of the U.S. Patent Office, **David J. Kappos**, systematically failed to disclose his bias toward Facebook's and IBM's interests regarding all matters related to Facebook's intellectual property claims; neither has **USPTO** staff. Additionally, Facebook's patent counsel in these IBM transactions is **Fenwick & West LLP** who has substantial conflicts of interest since the firm formerly represented **Leader Technologies, Inc.** in 2002-2003—the company whose social networking technology is being infringed by Facebook.

Prior to leaving his post as Director of the Patent Office, David J. Kappos ordered an unprecedented third reexamination of Leader Technologies' U.S. Patent No. 7,139,761 using arguments identical to those that Facebook lost on at trial and in two previous reexaminations. Magically, the Examiner accepted ALL of Facebook's arguments the fourth time around and is attempting to invalidate the entire patent, even claims that were not asserted at trial.

In addition, former IBMer David J. Kappos established a Patent Office Facebook page for over 10,000 employees during the pendency of the Leader v. Facebook case.

# k. JPMorgan Chase

Notoriously known to be directing the investing activities of Morgan Stanley, T. Rowe Price, Goldman Sachs regarding all things Facebook via Chairman Jamie Dimon. Castlight Health and athenahealth Director Ann H. Lamont is married to Edward "Ned" Lamont, grandson of the founder of JPMorgan, Thomas W. Lamont. Castlight Health and athenahealth are embroiled in the Obamacare and HealthCare.gov scandal. U.S. CTO Todd Y. Park is founder of both athenahealth and Castlight Health. Park's brother, David Y. Park, is the current chief operating officer at athenahealth. Todd Y. Park has advised the Obama administration that they are clear to make the claim that HealthCare.gov technology is open source, despite the evident Leader v. Facebook frauds, among others. The Lamont's hold substantial amounts of Goldman Sachs, JPMorgan and Morgan Stanley holdings which benefited remarkably from Facebook transactions.

I.	LinkedIn Corp.	<b>Facebook director Reid Hoffman</b> is the founder and CEO of LinkedIn. It now notoriously known that Hoffman provided business coaching and early financing to <b>Mark Zuckerberg</b> while he was still a student at Harvard in 2003. LinkedIn software mimics Facebook's functionality, perhaps this is no coincidence.
m.	Morgan Stanley	<b>Facebook's</b> underwriter and large investor, notoriously known. Morgan Stanley also received a \$13+ billion 2008 stimulus grant which was overseen by Facebook collaborator <b>Lawrence "Larry" Summers</b> , who had just recently received hundreds of thousands in speaking stipends from Morgan Stanley compatriots at Goldman Sachs earlier that year, among other perks. Summers counts Facebook COO <b>Sheryl K. Sandberg</b> as his protégé and former employee at the <b>World Bank</b> and <b>U.S. Treasury</b> .
n.	State Street Corporation	Fellow recipient with <b>Goldman Sachs</b> and <b>Morgan Stanley</b> of approximately \$33 billion (collectively) in 2008 stimulus funds overseen by <b>Facebook</b> collaborator <b>Lawrence "Larry" Summers</b> , who had just recently received hundreds of thousands in speaking stipends from Goldman earlier that year, among other perks.
0.	T. Rowe Price	Purchased a 5.2% stake in <b>Facebook's</b> private, pre-IPO "dark pools" stock, as notoriously disclosed in the Facebook S-1 Registration. Also heavily invested in <b>U.S. CTO Todd Y. Park's</b> companies <b>athenahealth</b> and <b>Castlight Health</b> , two companies closely associated with <b>Obamacare</b> and the current administration.
p.	Tesla Motors, Inc.	Michael G. Rhodes, Cooley Godward LLP, Facebook's litigator in Leader Technologies, Inc. v. Facebook, Inc., cv-08-862-JJF-LPS (D. Del. 2008), was appointed Chief Counsel to Tesla Motors, five months before the trial. Tesla Motors received \$465 million in energy stimulus funds at the recommendation of McBee Strategic LLC and Michael Sheehy, former National Security Adviser for House Speaker Nancy Pelosi. a.	Fidelity	Annual Report, 1-31-2013: "the Fund, as a shareholder in the underlying Fidelity Central Funds, will indirectly bear its pro-rata share of the fees and expenses incurred by the underlying Fidelity Central Funds."  Therefore, this fund benefits from the movement of Facebook stock held by Fidelity Central Funds that purchased pre-IPO Facebook private insider stock and distributed those shares to over 30 Fidelity Funds. b.	Microsoft	Microsoft is one of <b>Facebook's</b> largest shareholders. This fact is notoriously known. In addition, Microsoft is a director in the "Leaders Circle" of the <b>Federal Circuit Bar Association (FCBA)</b> , which made an appearance in the <i>Leader v. Facebook</i> appeal. Microsoft's counsel in the <i>Microsoft v. i4i</i> case in 2011 was Facebook's appeals attorney in <i>Leader v. Facebook</i> — <b>Thomas G. Hungar, Gibson Dunn LLP</b> . Chief Justice <b>John G. Roberts, Jr.</b> recused himself from that matter due to his relationship to Hungar and Microsoft. In fact, Thomas G. Hungar, Gibson Dunn LLP, was "counsel of record" for Microsoft. Also representing Microsoft in i4i was <b>Weil Gotshal LLP</b> , who also made an appearance for the FCBA in <i>Leader v. Facebook</i> . Despite Justice Roberts' recusal in Microsoft v. i4i, he failed to recuse himself in this matter where his conflicts were markedly more obvious, including his holdings in such Facebook "dark pool" funds as <b>Fidelity Contrafund K</b> which held stock in Facebook and numerous notoriously known Facebook cartel members, including <b>athenahealth, Microsoft, Goldman Sachs, Drophox, IBM, JPMorgan, LinkedIn, Morgan Stanley, <b>State Street Corp, Tesla Motors, Baidu</b> (China), and <b>Mail.ru</b> (Russia).</b>

