The Deep State Shadow Government

The American Republic must Drain this Swamp

Rogue Agents of the Central Intelligence Agency (C.I.A.) [now we know are Babylonian Radhanite pagan merchant-bankers who hide behind Judaism and organized within the British Pilgrims Society in The City of London] promote a globalist agenda for a corporate-run "new world order" technocracy. These **evil people** only pretend to care while they demean "deplorables," line their pockets & laugh at the U.S. Constitution.

Almost nobody would realize that all these people, in some way or another, are working for a secret rogue C.I.A. Hard evidence of the conspiracy among these persons and organizations is available on the [Crimeline](#). This is a *prayer list* for their repentance, whistleblowing, and to turn from their wicked ways.

Rev. Jul. 25, 2019 | SES = [Senior Executive Service](#); **LEGEND:** These corruptocrat photos contain a stylized Christian Celtic Wheel Cross in the background alongside the text "**Corruption Central**," meaning we have put the person's conduct under the microscope and discovered that he or she is at the center of global corruption.

Judge Amy Berman Jackson asserted in Feb. 2019 that a heavily cropped version of her corruptocrat photo (First Amendment OPINION about a public official!) where the "corruption" text had been cropped out, as had the yellow toxic hazardous waste image, was unambiguously a rifle cross hair in her interpretation. The context of the image had been so heavily cropped that it looked suspiciously like someone had been paid to butcher it to fit her bogus narrative. Even so, her interpretation of the butchered version shows not only her woeful ignorance of theology, history, symbology and engineering, but also her self-serving violation of the [Code of Conduct for U.S. Judges](#) requiring her recusal for *bias*—not even counting her [financial partiality to investment in scores of Clinton Foundation donors](#). The background logo could be many

things, but she clearly *wanted* to see only a rifle sight (perhaps the victims of [her Fast and Furious gun running fiasco with Eric Holder](#) weigh heavily on her soul). Others assert equally ignorantly that the Cross is a pagan or white supremacist symbol.

This *stylized* Chi-Rho Christian Cross dates to 312 A.D. when Emperor Constantine adopted the symbol after his history-changing "By this sign, you shall conquer" vision of the Cross of Jesus Christ on the Milvian Bridge. A similar Wheel Cross form began to be widely used in Ireland by the seventh century. *See footnote.* The triple entendre indicates that the person's corrupt life—when studied under a microscope—has been found wanting, but that there is hope in Christ if the person repents from his or her wicked ways. It triples as a reticle or graticule built into all sorts of eyepieces in microscopes, oscilloscopes, surveying instruments, astronomy optics, precision pointers, binoculars, etching equipment, and yes, gun sights, but also computer mouse pointers!

Therefore, to claim that it could *only* mean a gun sight is truly ignorant or self-serving. As discussed, it is a call to prayer and repentance based upon *microscopic* observation of the corruptocrat's conduct. For Judge Jackson to interpret the symbol in the only way she could think of as her judicial excuse to gag Roger Stone's FREE SPEECH right to defend himself is a *heinous abuse of her authority*. Chief Justice John Roberts should censor her immediately. Patriots must demand it. To further reinforce this triple entendre and to accommodate judicial sensibilities, our volunteers have updated the stylized Celtic Wheel Cross with an *actual* one, as well as changed the logo type to "**Corruption Exposed**." May the Lord deliver us from corrupt judges and their accomplices in America and around the world. Proverbs 17:23: "Corrupt judges accept secret bribes, and then justice is not done."

*About the poster [Celtic wheel cross logo](#): Theme: We are praying that you will repent of your corruption and see the light of Jesus Christ.

Cemetery monument in Killorglin, County Kerry, Ireland

From Wikipedia: Ringed crosses similar to older Continental forms appeared in Ireland and Scotland in incised stone slab artwork and artifacts like the Ardagh chalice. However, the shape achieved its greatest popularity by its use in the monumental stone high crosses, a distinctive and widespread form of Insular art. These monuments, which first appeared in the 9th century, usually (though not always) take the form of a ringed cross on a stepped or pyramidal base. The form has obvious structural advantages, reducing the length of unsupported side arms. There are a number of theories as to its origin in Ireland and Britain. Some scholars consider the ring a holdover from earlier wooden crosses, which may have required struts to support the crossarm. Others have seen it as deriving from indigenous Bronze Age art featuring a wheel or disc around a head, or from early Coptic crosses based on the ankh. However, Michael W. Herren, Shirley Ann Brown, and others believe it originates in earlier ringed crosses in Christian art. Crosses with a ring representing the celestial sphere developed from the writings of the Church Fathers. The "cosmological cross" is an important motif in Coelius Sedulius's poem Carmen Paschale, known in Ireland by the 7th century.