d.	Xerox Corp.	Facebook's expert witness, Dr. Saul Greenberg, is closely associated and was formerly employed by Xerox Corp. and asserted a number of Xerox patents as alleged prior art at the Leader v. Facebook trial. Despite losing his arguments at trial, and in two patent reexaminations, Facebook continues to press these Xerox patents. Facebook somehow got Patent Office Director, David J. Kappos, to order an unprecedented third patent reexam of Leader's U.S. Patent No. 7,139,761. The patent examiner, Deandra Hughes has dramatically reversed her longstanding opinions on these Xerox assertions. As troubling, Kappos assigned judge Stephen C. Siu as chief patent judge in this matter, despite the fact that no one disclosed that Judge Siu was formerly employed by Microsoft.  David J. Kappos holds substantial Facebook "dark pool" stock acquired within weeks after being appointed director of the Patent Office by President Obama. # Relationship to Facebook (Conflict of Interest):

No.	Entity/Person	Description of the relationship to Facebook principals	
a.	Accenture	Appointed to replace CGI Federal as contractor responsible for <b>HealthCare.gov</b> . This appointment appears to be out of one Facebook cartel pocket ( <b>Michelle Obama (CGI Federal)</b> , <b>Todd Y. Park</b> , <b>Robert Kocher</b> , <b>Ann H. Lamont</b> ) and into another cartel participant. The site continues to make intimate use of <b>Facebook</b> and <b>Leader Technologies' social networking invention</b> , including the false claims that the technology is " <b>Open Source</b> ." b.	Blackrock	Now notoriously known to be a <b>Facebook pre-IPO dark pools</b> underwriter who forced Facebook staff to sell their shares in order to create the dark pool marketplace, according to <b>Mark Zuckerberg's</b> former speech writer, Katherine Losse.	
c.	Boston Scientific	Site of a Leader Technologies beta testing site in the fall of 2003 for its invention, now called "social networking," where companies owned by <b>Accel Partners ILP</b> elicited trade secrets information just a month before Mark Zuckerberg hacked into the Harvard House sites on Oct. 28, 2003. Several months later, Facebook was on the market, supported by <b>Facebook's</b> largest shareholder and director, <b>Accel Partners, James W. Breyer</b> , Managing Partner, along with <b>Facebook</b> director <b>Reid Hoffman</b> , also CEO of <b>LinkedIn</b> , and along with one of <b>Facebook's</b> largest shareholders and director, <b>Peter Thiel</b> . # d. Expedia (Microsoft)

Notoriously known to be owned by **Microsoft**, one of **Facebook's** largest shareholders. Microsoft is a "Leader" in the "Leaders Circle" at the **Federal Circuit Bar Association**. Microsoft was formerly represented by **Thomas G. Hungar** of **Gibson Dunn LLP** during the *Microsoft v. i4i* proceedings. Hungar also represented the Federal Circuit judges and the Federal Circuit Bar Association in a 2010 conflicts of interest matter, yet failed to disclose these conflicts of interest when the *Leader v. Facebook* matter came before the Federal Circuit.

# e. Fidelity

Fund manager **Robert C. Ketterson** is a business and investing partner with **Facebook's** largest shareholder and former chairman, **James W. Breyer**, **Accel Partners LLC**. Breyer and Ketterson served for years as director of the **National Venture Capital Association** which also included **Vangaurd's Anne Rockhold** (now CFO of Accel Partners LLP) and **Ann H. Lamont**, director of U.S. CTO **Todd Y. Park's** companies **athenahealth** and **Castlight Health** which are embroiled in current **Obamacare** and **HealthCare.gov** scandals. Lamont serves as a director of athenahealth and Castlight Health with **Robert Kocher**, Obamacare architect and member of the **National Economic Council** with **Lawrence "Larry" Summers**, former director of the Council where he oversaw the bailout of **Facebook** underwriters and large shareholders, **Goldman Sachs** and **Morgan Stanley** under the direction of **JPMorgan Chase** and **Jamie Dimon**.

Annual Report, 1-31-2013: "...the Fund, as a shareholder in the underlying Fidelity Central Funds, will indirectly bear its pro-rata share of the fees and expenses incurred by the underlying Fidelity Central Funds."

Therefore, this fund benefits from the movement of Facebook stock held by Fidelity Central Funds that purchased pre-IPO Facebook private insider stock and distributed those shares to over 30 Fidelity Funds. When one fund benefits, all benefit, including FLPSX.

# f. Goldman Sachs

**Facebook's** underwriter and large investor, notoriously known. Goldman also received a \$13+ billion 2008 stimulus grant which was overseen by Facebook collaborator **Lawrence "Larry" Summers**, who had just recently received hundreds of thousands in speaking stipends from Goldman earlier that year, among other perks. Goldman is also notoriously known to be a Moscow, Russia business partner with Russian oligarchs **Alisher Usmanov** and **Yuri Milner**. Yuri Milner is a World Bank protégé of Summers and was teamed with Facebook COO **Sheryl K. Sandberg**.

# g. IBM

IBM sold **Facebook** 750 patents during the pendency of Leader v. Facebook. The former Director of the U.S. Patent Office, **David J. Kappos**, systematically failed to disclose his bias toward Facebook's and IBM's interests regarding all matters related to Facebook's intellectual property claims; neither has **USPTO** staff. Additionally, Facebook's patent counsel in these IBM transactions is **Fenwick & West LLP** who has substantial conflicts of interest since the firm formerly represented **Leader Technologies, Inc.** in 2002-2003—the company whose social networking technology is being infringed by Facebook.

Prior to leaving his post as Director of the Patent Office, David J. Kappos ordered an unprecedented third reexamination of Leader Technologies' U.S. Patent No. 7,139,761 using arguments identical to those that Facebook lost on at trial and in two previous reexaminations. Magically, the Examiner accepted ALL of Facebook's arguments the fourth time around and is attempting to invalidate the entire patent, even claims that were not asserted at trial.

In addition, former IBMer David J. Kappos established a Patent Office Facebook page for over 10,000 employees during the pendency of the *Leader v. Facebook* case.

# h. JPMorgan Chase

Notoriously known to be directing the investing activities of Morgan Stanley, T. Rowe Price, Goldman Sachs regarding all things Facebook via Chairman Jamie Dimon. Castlight Health and athenahealth Director Ann H. Lamont is married to Edward "Ned" Lamont, grandson of the founder of JPMorgan, Thomas W. Lamont. Castlight Health and athenahealth are embroiled in the Obamacare and HealthCare.gov scandal. U.S. CTO Todd Y. Park is founder of both athenahealth and Castlight Health. Park's brother, David Y. Park, is the current chief operating officer at athenahealth. Todd Y. Park has advised the Obama administration that they are clear to make the claim that HealthCare.gov technology is open source, despite the evident Leader v. Facebook frauds, among others. The Lamont's hold substantial amounts of Goldman Sachs, JPMorgan and Morgan Stanley holdings which benefited remarkably from Facebook transactions.

### i. Microsoft

Microsoft is one of **Facebook's** largest shareholders. This fact is notoriously known. In addition, Microsoft is a director in the "Leaders Circle" of the Federal **Circuit Bar Association (FCBA)**, which made an appearance in the *Leader v*. Facebook appeal. Microsoft's counsel in the **Microsoft V. 141** case in 2011 was Facebook's appeals attorney in *Leader v. Facebook*—Thomas G. Hungar, Gibson **Dunn LLP**. Chief Justice **John G. Roberts, Jr.** recused himself from that matter due to his relationship to Hungar and Microsoft. In fact, Thomas G. Hungar, Gibson Dunn LLP, was "counsel of record" for Microsoft. Also representing Microsoft in i4i was **Weil Gotshal LLP**, who also made an appearance for the FCBA in *Leader v*. Facebook. Despite Justice Roberts' recusal in Microsoft v. i4i, he failed to recuse himself in this matter where his conflicts were markedly more obvious, including his holdings in such Facebook "dark pool" funds as **Fidelity Contrafund K** which held stock in Facebook and numerous notoriously known Facebook cartel members, including athenahealth, Microsoft, Goldman Sachs, Dropbox, IBM, JPMorgan, LinkedIn, Morgan Stanley, State Street Corp, Tesla Motors, Baidu (China), and Mail.ru (Russia).

# **Mutual Funds and Taxes**

Distributions from mutual funds occur for several different reasons and are subject to differing tax rates. Many mutual funds bundle most of their payouts into single, net distributions at the end of each year.

Whenever a mutual fund company passes earnings and other payouts to shareholders, it's known as a distribution. The major distribution for most funds comes at the end of each year, when net amounts are calculated—capital gains and other earnings minus the expenses of running the funds.

It's up to you to report mutual fund transactions on your tax return, as well as pay the appropriate taxes on each type of fund income.

#### Distributions and your taxes

If you hold shares in a taxable account, you are required to pay taxes on mutual fund distributions, whether the distributions are paid out in cash or reinvested in additional shares. The funds report distributions to shareholders on IRS Form 1099-DIV after the end of each calendar year.

For any time during the year you bought or sold shares in a mutual fund, you must report the transaction on your tax return and pay tax on any gains and dividends. Additionally, as an owner of the shares in the fund, you must report and potentially pay taxes on transactions conducted by the fund, that is, whenever the fund sells securities.

If you move between mutual funds at the same company, it may not feel like you received your money back and then reinvested it; however, the transactions are treated like any other sales and purchases, and so you must report them and pay taxes on any gains.

For federal tax purposes, ordinary income is generally taxed at higher rates than qualified dividends and long-term capital gains. The chart below illustrates how each type of mutual fund income is taxed.

# Mutual funds in retirement and college savings accounts

Certain accounts, such as individual retirement and college savings accounts, are tax-advantaged. If you have mutual funds in these types of accounts, you pay taxes only when earnings or pre-tax contributions are withdrawn. This information will usually be reported on Form 1099-R.

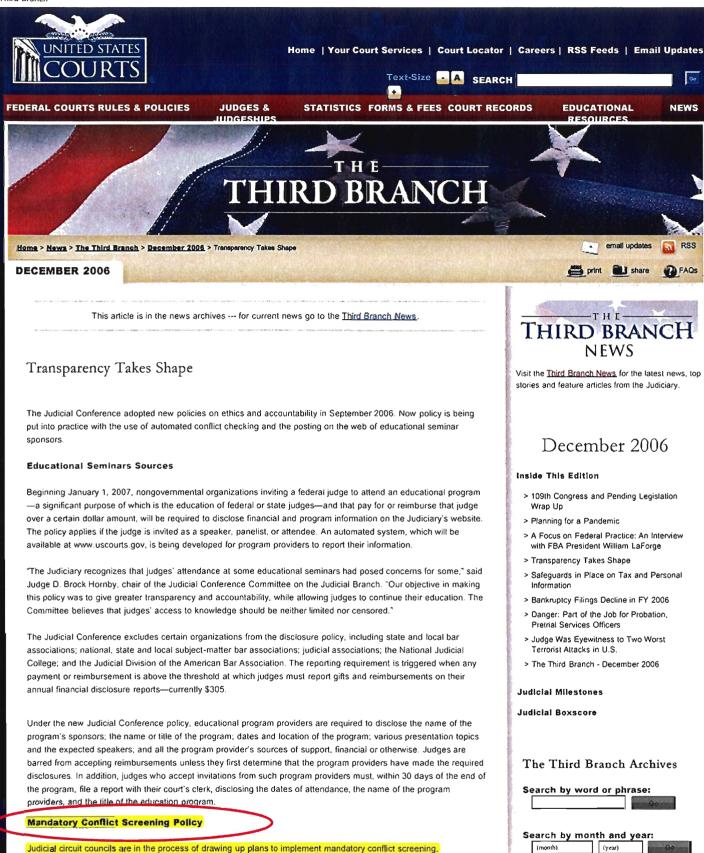

Type of distribution	Definition	Federal income tax treatment
Long-term capital gains	Net gains from the sale of shares held for more than one year; may include some distributions received from investments held by the fund	Subject to the capital gains rates, usually lower than the ordinary income tax rates
Short-term capital gains	Net gains from the sale of shares held for one year or less	May be treated as ordinary dividends, thus taxable at ordinary income tax rates
Qualified dividends	Dividends from common stock of domestic corporations and qualifying foreign corporations	Normally taxed as long-term capital gains (subject to certain holding period and hedging restrictions)
Ordinary or non-qualified dividends	Investment income earned by the fund from interest and non-qualified dividends minus expenses; often used as a blanket term that includes all taxable income except long-term capital gains.	Taxable at ordinary income tax rates
Tax-exempt interest	Some or all interest on certain bonds, usually state or local municipal bonds, designated as tax-exempt	Not taxable for federal tax purposes; may be subject to state and/or local taxes, depending on your resident state and the type of bonds purchased
Taxable interest	Interest on fixed-income securities	Taxable at ordinary income tax rates
Federal interest	Interest on federal debt instruments	Taxable at ordinary federal income tax rates, but exempt from state income tax
Required distributions	Non-investment income required to be distributed by the fund (such as foreign currency gains that are taxed as ordinary income when distributed)	Taxed as ordinary income
Return of capital	A portion of your invested principal returned to you	Not taxable

#### When there is no distribution

If a mutual fund does not have any capital gains, dividends, or other payouts, no distribution may occur. There may also be a non-taxable distribution. Shareholders will not be required to pay taxes if the fund

"My funds are doing great—I must owe a lot in taxes."

The new conflict screening policy, approved by the Judicial Conference in September 2006, requires courts and judges to use automated screening software to help identify cases in which they may have a financial conflict of interest and should disqualify themselves. The screening can also be used to check for nonfinancial conflicts. The software has been deployed by the Administrative Office as part of the Case Management/Electronic Case Files (CM/ECF) system used by nearly all district and bankruptcy courts. As appeals courts begin implementing the CM/ECF system over the next year, they'll also begin using the accompanying conflict checking software.

As new matters are docketed in CM/ECF, the conflict checking software compares names of parties and attorneys to the names on a judge's recusal list...

However, the software cannot catch every conflict. And that's due in part to the ever-changing nature of big business.

"Keeping track of conflicts can be extremely complicated," said Judge Gordon J. Quist, chair of the Judicial Conference Committee on Codes of Conduct, "Especially when mergers and acquisitions lead to continual changes in investment portfolios. The parties are responsible for providing notice of corporate changes, and the courts need to make sure this happens. And judges should always perform a manual check for conflicts, in addition to the automated screening."

The AO, with the Judicial Conference Committee on Codes of Conduct and with input from judges, circuit executives and clerks of court, has prepared a model plan for conflict screening that addresses key issues and offers sample language spelling out the obligations of courts and judges. The model plan also offers a number of options for possible adoption by circuit councils or courts. For example, one option is to determine how frequently screening software will run. Circuit councils will report to the Judicial Conference on their preliminary plans by January 31, 2007.

# JUDICIAL COUNCIL OF THE DISTRICT OF COLUMBIA CIRCUIT MANDATORY CONFLICT SCREENING PLAN

**Preface**: On September 19, 2006, the Judicial Conference of the United States adopted a mandatory conflict screening policy requiring courts and judges to implement automated screening to identify financial conflicts of interest. Although automated screening (like manual screening) is not foolproof, it is a valuable tool for detecting possible financial and other conflicts of interest. The Judicial Conference policy is to be administered and directed by the circuit councils or by those individual courts not subject to the authority of a circuit council.

**Authority**: The Judicial Council of the District of Columbia Circuit adopts this plan under the authority set forth in 28 U.S.C. § 332(d)(1) and in accordance with the mandatory financial conflict screening policy adopted on September 19, 2006, by the Judicial Conference.

§ 1. Scope. This plan applies to the court of appeals, district court, and bankruptcy court within the District of Columbia Circuit as defined by law, and to each judge of those courts in regular active service, retired under 28 U.S.C. §§ 371(b) or 372(a) and performing duties pursuant to a designation under 28 U.S.C. §§ 291 to 294, or recalled to judicial service. This plan does not apply to judges retired under 28 U.S.C. §§ 371(b) or 372(a) but not performing duties or retired judges eligible for recall but not serving on recall.

### § 2. Definitions. For purposes of this plan:

- (a) "Conflict of interest" refers to an interest that disqualifies a judge as provided in Canon 3C(1) of the Code of Conduct for United States Judges. See also 28 U.S.C. § 455(a), (b).
- (b) "Financial conflict" or "financial conflict of interest" refers to a financial interest that disqualifies a judge as provided in Canon 3C(1)(c) of the Code of Conduct for United States Judges. See also 28 U.S.C. § 455(b)(4).
- (c) "Financial interest" has the meaning set forth in Canon 3C(3)(c) of the Code of Conduct for United States Judges. See also 28 U.S.C. § 455(d)(4).
- (d) "Judge" refers to circuit, district, bankruptcy, and magistrate judges and any other judicial officers subject to the Code of Conduct for United States Judges.
- § 3. Court Obligations. Each court shall implement automated screening to identify possible financial conflicts of interest for each judge appointed, designated and assigned, transferred, temporarily assigned, or recalled to serve the court. Each court shall use the screening component of the Case Management/Electronic Case Files (CM/ECF) system or the screening component of the Appellate Information Management System (AIMS). Additionally, pursuant to § 6 of this plan the circuit council approves the use by the court of appeals of its automated calendaring program ("CABS") to further aid in the implementation of this policy. In implementing the screening, each court shall:

- (a) enter the following information into the database used for automated screening or (when feasible) arrange for the parties to do so: the parties, attorneys, law firms, and corporate parents disclosed by the parties;
- (b) at the request of a judge, enter the judge's conflicts list into the database used for automated screening or assist the judge or chambers staff to do so;
- (c) take reasonable steps to ensure that parties and/or attorneys provide information needed for conflict screening, including corporate parent statements as required by Fed. R. App. P. 26.1, Fed. R. Bankr. P. 1007(a)(1) and 7007.1, Fed R. Civ. P. 7.1, Fed. R. Crim. P. 12.4, and local court rules that supplement the relevant Federal Rules.
- (d) conduct automated screening on a regular schedule, including screening new matters as they are assigned or to be assigned to a judge or panel and screening all existing matters periodically or after each new entry of relevant information into the database used for automated screening;
- (e) notify the judge (or designee), when a possible conflict is identified;
- (f) provide periodic notices to judges reminding them to review and update their conflicts lists and to review and update the designee who will receive notice when a possible conflict is identified; and
- (g) provide information, training, and assistance to judges and staff to facilitate their participation in automated screening.
- § 4. Obligations of Judges. Each judge has the ultimate responsibility for identifying and avoiding conflicts of interest and should ensure that assigned matters are reviewed for conflicts before action is taken in the matter. To assist in discharging this obligation, each judge shall use automated screening to identify financial conflicts of interest by using the screening system implemented by each court to which the judge is appointed, designated and assigned, transferred, temporarily assigned, or recalled to serve. Each judge may also use the court's automated screening to identify conflicts of interest other than financial conflicts. While the United States Judicial Conference mandates the use of automated screening for conflicts, nothing in this policy precludes judges from supplementing automated screening resources by utilizing additional methods such as manual screening to identify conflicts. Each judge also shall:
  - (a) keep informed about personal and fiduciary financial interests, and make a reasonable effort to keep informed about the personal financial interests of the spouse and minor children residing in the household, as required by Canon 3C(2) of the Code of Conduct for United States Judges; see also 28 U.S.C. § 455(c);
  - (b) develop a "conflicts list," identifying financial conflicts, for use in automated screening;

- (c) review the conflicts list at regular intervals and update the conflicts list as financial interests change;
- (d) employ the conflicts list in the court's automated screening by entering the interests listed into the database used for automated screening; the information may be entered personally, by chambers staff, or with the assistance of court staff; and
- (e) when notice is provided to the judge (or designee) that a possible conflict has been identified, determine or cause to be determined whether a conflict exists and then arrange for appropriate action to resolve the conflict (i.e., nonassignment, recusal, divestiture of the interest).

### § 5. Exceptions.

- (a) Upon application, the circuit council shall except a court from § 3 of this plan, and shall except the judges of that court from § 4 of this plan, where automated screening through CM/ECF, AIMS, or any other automated screening system is not available. The circuit council shall limit the duration of the exception to the time period necessary to allow the court to implement automated screening as provided in this plan.
- (b) Upon application, the circuit council may except a judge from § 4 of this plan where the circumstances indicate that the judge's participation in automated screening is unnecessary to identify financial conflicts of interest or is otherwise infeasible, including in the following circumstances:
  - (1) the judge has no case currently assigned and is not receiving new assignments (e.g., due to serious illness); or
  - (2) the judge files a written certification stating that he or she knows of no financial interest attributable to the judge requiring disqualification as a financial conflict of interest and does not expect to acquire such an interest in the foreseeable future.

The circuit council shall specify the duration of the exception (i.e., a specified time period or permanent), provided, however, that an exception under § 5(b)(2) of this plan shall not exceed one year.

- § 6. Approval of Alternative Screening. A court may request that the circuit council approve an alternative automated screening system other than CM/ECF or AIMS (such alternative system may not receive automation support from the Administrative Office). The circuit council shall approve an alternative system only if its functionality is comparable to the automated screening in CM/ECF or AIMS in all major respects, including the ability to:
  - (a) create and store electronically a judge's conflicts list;
  - (b) compare entries on a judge's conflicts list to parties, attorneys, law firms, and corporate parents in the court's docket;
  - (c) allow for screening on a regularly scheduled basis and on an ad hoc basis; and

(d) provide notice to a judge when a possible conflict is identified.

### § 7. Reporting Obligations.

- (a) Each chief judge shall make such reports as are requested by the circuit council.
- (b) The circuit council shall make such reports as are requested by the Judicial Conference.
- § 8. Confidentiality of Conflicts Lists. Nothing in this plan requires a court or judge to disclose the interests listed on a conflicts list to anyone except to the limited extent necessary in the court's implementation of its automated screening.
- § 9. Enforcement. Under the authority of 28 U.S.C. § 332(d)(1), courts and judges subject to this plan must comply with its requirements. A judge who violates this plan may be subject to discipline in accordance with 28 U.S.C. §§ 332(d)(2) and 351-364. A judge appointed by a court who violates this plan may be subject to discipline by the appointing court in accordance with existing customary practices.
- § 10. Effective Date. This plan takes effect on January 1, 2008.

Adopted by the Judicial Council of the District of Columbia Circuit on December 20, 2007.
